**MRS. JOE PERSON'S**  
REMEDY FOR  
**SCROFULA**  
NEVER FAILS.

It Will Cure if Fairly Tested.

It gives me much pleasure to be able to state that I have derived an effectual cure of scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than that of my physicians met with. After returning from the Institute, I was persuaded to try Mrs. Joe Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, and my low spirits were lifted before this remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sores in three weeks if taken regularly. It is my opinion that it should be taken some time after the sores are healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularly in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience and not from hearsay. I am a grateful recipient of a cure from the use of it and under many and lasting obligations to Mrs. Joe Person for the great relief I have obtained from its use. Sufferers, try it and be cured, in my advice. I am, respectfully,  
Kittrell, N. C. JAMES A. MORRIS.

**Food for the Brain and Nerves**  
that will invigorate the body without intoxicating is what we need in these days of rush and worry. Parker's Ginger Tonic restores the vital energies, soothes the nerves and brings good health quicker than anything you can use.—*Tribune.* See other column.

**Unavailable**  
Unavailable matter, addressed as follows, remains in the Postoffice in this city:  
Edward Tucker, No. 3 Stand Hope Place; a white envelope, no address; Mrs. Jane Harris, Simpson's Turnout; Martha Thornton, Harrison Square, Mass.; Mrs. Adaline Monroe, Bladenboro, N. C.

**Rheumatic Diseases.**  
These ailments follow from torpid liver and costive bowels; the skin, bowels and kidneys failing in their proper work, an acid poison is formed in the blood, which is the occasion of these acute diseases. Kidney-Wort produces healthy action of all secretory organs, and throws off the rheumatic poison. Equally efficient in Liquid or Dry form.—*Inter-Ocean.*

**At a Low Ebb.**  
The river is reported one inch lower at Fayetteville than was ever known before. Parties in that town wishing to save toll when they cross the river now, instead of crossing on Clarendon bridge, ford the river with their teams.

The Troy, N. Y., *Press* says: Mr. W. J. Melvin, Editor Warren, Mass.,  *Herald*, was cured of severe neuralgia by the use of St. Jacobs Oil.

**THE PRESIDENT.**  
The news from Washington City to-day is to the effect that there is no actual change perceptible in the condition of the President. He slept well last night and has taken nourishment to-day. He simply holds his own, according to the tenor of the dispatches.

**The Brunswick Crops.**  
Ex-Sheriff Woodside, of Brunswick county, was in the city to-day, and spent a short time in our office. He tells us that although the drought in some portions of his county has been very severe, yet he thinks on the whole, that more than an average crop of corn will be raised, and will realize but little.

**Magistrate's Court.**  
Frances McKay, colored, one of the hard swearers against her step-father, John McKay, charging him with a nameless crime at the last session of the Criminal Court, was up before Squire Gardner to-day charged with assault and battery, and upon failing to pay \$15.70, the costs of the case, and furnish a bond to keep the peace until the first day of November next, was committed and now luxuriates at the Hotel de Howard.

**Look Out For It.**  
There is a counterfeit silver dollar in circulation, which is pronounced the best counterfeit coin ever seen. It is beautifully made, and has a slight iron appearance which is often found in the genuine standard dollar. It is silver plated, and acids does not affect it unless the surface is scratched up. The weight is the marvelous point in the deception. The counterfeit as it stands would pass in size easily, and its weight would not be detected on any but a small scale. It weighs 98 per cent of the genuine, while the average good counterfeit does not weigh more than 75 or 80 per cent. The date of the coin is 1878, although that may be changed in the future by the makers.

**Lippincott's Magazine.**  
The September number of Lippincott's Magazine is designed for hot weather reading, the contents being wholly of a light and lively character, and sketches of seaside and country life predominating. Miss Kingsley concludes her description of the Cumberland Border, with a pleasant account of a visit to Naworth Castle, the seat of the Howards. Sylt, a quaint and primitive watering-place of North Germany, is described in one article, and Old Nantucket in another, while a third, entitled "An Afternoon in West Jaalam," gives a striking and faithful picture of rural New England. Maurice Thompson writes attractively of the "Haunts of the Grayling," and Edward C. Bruce discusses "A Dish of Vegetables." "Animal Secretiveness" is the subject of a delightful chapter of Dr. Oswald's "Zoological Curiosities." A new serial, "The Valcourt," by Sherwood Bonner, is begun in this number, and promises to be strong in interest as well as sparkling in style. There are several short stories—"Frant," "A Pretty Kettle of Fish," by Mrs. Champney, and "The Dress Maker at Green Harbor," with the usual variety of short papers and poems.

**Warner's Safe Kludge and Liver Cure.**  
A STORM ON THE COAST.  
We are indebted to the Signal officers for the following information relative to a storm which has prevailed to-day on the North Carolina coast:  
Since the time of regular observation this morning very high Southeast winds have been reported all along the North Carolina coast. At Hatteras the Signal Service observer states that the sea-swell has risen to an enormous height since sunrise this morning and is now over the banks away across the beach. Its direction is from the Southeast. The wind changed from Northeast to East at 7 o'clock this morning and then to South east and was again Northeast at 10 a. m. Its velocity was over 28 miles at that hour. Heavy cumulus stratus clouds could be seen above the horizon from East to South. Cautionary signals were ordered displayed along the coast, from Cape Henry to Smithville, in anticipation of a hurricane East of North Carolina and probably moving to the Northwest.

There have been high winds nearly all day, but nothing which could be called a storm. We are evidently too far removed from the storm centre to feel any of the severe effects.

Rena Pearsall and Charlotte Green, two sable-hued damsels who claim a habitation in the locality known as the Long House neighborhood, were arrested on the streets last night and arraigned this morning upon the double charge of drunkenness and disorderly conduct. The first named defendant was sent below for ten days, while the last named, who was very abusive to the police officer, besides using obscene language on the streets, was given thirty days in the City Prison, the full extent of the law.

**The Medical Journal.**  
The August number of the *North Carolina Medical Journal* is at hand. There is the usual excellent variety of reading matter, the first and to us the most interesting article being a communication from Dr. P. T. Norcop, describing an operation performed on a colored man at Asheville last May, who was suffering from a frightful tumor on his face. The jawbone was decayed and removed and a rubber jaw was being prepared when the patient collapsed and died, not from the effects of the operation but from a cold caught through the imprudence of some of his friends which was indulged during the absence of the attending physician. It will be remembered that a report of the operation on this man was published in the *Review* at the time.

**In Destitute Circumstances.**  
A case was reported at the City Hall yesterday in which a young white woman, who was sick in bed with an infant only two weeks old, was said to be in very destitute circumstances. Captain Brock, Chief of Police, investigated the case yesterday afternoon and found the report to be correct. He thereupon procured some of the necessities of life and a few little delicacies from the nearest grocery store and carried them to the sick woman who is living in a house on the west side of Fifth, between Bladen and Harnett streets. The Chief said he found the house destitute of everything like creature comforts. The furniture consisted of one chair and a bedstead, and upon the latter lay the young sick mother and her little two-weeks-old infant.

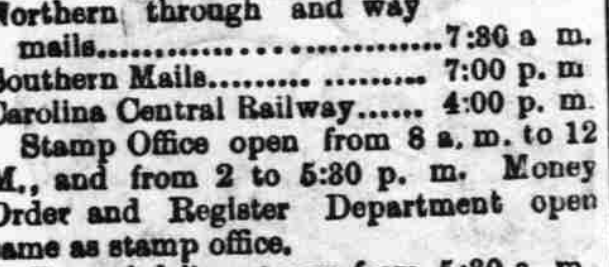

Captain Brock questioned the sick woman about her condition and circumstances, and learned that she is from Augusta, Georgia, and a widow, her husband having died in Augusta a short time ago. She further says she prefers to live here and expects to maintain herself and one little child by her needle. We hope some of our benevolent institutions will look into this case and afford some relief to this poor destitute woman, who is now dependent entirely upon charity, at least as long as she is sick in her bed.
