Magistrate's Court. Isaac Stanley, colored, was arraigned before Justice Millis this morning upon the charge of burglary—an account of which was published in yesterday's Review—but the main witness, Carrie Boon, would not swear to the defendant's identity this morning in connection with the burglar who entered her premises last Friday night. Consequently the defendant was promptly discharged by the Magistrate, and so ended the burglary case.

A Runaway.

This afternoon, about half-past two o'clock, a horse with a light buggy attached came dashing up third street from the direction of St. James' Church, and with every jump his speed seemed to be accelerated. But on he went up the hill past the City Hall until he reached the entrance to Reston's alley, where he whirled suddenly to the left and dashed down that thoroughfare; there the buggy was capsized and the animal was freed from the encumbrance of it. But this did not stop his speed. He ran around the square until he reached Third street again and then kept on up Chestnut street. The animal, we learn, belonged to Mr. Jno. B. Currie, of Laurinburg, and the buggy to Capt. T. J. Southerland. The horse had just been sold to Mr. Edward Kidder and Mr. Currie had just driven to Mr. Kidder's residence and gotten out of the buggy leaving a boy to hold the horse while he went to see Mr. Kidder, when the animal took fright and ran as above reported. The horse we do not think was injured any but it may cost \$20 or more to repair the buggy.

An Excursion Party.

We understand that an excursion party from Rutherfordton is expected here on the 6th of October. The officials of the Carolina Central, we learn, have kindly made special arrangements for them, and it is thought probable that an excursion down the river on the Passport will be on the programme, too, tendered possibly by the merchants of our city. This will enable the excursionists who rest right at the base of the Blue Ridge, almost when at home, to catch a sight of the broad expanse of the old Atlantic, add it is even probable that Captain Harper may be induced to take them out to float on the bosom of the deep blue sea, for a short while, if they so desire it. Rutherfordton is about 260 miles from Wilmington and 27 miles from Shelby, the present terminal point of the Carolina Central Railway. It was intended originally to make Rutherfordton the objective point of this road, as the charter reads "the Wilmington, Charlotte and Rutherford Rail Road," but the war changed all their plans and the people of Rutherford are still 27 or 30 miles from a railroad.

City Court.

Bart Lander, colored, charged with disorderly conduct and resisting the police, was the first case on docket this morning. The evidence proved that defendant, besides being drunk and disorderly, was very violent in his demeanor towards the officer who made the arrest, resisting to the last, or until he was subdued by several well-directed blows of the policeman's club. The Mayor passed sentence of \$10 fine or thirty days in the City Prison. The defendant preferred to pay the fine and then walked out a sadder but a wiser man.

The next case called were the parties engaged in the horsewhip scrimmage on Market street, yesterday. His Honor heard all the testimony in the case and then rendered his opinion in which he took occasion to say that however much as a citizen or a private individual he might sympathize with one who felt that he had strong provocation for his course in redressing his own grievance in this manner, yet as an officer of the law it was his duty to vindicate the majesty of the law and to that end he would impose a fine of \$25 each on the two defendants—the one who used the horsewhip and the friend who aided and abetted by telling him to "go ahead, I will see you out." His Honor told the defence inasmuch as there were some of their witnesses absent he would hear them tomorrow in mitigation of the sentence just imposed. The Court then adjourned.

Coup's Great Show.

On the 13th day of October W. C. Coup's Great Paris Hippodrome, combined with his new united monster shows, said to be more than three times larger than ever, will exhibit in this city, giving two performances, afternoon and evening. In consequence of the greatly increased size of his show, and the enormous additional expenses attending it, Mr. Coup has been compelled to increase the price of admission. In order that our readers may realize the immense difference in size, the following facts are furnished us: The advertisement department alone is more than twice as extensive, using two magnificent palace advertising cars, and three separate sets of agents and advertisers. The illuminated material used is the finest and most expensive ever known, costing \$2,500.

The enormous tents, covering fully eight acres, are the largest ever known, actually overspreading three circus rings, and a hippodrome race track forty feet wide and nearly half a mile around. In addition to the four circus and hippodrome companies, there is a grand museum and menagerie filled with animals from all parts of the world. To operate the different features of the museum, a dozen or more steam engines are used.

In the great street pageant, the finest ever witnessed in the South, nine different kinds of music are used, including three first-class brass bands and four musical orchestras, each driven by a powerful steam engine, issuing melodies equal to a concerto of twelve hundred musicians. Nothing to equal this was ever before known in the show business in any part of the world. Every other department of the show is said to be on a proportionate scale. In the way of sensations, the wonderful flight of Lu Lu, who is hurled from a powerful iron catapult, high in the air, and describing in transit across the great hippodrome pavilion the segment of an air circle five hundred feet in diameter, and turning two complete evolutions before alighting, is the most hazardous and astounding ever witnessed, and said to be well worth going five hundred miles to see.

Then come the Zulus, the Indians in their exciting chase for a wife, the hippodrome races, jockey races, hurdle races, steeple chases, flat and standing races, the elephant and camel races, Zulus racing with thoroughbred horses, and scores of other novelties which can be seen and enjoyed only in Coup's Great Show. For full particulars see advertisement in this issue.

A Broken Arm that Needed Setting.

A colored man, whose name we could not learn, but who belonged to a gravel train on the C. C. Railroad, and who had just been paid off like his pal, Bart Lander, the same whose name appears elsewhere in the City Court's proceedings this morning, was taken to the Guard room last night for medical treatment, owing to the fact that the unknown had his arm broken, which accident occurred somewhere in Paddy's Hollow. Dr. Walker, City Physician, was sent for, and responded to the call, but found the man in such a beastly state of intoxication that he could do nothing more than bandage the limb. This morning the Doctor went over to set the broken arm and also put it in place, as it was dislocated, when lo! and behold, the man had gone, his friends having come after him. As the party was not under arrest the authorities made no attempt to stop him, and the poor devil departed for his home in the up-country.

A very interesting description of the Luray Caverns, written for the Review by a lady contributor, will be found on the third page of this issue.

Miss E. Karrer has returned from the North and with a very large and beautiful assortment of millinery and fancy goods which she will be prepared to exhibit at the store at Exchange Corner in a few days.

Brig Nellie Husted cleared today for Port-au-Prince with 2 casks spirits, 15,700 shingles and 235,894 feet lumber, shipped by Messrs. Northrop & Cumming.

Many miserable people drag themselves about with failing strength, feeling that they are steadily sinking into their graves when, by using Parker's Ginger Tonic, they would find a cure commencing with the first dose, and vitality and strength surely coming back to them. See other column.

THE ONLY 4-RING CIRCUS IN THE WORLD! ON ITS SECOND TRIUMPHANT ANNUAL TOUR TO THE LEADING CITIES OF THE SOUTH! W. C. COUP'S NEW UNITED MONSTER SHOWS! FULLY THREE TIMES LARGER THAN EVER, COMBINED WITH THE GREAT PARIS HIPPODROME!

With a Race Track Forty Feet Wide and Nearly Half a Mile Around. Will Exhibit in WILMINGTON, THURSDAY, Oct. 13

After completing a three weeks' brilliant and successful engagement in the Madison Square Gardens, formerly known as the GREAT NEW YORK HIPPODROME building, which Mr. Coup built himself in New York in 1874, he is now on his way to the leading cities of the South with a MAGNIFICENT NEW CONSOLIDATION, everywhere admitted to be the

Largest and Best Show in the World! Since exhibiting in this city last season, Mr. Coup has enlarged his exhibitions to fully THREE TIMES THEIR FORMER PROPORTIONS, with the addition of a MAGNIFICENT HIPPODROME and THREE CIRCUS COMPANIES, exhibiting simultaneously in THREE IMMENSE CIRCUS RINGS, employing nearly TWO HUNDRED ARTISTS of all nationalities. Also, a splendid MUSEUM AND GRAND MENAGERIE. Among the leading sensational features are the great and only LU LU, who is hurled more than one hundred feet through the air from a powerful iron catapult, performing two complete evolutions before alighting in the net; also, the Wonderful Dive of Geraldine, who plunges head foremost seventy-five feet downward from the dome of the Hippodrome; also, exciting Hippodrome Races, Chariot Races, Jockey Races, Lady Hurdle Races, Flat and Standing Races, Zulu and Indian Races, the Wonderful BRONCHO HORSES, the Leaping Horse Nettle, Fryer's Pony and Dog Shows, the Leaping Italian Grey Hounds, &c., &c., giving a series of the most novel and intensely interesting performances ever witnessed in any show in the world, without exception. The NINE KINDS OF MUSIC used in the

Grandest Street Pageant Ever Known, are fully equal to the combined melodies of TWELVE HUNDRED SKILLFUL MUSICIANS. Such a startling array of features as is presented in the

Four Circus and Hippodrome Rings, was never before known in connection with any exhibition North or South East or West, either in Europe or America. In fact, Mr. COUP'S SHOW has grown to such vast proportions, and the daily aggregated expenses are so extraordinarily large, that he is compelled by necessity, not from choice, to increase the price of admission to 75 cents for adults, and 50 cents for children over nine years of age. Choice reserved seats 25 cents extra. TWO EXHIBITIONS—AFTERNOON & EVENING. Cheap excursion trains will run on all railroads on the day of exhibition. Those wishing to avoid the crowds at the ticket office can procure their tickets on the days of exhibition at Dyer & Son's Clothing Store at a trifling advance. sept 28, oct 1, 5, 10, 12-w sept 30, oct 7
