MRS. JOE PERSON'S REMEDY FOR SCROFULA

NEVER FAILS.

It Will Cure It Fairly Tested.

It gives me much pleasure to be able to
state that I have derived an effectual cure of
Scrofula from the use of Mrs. Joe Person's
remedy for that disease. I had suffered
from Scrofula for more than three years,
and had despaired of ever getting well.
I was treated during the winter of 1889-90
by a number of physicians, without any good result.
I then went to the National Surgical Insti-
tute, at Atlanta, Ga., and was treated there
more than two months, with no better re-
sult than my family physician met with.
After returning from the Institute, I was
persuaded to try Mrs. Joe Person's remedy, and
I had not used it more than a week before I
discovered its curative and healing prop-
erties. My sores began to heal, and the
color of my skin changed as fast as the sores
healed. I had not thought of ever getting
well again, but my hopes increased, my low
spirits rose, and before this remedy I was
enjoying splendid health and am in a
good spirit. It is my opinion that it should
be taken some time after the sore is healed,
to remove the cause of its effects. It should
be taken regularly by all means, for I have
sometimes neglected it, from the pressure of
business, and in all cases found that the
cure was made would commence to re-
trograde, and for this alone it should be
taken. Nothing should prevent regular
use in the use of the remedy, and it should
be taken at the proper time. I would re-
commend to all who are suffering from
Scrofula to try it. It will surely cure you
if you give it a fair test. I am a grate-
ful recipient of a cure from the use of it, and
am under many and lasting obligations to
Mrs. Joe Person for the great relief I have ob-
tained from its use. Sufferers, try it and be
cured, in my advice. I am, respectfully,
Kittrell, N. C. **JAMES A. MORRIS.**

and was purchased by the pilots on Bald
Head.

side of Market street, between Front and
Second, on which is located Dr. W. H.

lamy, Commissioner. It was purchased
by Dr. Green, the surviving partner of
the firm of Green & Flanner and the suc-
cessor to the business.

Business to be Suspended.

The members of the Produce Exchange
held a meeting at the Rooms of the
Exchange this morning to determine
what action will be suitable for them, as a
body, to take on Monday, the day of the
funeral obsequies of the late President
Garfield. The meeting was called to
order by the President of the Exchange
who stated the object of the meeting.
It was then resolved unanimously that
the Exchange be closed all day on Mon-
day, the 26th day of September, and
business entirely suspended. It was also
further resolved that the merchants gen-
erally be requested to suspend business
on that day.

Mr. Frank Borden, connected with the
office of the American Linen Company,
Fall River, Mass., says: St. Jacobs Oil
is very highly recommended in our fac-
tory, and it would be but simple justice
for me to say a few words in its praise.
The men have used it for rheumatism,
neuralgia, sprains, burns, cuts, corns and
in fact for almost every ailment it claims
to cure, and it does all that it promised
to do, never failing to cure.

A Pioneer Steamship.

The advent of a European steamer in
our port for the purpose of loading for-
eign is quite an epoch in the maritime
history of Wilmington; but such is the
march of events that one cannot deter-
mine what a day may bring forth. The
iron screw steamer *Barnesmore*, Captain
Trenery, 2,200 tons burthen, from Liver-
pool, arrived here and anchored off the
wharf of Messrs. Alex. Sprunt & Son, con-
signees, about 7 o'clock last evening.
She is a fine large ship with a carrying
capacity of between 4,000 and 5,000
bales of compressed cotton. Her su-
perior build as well as the many and var-
ious advantages the ship possesses en-
titles her to rank as first class. For in-
stance, the ship has a steam steering
gear, so that the man at the wheel under-
goes no exertion whatever; he can
change the course of the steamer with
his finger while before him lies a dial
showing exactly how far the rudder was
moved. The vessel can be filled with
water for ballast by displacing a valve
and then by means of a steam pump on
board, the same water can be as easily
removed. At present the only ballast
the Captain has on board is his coal and
600 tons of water; with this he sailed
from Baltimore here, making the time to
the bar in 48 hours. The *Barnesmore*
came out from Liverpool to Baltimore
with a cargo of iron ore and thence
hither to load foreign, as a sort of experi-
ment. The crew of the ship number 24,
officers included. Her draft of water is
14 feet ordinarily, though when loaded
to her full carrying capacity she will
draw 17 feet. She was built at Liver-
pool in 1880, and is consequently not
more than a year old.

The *Barnesmore* is one of about fifteen
similar ships built from plans by
Mr. Wm. Johnson, of Liverpool, a per-
sonal friend of the Messrs. Sprunt, for the
Mediterranean trade and known as the
Johnson Line. They have proven suc-
cessful in every line of trade comprising
Mediterranean, Black Sea, Sea of Azov
and Danube, which has been owing in a
large degree to the extraordinary quali-
fications of Mr. Johnson as a steamship
manager. He is generally acknowledged
among the shipowners in England as the
most enterprising and sagacious man of
the times, and we trust that he may deter-
mine to put some of his fine ships regular-
ly in our trade. There is no doubt that
steam leads the van in all mercantile
enterprise and that the extraordinary
growth of the port of Norfolk is owing
to the push and energy of her cotton
merchants, who were not afraid to take
risks in the beginning which eventually
led to the extraordinary prosperity of
that city.

There is a line of these ships now run-
ning regularly between Liverpool and
Baltimore, which was established last
year and which has proved very suc-
cessful.

WASHINGTON, N. C., Sept. 21, '81.
GENTS:—I write to inform you that
she seaman, Jas. H. Harris, sole survivor
of the schooner *Mary E. Fisher*, is a
native of this town (Washington, N. C.),
was born and raised here, and has a
family living here. His father was a
captain of various vessels which have
sailed from this port; he is now dead. I
write this to dispel the illusions created
by the newspapers that he hailed from
Philadelphia. He shipped on the *Fisher*
in this port last January.

To be Hung.

Superior Court for Columbus county
has been in session this week. The prin-
cipal case of interest was a murder case,
in which defendant, a young colored man
some 24 or 25 years of age, was found
guilty of the murder of a comrade, and
was sentenced to be hung on the first
Friday in November, the 4th day of the
month. We understand that there is no
probability of a reprieve or a respite.
The prisoner was ably defended by Capt.
W. S. Norment and Mr. C. C. Lyon, and
the prosecution was conducted by Solic-
itor McIver alone.

widow of John F. Bloom, formerly of this
city, the mail agent who was killed on
the Carolina Central Railroad, on the
22d day of last December, at the Indian
Creek disaster. She had already been
paid \$2,000 by the Knights of Honor.
