

DR. C. W. BENSON, of Baltimore, Md

We give above a correct likeness of this well known and successful physician and surgeon, who has made a life long study of Nervous Diseases and the Diseases of the Skin, and he now stands in the highest rank, as authority on those special and distressing diseases. In the course of his practice he discovered what now are renowned in medical practice, viz: a combination of Celery and Chamomile in the shape of Pills. They are used by the profession at large and constantly recommended by them.

It is not a patent medicine. It is the result of his own experience in practice. They are a sure cure for the following special diseases, and are worthy of a trial by all intelligent sufferers. They are prepared expressly to cure sick headache, nervous headache, dyspeptic headache, neuralgia, paralysis, sleeplessness, dyspepsia and nervousness, and will cure any case.

Sold by all druggists. Price 50 cents a box. Depot, 106 North Eutaw St., Baltimore, Md. By mail, two boxes for \$1, or six boxes for \$2.50 to any address.

INTO MISCHIEF.  
Dancing feet and busy fingers,  
Never still the whole day through.  
For the little brain from dreamland  
Brings them work enough to do,  
Including the gorgeous parlor,  
Hopping on the winding stair,  
Tearing books and breaking vases—  
Into mischief everywhere.  
Picks the cake and tastes the jelly,  
Breaks the window, slams the door,  
Throws the statues from their brackets,  
Scatters playthings on the floor,  
Tearing little coats and trousers,  
Rampling up his curly hair—  
Busy, naughty little fingers,  
Into mischief everywhere.  
Spilling ink upon the carpet,  
Dashing pictures from the wall,  
Breaking mirrors, singing, shouting,  
In the attic and the hall,  
Tracing mud across the entries,  
Turning over desks and chairs,  
Cutting up the morning paper—  
Into mischief everywhere.  
But no look of hate or malice  
Darkens over those laughing eyes:  
Not a thought of harm or sinning  
In his little bosom lies;  
For his soul is pure and guiltless,  
What'er harm his fingers do—  
Though the little feet are straying  
Into mischief all day through.

The Romance of Lace.  
The most recent improvement in the  
production of lace, says the Paris corres-  
pondent of the Baltimore Bulletin, is the  
introduction of shaded tints in the flowers  
and patterns, giving them the relief of a  
picture. The effect is produced by varying  
the application of the two stitches used in  
making the flowers—the "toile," which  
forms the close tissue, and the "grille," em-  
ployed in the more open work of the pat-  
tern. The system is so successfully ap-  
plied to the lace of France that it has  
been adopted with the greatest success.  
There is a legend regarding the introduc-  
tion of this manufacture into Flanders.  
A poverty stricken but pious young girl  
was dying of love for a young man whose  
wealth precluded all hopes of marriage.  
One night, as she sat weeping at her sad  
fate, a beautiful lady entered the cottage,  
and without saying a word, placed on her  
knees a green cloth cushion, with its bob-  
bins filled with fine thread, which on au-  
tumn evenings floats in the air, and which  
the people call "fil de la Vierge." The lady,  
though of a romantic bearing, was a  
practical manufacturer. She sat down in  
silence, and with her nimble fingers  
taught the unhappy maiden how to make  
all sorts of patterns and complicated  
stitches. As daylight appeared the maid-  
en had learned her art, and the mysterious  
visitor disappeared.  
The price of the lace soon made the  
poor girl rich. She married the man of  
her choice, and surrounded by a large  
family, lived happily and rich, for she  
kept the secret for herself. One evening,  
when the little folks were playing around  
her knees by the fire and her husband  
sat fondly watching the happy group, the  
lady suddenly made her appearance  
among them. Her bearing was distant;  
she seemed stern and sad, and this time  
addressed her protegee in a trembling voice:  
"Here," she said, "you enjoy peace and  
abundance, while without are famine and  
trouble. I helped you, you have not  
helped your neighbors. The angels weep  
for you and turn away their faces." So  
the next day the woman arose, and going  
forth with a green cushion and its bobbins  
in her hands, went from cottage to cot-  
tage, offering to all who would be taught  
to instruct them in the art she had herself  
miraculously learned. So they also be-  
came rich, and Belgium became famous  
for this manufacture.

Women that have been given up by  
their dearest friends as beyond help, have  
been permanently cured by the use of

pound. It is a positive cure for all fe-  
male complaints. Send to Mrs. Lydia  
E. Pinkham, 233 Western Avenue,

A Persistent Glimet Man.  
"I should like to sell you a gimlet," said a  
careworn-looking man, as he walked into  
an office the other day.  
"We have no use for one," replied the  
cashier.  
"But you should always look into the  
misty future," went on the fiend, demurely.  
"Next winter you will want to make  
holes in your boot-heels, so you can get  
your skates on."  
"I use club skates—no straps required."  
"You may want to screw some boards  
together some time. The old-fashion  
method of driving the screw in with a  
hammer is tedious, as it deteriorates the  
tenacity of the fangs of the screw, as it  
worn."  
"Nothing to-day, sir."  
"This gimlet also acts as a cork-screw."  
"I don't want it."  
"It may be used as a attack hammer, a cigar-  
holder, and a tooth-brush."  
"I don't want it."  
"It has an eraser, a pen, an inkstand,  
a table for computing compound interest,  
and a lunch-box attachment."  
"I can't help it; I don't want it."  
"I know you don't; you're one of those  
mean men that won't buy a gimlet unless  
it has a restaurant and a trip to Europe  
and an Italian opera company attached.  
You're the kind of a man who would live  
near an electric light to save a gas bill."  
And the peddler walks out with his  
mental damage on the perpendicular.

Better than putting one Dollar out at  
compound interest, is the sending it to  
Dr. C. W. Benson, Baltimore, Md., for  
two boxes of his Celery and Chamomile  
Pills, which cure nervous disease, quiet  
the mind, bring on refreshing sleep and  
prevent paralysis.

A Virginia Soldier in France.  
Among the delegates appointed by the  
French war department to attend the  
Yorktown celebration is Capt. George  
Mason, a native of Virginia, and son of  
the late John Y. Mason, who was at one  
time United States minister to France. As  
a boy Capt. Mason fought in the Confed-  
erate army, and a short time afterwards  
obtained a commission in the French army  
as sub-lieutenant. He was assigned to  
duty in the foreign legion in Algeria, and  
served there until the beginning of the  
Franco Prussian war, in which he distin-  
guished himself for gallantry, receiving  
two wounds. Afterwards he returned to  
Algeria. He has abjured his allegiance  
to the United States, and become a citizen  
of France. He is now a captain in the  
army of the republic. He has not visited  
his country since his departure for France.  
Capt. Mason is said to be the only native-  
born Virginian who has been similarly  
honored in France.—Balto. Sun.

Port Gibson Kerelle.  
Mr. Davis' Proposed School History.  
Some weeks ago two little Missippi  
girls, students at the Port Gibson Colle-  
giate Academy, who were smarting under  
the necessity of reciting certain school his-  
tories of the United States now used in all  
our schools, and so full of slander and  
misrepresentations, conceived the idea  
that President Davis could be induced to  
write a proper and truthful history as a  
benefaction to the school children of the  
South, and childish simplicity they ve-  
stured a joint letter to the great patriot  
and statesman and to their great joy and  
gratification they received the letter this:  
My DEAR LITTLE FRIENDS—I feel  
very sensibly the compliment contained in  
your request that I should write a history of  
the United States which it would not  
pain you to recite. I have long desired to  
see a school history which would do jus-  
tice to our people and ancestors, and urged  
the late Dr. Bledso to undertake the work.  
He died without doing so, and I know of  
no living man so well able to perform the  
task. I should much distrust my own abili-  
ty, but if my life is spared and I can find  
one of such views as would suit you to  
prepare such a work, I will remember your  
request with sincere desire to grant it, but  
I cannot promise to do so. Many years  
and bitter trials leave me but little time or  
strength for so important a labor. May  
God bless you, my dear children, and re-  
ward your patriotic impulses with long life  
and happiness. Very truly your friend,  
JEFFERSON DAVIS.

Many miserable people drag them-  
selves about with failing strength, feeling  
that they are steadily sinking into their  
graves when, by using Parker's Ginger  
Tonic, they would find a cure commencing  
with the first dose, and vitality and  
strength surely coming back to them.

A new Chicago theatre has two "fash-  
ion boxes," containing twenty chairs, each  
directly in front of the customary proce-  
dium boxes, and so arranged, with the  
trails only slightly above the floor, and the  
seats rising sharply, that a clear view of  
the occupants can be had from the other  
parts of the house. The idea is to let  
handsomely dressed women exhibit them-  
selves, and the astonishing fact in the mat-  
ter is that they embrace the opportunity.

The Poplar Demand.  
So great has been the popular de-  
mand for the celebrated remedy, Kidney-  
Wort, that it is having an immense sale  
from Maine to California. Some have  
found it inconvenient to prepare it from  
the dry compound. For such the prop-  
rietors now prepare it in liquid form.  
This can be procured at the druggists.  
It has precisely the same effect as the  
dry, but is very concentrated so that the  
dose is much smaller.—Lowell Mail.

About 5,000 pounds of roses are required  
to produce one pound of the attar-of-roses.  
This delightful perfume is chiefly produced  
in Bulgaria, where the annual average pro-  
duction of attar between the years 1887 and  
1871 was 400,000 metricals; that of 1873,  
500,000, valued at \$3,500,000. The pro-  
duce of 1880 was estimated at the value  
of about \$5,000,000.
