THE DAILY REVIEW.

JOSH. T. JAMES, Editor & Prop'r

WILMINGTON, N. C.

MONDAY, AUGUST 22, 1881.

Entered at the Postoffice at Wilmington, N. C., as Second Class Matter.

Locomotives come into Milwaukee covered an inch deep with crushed grasshoppers. The coating looks like a "greenish, yellow-streaked mud." The grasshoppers kill themselves flying against the locomotives.

A telegraph wire in India is stretched between the summits of two hills—each hill being 1,200 feet high—across the Kistnah river. The span of wire is over 6,000 feet in length, and is believed to be the longest in the world. The only engineering appliance used in stretching this cable was a common windlass.

The creditors of the Glasgow Bank have now received 90 per cent of their claims. Of 1,819 shareholders, only 269 remain. The others are ruined. Nearly 600 gave up all they had, and began the world again. To the trustees of the relief fund, which exceeded $1,950,000, there were 883 applications for aid.

Recently two pigeons, one belonging to Mr. A. Perry Baldwin and the other to Mr. N. C. Gould, of Newark, were let go at Long Branch. The one belonging to Mr. Baldwin flew to New York city—a distance of thirty-three miles, air-line—in fifty two minutes, and the other made the distance in seventy-two minutes.

Dr. Hammond states that there are very few, if any, cosmetics which do not contain lead. He also says that death from lead poisoning by the use of cosmetics is by no means an uncommon case. The introduction of lead into the system produces various effects—colic, paralysis, prostration of the nervous system and insanity being the most common results.

Invitations have been sent to all the German singing societies throughout the United States asking them to attend the great saengerfest to be given by the Philadelphia societies in the summer of 1882. The fest will take place two weeks prior to the commencement of the celebration of the two hundredth anniversary of the founding of Pennsylvania by William Penn.

All the mills belonging to the Sprague estate have suspended operations, and the hands thrown out of employment are looking about to find work in other localities. The trustees' sales of property having been postponed by injunction, nothing can now be done until the lawyers earn their share of the oysters in the legal battle that will probably divide the shells between the creditors and the Spragues. The property has so dwindled away under the management of trustee Chaffee during the last seven years, that if the estate was promptly sold now it would not yield more than 30 or 40 per cent. of the creditors' claims.

Neal Dow complains that the churches are not in earnest in the cause of total abstinence, and to their indifference he attributes the slow progress made in the work of exterminating the liquor traffic. Whenever, he says, "a popular vote comes directly upon the question of license or prohibition to grog shops, a large number of church members are found upon the side of license. In many of our States there is an annual vote in the cities and towns upon the question of 'license' or 'no license,' and wherever and whenever the 'license' ticket wins it is by the helping vote of church members."

The prospect for an extension of the uses of gas is thought to be increasing. Gas engines are growing in favor and the use of gas for heating purposes is greater than at any former period. There is a considerable margin for improvement and economy in the manufacture, distribution and consumption of gas, and the cheaper it is made the more general will be its use in processes from which its high price has hitherto excluded it. The softness and steadiness of light obtained from the combustion of the best gas, compared with that from electricity, give it a preference with a large class of consumers. Its use also is so simple that it will perhaps be some time before it will be supplanted in popular favor. The British Association of Gas Managers at a recent meeting discussed the practicability of making a double distribution—of gas of low illuminating power for heating purposes, besides the ordinary gas. The cost of the electric light is still under dispute. The electric light companies in New York charge $1 for a single lamp per night up to 12 o'clock—six hours. It is calculated that one of these lamps displaces three gas lamps, the gas for which costs but 21 cents, at $2 25 per 1,000 feet, the price of gas in New York. If it be admitted that one electric lamp gives a 250 candle light, this would be equal to 14 five-foot burners of 18 candle gas, consuming in six hours 420 cubic feet, which would cost but 94½ cents. The gas companies, on the other hand, claim that, all allowances being made, the electric light costs about 2½ times as much as gas.

Humorous

Why is Bridget like the letter E? Because she makes a pet of Pat.

Dr. D. W. Bliss has just passed another comfortable night. He takes his nourishment frequently and with great relish.—*New Orleans Picayune.*

A company of settlers, in naming their new town, called it Dictionary, because, as they said, "that's the only place where peace, prosperity and happiness are always found."

A prudent man had his portrait painted in Paris. His friends complained to him that it was much too old. "That's what I ordered," said he. "It will save the expense of another one ten years from now."

Miss Young was married when only 16. In response to the frequent query of her sex, "Why was it, my dear, you married at such an early age?" she always replies, "I was afraid I might die Young."

A man need not flatter himself on everything about his house being as regular as clockwork, simply because he buys everything on tick. Unlike a clock, his affairs will run down when his affairs are wound up.—*Boston Transcript.*

When Mr. Blank's dredging machine was at work in Boston several years ago it burst one of her boilers. A messenger ran to Mr. Blank and upon arriving, all out of breath, exclaimed in an excited manner: "Mr. Blank, the machine has bursted one of her boilers and killed two men!" Said Mr. Blank quite coolly; "Can't she work with one boiler?"

"The Doctor Told Me

to take a blue pill, but I didn't, for I had already been poisoned twice by mercury. The druggist told me to try Kidney-Wort, and I did. It was just the thing for my billiousness and constipation, and now I am as well as ever." Torpid kidneys and liver is the trouble, for which Kidney-Wort always proves to be the best remedy known.—*Hartford Courant.*

KIDNEY-WORT

DOES WONDERFUL CURES! WHY?

Because it acts on the LIVER, BOWELS and KIDNEYS at the same time.

Because it cleanses the system of the poisonous humors that develope in Kidney and Urinary Diseases, Biliousness, Jaundice, Constipation, Piles, or in Rheumatism, Neuralgia, Nervous Disorders and Female Complaints.

SEE WHAT PEOPLE SAY:

Eugene B. Stork, of Junction City, Kansas, says, Kidney-Wort cured him after regular Physicians had been trying for four years.

Mrs. John Arnall, of Washington, Ohio, says her boy was given up to die by four prominent physicians and that he was afterwards cured by Kidney-Wort.

M. M. B. Goodwin, an editor in Chardon, Ohio, says he was not expected to live, being bloated beyond belief, but Kidney-Wort cured him.

Anna L. Jarrett of South Salem, N. Y., says that seven years suffering from kidney troubles and other complications was ended by the use of Kidney-Wort.

John B. Lawrence of Jackson, Tenn., suffered for years from liver and kidney troubles and after taking "barrels of other medicines," Kidney-Wort made him well.

Michael Coto of Montgomery Center, Vt., suffered eight years with kidney difficulty and was unable to work. Kidney-Wort made him "well as ever."

KIDNEY-WORT

PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

It is put up in Dry Vegetable Form in tin cans, one package of which makes six quarts of medicine. Also in Liquid Form, very Concentrated, for those that cannot readily prepare it.

It acts with equal efficiency in either form.
