His Honor Mayor Smith has been con-
fined to his bed by sickness since Satur-
day afternoon.
These paper gravats are the latest
fashionable craze. They have not yet,
however, struck Wilmington.
Mr. J. D. Williams, of Fayetteville
is in the city on one of his rare visits.
We are pleased to see him looking so
well.
By closely studying the predictions of
weather breeders, it may be set-
tled as an irresistible conclusion that,
when it thunders, lightning may be look-
ed for.
Mr. L. J. Otterbourg left for New
York this morning in the interest of his
customers. He will make a careful sur-
vey of the clothing fields and select only
the best of goods and newest styles.
Mr. Sol Bear leaves to-morrow for the
New York and Boston markets to lay in
the fall and winter stock of goods. He
contemplates buying very largely this
season and will be prepared to furnish
his customers with the newest and cheap-
est of everything.
Messrs. Hart, Bailey & Co. have placed
their engine a chime whistle of new
design which is intended to raise the na-
tional flag. The whistle resembles the old one
in shape but has three graduated inter-
nal compartments which produce a com-
bination of sounds.

THE DAILY REVIEW.

VOL. V WILMINGTON, N. C., MONDAY AUGUST 22, 1881. NO. 197

Venor puts us down for more hot weather this month: 21st sultry and showery, (correct); 22d sultry and windy, (sultry but not windy to-day); 23 and 24 heat and wind; 25 and 26 wind and rain; 27, 28 and 29 cooler weather; 30 and 31 pleasant weather, cool nights, with indications of returning heat.

Beautify your homes by using the N. Y. Enamel Paint, ready mixed and warranted. Sold only at Jacobs's.

Three infallible means of forecasting the seasons: "If the corn husks are very thick, the winter will be colder than the summer. If the corn husks are very thin, the summer will be warmer than the winter. If the corn husks are neither too thin nor too thick, the summer will be warm and the winter will be cold."

"Buchupalpa."
New, quick, complete cure 4 days, urinary affections, smarting, frequent or difficult urination, kidney diseases. \$1. Druggists. Depot Jas. C. Munds.

Foreign Shipments.
Norwegian barque *Adelheim* cleared to-day at this port for Hamburg, with 3,750 barrels rosin, shipped by Messrs. Paterson, Downing & Co.; and schooner *W. B. Mackie* cleared for Port au Prince, Hayti, with 25,000 shingles and 196,400 feet lumber, shipped by Messrs. E. Kidder & Sons.

Food for the Brain and Nerves
that will invigorate the body without intoxicating is what we need in these days of rush and worry. Parker's Ginger Tonic restores the vital energy, soothes the nerves and brings good health quicker than anything you can use.—*Tribune.* See other column.

Have Arrived.
The ricebirds made their appearance in the ricefields about this city on Saturday, the 20th inst., according to a long-established custom among these little epicurean tidbits. What surprises us is, that they do not on some occasions come either a day ahead or a day after. How do they know which day is the 20th of August?

To Builders and others—Go to JACOBI'S for Sash, Blinds and Doors, Glass, &c. You can get all sizes and at the lowest prices.

Arrests Saturday Night.
Fanny Gore, the Queen of the Hollow, was arrested Saturday night for disorderly conduct and is now meditating in the loneliness of a cell upon the trials and sorrows incident to a life of infamy and disgrace.

Aaron Jones, colored, was arrested and locked up Saturday night, charged with an assault and battery upon Oscar Peterson, a Norwegian sailor. Owing to the indisposition of the Mayor all of these cases, together with others continued from last week, were continued over for trial until to-morrow.

That Belfry.
The bids for erecting a belfry on the City Hall were opened on Saturday last by the Committee but no award was made as the matter will be referred to the meeting of the Board of Aldermen next Monday evening. This action has been taken in deference to the sentiment of the community, there having been a strong opposition manifested to the proposal on the part of many influential citizens, as was expressed in a communication to the Review published last Friday.

Runaway Accident.
At a little before 2 o'clock to-day, as Mr. J. H. Strauss, doing business at the corner of Chestnut and Water streets, was returning from dinner, driving his dray, on which were a number of empty butter firkins, the noise made by the latter alarmed the horse, just as he was descending the hill leading from Front to Water streets. Some of the firkins fell off, and the horse, thereupon became totally unmanageable. Mr. Strauss was thrown down on the rocks, receiving some pretty severe cuts about the head, and the horse with the dray was brought up by slipping and falling on the pavement in front of Mr. Strauss' store. It is fortunate that he fell as he did, as there were several old colored women, hucksters, on the pavement, who were so paralyzed by fear as to be unable to move. The horse fell almost at their feet. Dr. Baie was called in and dressed Mr. S's wounds which, although painful, are not serious. The horse's legs were skinned by his slide on the pavement.

A Visit to the Poor House.
We recently made a visit to the County Poor House, in company with the Superintendent of Health, Dr. J. C. Walker, and we confess our surprise as well as gratification at the perfect order, system and neatness which characterizes everything connected with that institution. We have heard much praise bestowed upon the present very efficient Superintendent, for his excellent management, since his advent into office, but the full has not been told. A visit to this home of the unfortunate and a personal interview with the Superintendent himself is necessary to see, understand and appreciate the herculean tasks which Superintendent Savage undertook on the 1st day of January, and has performed in the short period since that time. The institution has now some thirty-five inmates, eight of whom are white, the balance being all colored. The two races are separate and distinct, and the rooms and bedding of all are in good condition; in fact, the sleeping apartments that came under our observation are the perfection of neatness and order. Unfortunately for Mr. Savage, he has been at considerable expense in refitting, cleaning and repairing, and making other necessary improvements to the grounds and buildings, which the county does not reimburse him for; consequently, the first year of the new management has not been very remunerative. The grounds are all enclosed with substantial fences, and the enclosed part, with the exception of the yard, is under cultivation. Many of these fences Mr. Savage erected himself, while he has used lime, in the shape of whitewash, in almost every direction. The inmates all presented a neat and tidy appearance, as well as a well satisfied air. The insane department bears the same evidence of good order and cleanliness that the other departments do. There is one thing, however, connected with this last named department which Superintendent Savage informs us needs attention before the severity of winter is upon us. We refer to the facilities for heating the apartments where the lunatics are sometimes forcibly confined, which the Superintendent says are now insufficient. It frequently happens that these unfortunates become uncontrollable and have to be placed in straight jackets and if the room is not sufficiently heated by means of a good heater the lunatics may suffer, because they frequently throw all the covering off, besides tearing their clothes in shreds. We respectfully suggest to our Board of County Commissioners a careful consideration of the matter. We think another matter worthy of consideration, too, and that is the way of appointing a Superintendent. When a good man is found to take charge of the place he ought to be kept in that position as long as he is willing to remain. The present way of allowing the lowest bidder to get the office we think decidedly wrong; one man might bid ten cents a day for every inmate and then half starve the poor unfortunates to make a profit out of his position. We think the present manager is the right man in the right place.

Call at JACOBI'S for Garden Hoes and Rakes, Shovels, Spades, Axes, &c. There you have the lowest prices.

Homicide in Sampson.
We learn from a gentleman from Sampson county, now in the city, of a homicide which occurred on Saturday last near Clinton. Dr. Stevens, a young man who has but recently received his medical diploma, was fishing with some others in a pond near Clinton when a difficulty arose between him and a colored man, whose name our informant could not give us. The dispute waxed warm and the latter party seized a fence rail and advanced towards his adversary as though to strike him with it. Dr. Stevens thereupon drew a pistol from his pocket and warned the other not to advance upon him. The warning was unheeded and he was again told that if he did not stop where he was he (Stevens) would fire upon him. The man with the rail continued to advance, however, when Dr. Stevens fired and the man fell mortally wounded. These are all of the particulars we could glean from our informant.

Mrs. Quabach, a lady residing at No. 103 Fourth Place, New York, states that she was subject to frequent attacks of headache, and used St. Jacobs Oil with great satisfaction. It relieved her when nothing else would.

To-Morrow Night
The Arion Quartette Club will, by request, give a parlor concert at Capt. Manning's place, Pine Grove, Wrightsville Sound, to-morrow evening. The wagonette will leave Capt. Southerland's stables at 6:30 o'clock. This is a favorable opportunity for an evening of pleasure, good music and a fine supper which will be rich in Sound fare.

A Turnover
Yesterday afternoon, as a gentleman and lady were coming from the Sound on the turnpike, in a buggy, one side of the shaft of the buggy became detached and struck the horse on the legs, which so badly frightened the animal that he dashed off. Before he could be reined in he ran the front wheel of the buggy on the wheels of another and capsized the buggy to which he was attached, throwing the occupants out. We are pleased to know that they were not seriously hurt.

The "Mullet Road" Putting on "Style"
Two new passenger cars for the Atlantic Railroad were brought down to Goldsboro to-day. They are very handsome; have the Janney coupler and platform, automatic air brakes and all the "modern improvements." The cars are lettered as follows: Midland North Carolina Railway, A. and N. C. Division.

They were built at the Delaware car works, and in their bright new dress of canary colored paint make a happy contrast with the dingy old cars now on the line.

We hope this first instalment is an earnest of many other improvements that Mr. Best will introduce upon the line of the road he has leased, and an assurance that the proposed road from Goldsboro to Salisbury will be built.

The Midland N. C.
A gentleman in this city who came down on the North Carolina R. R. on Saturday last met and was introduced to Mr. W. J. Best, who was then on his way from Raleigh to Morehead. Mr. Best stated that he was then on his way to Morehead for the purpose of meeting the engineers who have been out on the survey of the proposed Midland R. R., between Goldsboro and Salisbury, and that at this meeting estimates were to be submitted relative to the cost of construction, &c., and that work on the road would certainly be begun on or about the first of October. He was uncertain then whether the road would be begun at one end only of the line or at both ends simultaneously, but this point would be decided at the meeting. When spoken to in regard to the Western N. C. R. R. he was very reticent.

Will Leave Us.
General Jas. H. Lane, who has made his residence in Wilmington for the past twelve months, trying to teach the young idea how to shoot, (having directed the sires of these same young ideas where to shoot, in the time not very long ago) has been appointed to a chair in the college of Mines and Metallurgy at Rolla, Missouri, and has accepted the Professorship of Mathematics in that institution. We congratulate our esteemed and worthy compatriot and fellow sufferer in the war for Southern Independence upon his good fortune, but at the same time we deplore his loss in our community most sincerely. As a gentleman of refinement and culture General Lane will be an addition to any community, while his devotion to the cause we all loved so dearly in the South and his particular and noble vindication of the North Carolina troops from the foul aspersions of one Walter H. Taylor has endeared him to North Carolinians everywhere. As a teacher, General Lane has filled the full measure of all that was expected of him. As an evidence of his success in this respect, his full school as well as the number and character of the scholars bear ample testimony. General Lane takes his departure for his new field of labor early in September, and we know that the good wishes of all of his old comrades and friends hereabouts, as well as many of his new acquaintances made during his short residence in this city, will follow him to his new home.

Hall & Pearsall.
TRUTHS WORTHY OF REMEMBRANCE.
FIRST—OTTERBOURG'S ABILITY TO carry a larger and more varied stock of Ready Made Clothing and Furnishing Goods than any house in this city.

Second—The rapid and perpetual growth of Otterbourg's trade—a fact which is exciting public comment, and an honor worthy of emulation.

Third—That Otterbourg, being young in years, is better calculated to make choice of selection as regards style, color, finish, than an older person, who is aptly adheres to Revolutionary time principles. Otterbourg's clothing experience of fifteen years has made him an adept as far as quality and durability are concerned.

Fourth—That Otterbourg being qualified to pay cash down for every dollar's worth of goods bought, (see July report from Northern manufacturers), is also better qualified to sell clothing at less figures and offer greater advantages than those who are not thus qualified.

Fifth—Otterbourg claims to have (and the community coincide), the largest and best adapted building for his business in North Carolina. Plenty of light and any quantity of room to display stock. Nobody need be deceived by the useless shade commonly shown on goods by useless show windows. Otterbourg's stock stands the test of a forty foot open fire.

Sixth—Otterbourg will leave to-morrow for New York; will be gone one month. A fact of no consequence in itself, but of great importance to a scrupulous trader, as he will devote that time to a length of time to the personal supervision of the manufacture into clothing of his imported fine Cloths and Cassimeres.
