MRS. JOE PERSON'S

REMEDY FOR
SCROFULA
NEVER FAILS.
It Will Cure if Fairly Tested.

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's Remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returning from the Institute, I was persuaded to try Mrs. Person's Remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spirits revived before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sores in three weeks if taken regularly. It is my opinion that it should be taken some time after the sores are healed, to remove the cause of the effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience and not from hearsay. I am a grateful recipient of a cure from the use of it and am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice. I am, respectfully,
Kittrell, N. C. JAMES A. MORRIS.

A Hurricane Approaching.
The Signal Officer here tells us to look out for a hurricane which is heading in this direction. It passed St. Thomas, W. I., this morning when the wind was blowing at the rate of sixty miles an hour. It was heading Northwest and may or may not strike this coast. This afternoon, at 5 o'clock, the barometer is falling, an indication of a change of weather. This is all that can be told as yet.

Fire at Lumberton
This morning, about 4 o'clock, the distillery of Messrs. Godwin & Co., near the railroad depot, at Lumberton, was discovered to be on fire and was totally destroyed. The flames communicated to a large warehouse, in which was stored some of the goods of Messrs. B. Godwin & Co., and totally destroyed the building and contents, together with six guano houses which were near by. We could not ascertain how much naval stores was destroyed, but learn that Messrs. Godwin & Co.'s loss is about \$5,000, on which there was no insurance. The fire is supposed to have been the work of an incendiary.

At Pine Grove.
Quite a large number of persons gathered at Pine Grove, Capt. E. W. Manning's beautiful place, on Wrightsville, last evening, to attend the parlor concert given by the Arion Quartette Club. The number was variously estimated from 150 to 200 persons. There were quite a large number of ladies which fact, added to the delightful music rendered by the Club—Messrs. Tilley, Mitchell, Welsh and Fremont, and their friends Messrs. H. C. Depew, M. F. Manning, J. E. Willson and J. G. Brady, made the evening a most delightful and long to be remembered one. The gentlemen never sang to better advantage and Signor Tilli fairly out rivalled himself. The old man was on stilts and his fine tenor was very much appreciated and enjoyed. The Club is an honor to the city and our citizens have just cause to feel proud of them. Capt. Manning was unceasing in his attentions to his guests and those who went from the city were regaled with an elegant supper of Sound face.

Quick Despatch.
The Swedish barque *Helena* arrived last Friday at mid-day, discharged ballast and loaded outward cargo in 45 working hours, having cleared to-day for Hamburg with 1,237 casks spirits by Messrs Alex. Sprunt & Son.

Food for the Brain and Nerves
that will invigorate the body without intoxicating is what we need in these days of rush and worry. Parker's Ginger Tonic restores the vital energies, soothes the nerves and brings good health quicker than anything you can use—Tonic. See other column.

Fire in Brunswick.
For a number of days past a heavy smoke has been noticed here as arising in Brunswick county, west of the city. It is from a large fire raging in the woods and which is said to have already passed over a considerable distance. It originated, we understand, from a stroke of lightning on Sunday, the 14th inst. It will continue to burn, we fear, until extinguished by heavy rains.

The Alarm this Forenoon.
The alarm of fire this forenoon came from a small frame dwelling occupied by colored people. A hole about a foot square was burned in the roof. The flames were extinguished by the neighbors and passers-by before the engines reached the scene. The damage was trifling. A similar alarm came from the same house about a week ago.

A New Invention.
Mr. J. P. O'Sullivan, of this city, has applied for a patent on a plow and sower which he has invented. The plow is very simple and it is a wonder that every farmer has not thought of it. The new invention is designed to do the work of four plows and two additional hands, doing all the work at one time. It makes the furrow, opens it, sprinkles guano, sows seed, makes the bed and covers up the seed at the same time. The plow points used to make the bed are attached to adjustable shafts. The new plow will no doubt be a favorite with farmers. Mr. O'Sullivan has tested the plow and found that it works to perfection. The cost will be only a fraction dearer than the plows now in use. It may be a little too heavy for a light horse but would not in convenience a large one in the slightest.

Grand Lodge Knights of Honor.
The Grand Lodge of this order were to have met in Raleigh to-day at 10 o'clock, in its second annual session. Some statistics of the order will be of interest: The number of lodges in the State is fifty-three, an increase of thirteen since last session. The membership is 1,915, an increase of 413 since last year. There have been fifteen deaths in the State since the last annual session, and on them \$30,000 was paid into the State. There have been thirteen assessments during that time. The membership of the order now in the United States is 132,000, an increase of some 40,000 in the last twelve months.

Dr. W. H. H. Cobb, of Goldsboro, is the present Grand Dictator of the State. Col. Jno. D. Taylor and Messrs. N. Jacobi and M. Bellamy, of this city, are in attendance.

Mrs. T. A. Gist, 1204 Walnut street, Philadelphia writes: "I had inflammatory rheumatism very badly, and in one foot and ankle it seemed to have taken hold with the determination to stay some time; and the morning I obtained the St. Jacobs Oil I could not put my foot down to the floor, even for an instant. I used it that evening for the first time, next morning for the second time, and that afternoon put my foot down for several minutes at a time. On Sunday following I could stand up and walk a few steps. On Tuesday could walk about my room, and went down stairs by holding on to the banisters. Now can walk quite well, and there is very little soreness and pain left. I shall go out in a couple of days, weather permitting. Just think! one bottle and a half and I can walk and am almost free from pain. It is a wonderful medicine. I will buy it by the dozen and make it a family medicine, as we are subject to rheumatism."

Next Tuesday the State Board of Pharmacy meets in the city of Raleigh. Druggists who have not yet registered should bear in mind that if they do not register by that date, they will have to go before the Board and be examined. All druggists in towns of over 500 inhabitants are compelled by law to register.

Quarantine Regulations
The Quarantine Board met yesterday in Smithville, as stated by us. An ordinance relative to vessels in quarantine was adopted, making the regulations very strict for those who may visit them while thus detained. This regulation will be found published in full in our advertising columns to-day, and the attention of those interested is invited thereto.

Jarvis, Maj. C. Dowd, Hon. W. T. Dortch, Col. T. M. Holt, Hon. A. M. Waddell, Maj. R. S. Tucker, J. T. Morehead, Esq., Jno. Gatling, Esq.

Weather Report
The Chief Signal Officer furnishes the following special bulletin:
Maine and Dakota. Fair weather has prevailed, northeasterly winds are reported from the Atlantic and East Gulf States. The temperature is below the mean for them now in the St. Lawrence valley, New England, Middle States lower Lakes Region and Ohio Valley. Slight changes only have occurred during the past 24 hours. The following special temperatures were reported this morning: Eastport and Burlington 54°, Montreal 60°, Alpena 59°, Duluth 62°, San Francisco 75°. Fair weather is indicated for the day in the lower Lake Region, Ohio Valley, Tennessee, the East Gulf and South Atlantic States and cloudy weather with light rain and cold northeasterly winds along the New England and Middle Atlantic Coasts.

To All Observers Sea Coast Stations:
It is reported to the Chief Signal Officer that a hurricane was central last night a short distance North Northwest of St. Thomas, West Indies, with maximum hourly wind velocity of sixty miles; wind backing from Northwest to Southwest; one vessel blown ashore. The information given is not sufficient to determine path of storm but center will probably move Northwest and unless it recedes to the Northwest, it will reach the Atlantic coast.
While storm signals will not be displayed at present the Chief Signal Officer considers it advisable to send special warning to all Atlantic Ports and caution shipping against possible danger for the next two or three days from this hurricane.
HAZEN.

Frank Leslie's Popular Monthly.
The September number is especially noteworthy. The opening article, by George Alfred Townsend, entitled "Days of Gloom in the White House," is timely and very interesting, embodying a history of the Presidential mansion, and the prominent incidents in connection with the attempted assassination of the President. The article is illustrated by sixteen fine engravings. Mr. N. Robinson contributes an admirable article, "Brighton, the Queen of English Watering Places," with thirteen illustrations. "Movable Homes and Tent Life" treats of the various homes of the true nomad; there are fourteen illustrations. An Early Visit to Marshfield. "A Russian Home," "A Chapter on Roses," and Mr. Denning's article on "Comets," with its 18 illustrations, will be read with great interest. Benedict's serial, "A Late Remorse," is continued, and there are some excellent stories by popular authors; one by Chas. Fulton, "There's Burglars in the House," is extremely humorous. There are sketches, essays, poems, and an abundant miscellany replete with interest and valuable information. The number is embellished with a handsome colored frontispiece, "He Won't Hurt You," from Heywood Hardy's painting. The price of a single copy is only 25 cents, and the yearly subscription \$3, postpaid. A specimen copy will be sent post-free by enclosing 25 cents to Frank Leslie's Publishing House, -53, 55 and 57 Park Place, New York.
