Quar erly Beetings

Rev. Dr. Burkhead, Presiding Elder of the Wilmington District of the M. E. Church South, who has recently returned from Europe, where he has been in at tendance upon the Ecumenical Council, one used by Lu Lu consists of a powerfu will hold the fourth and last quarterly iron frame work, a throwing lever about meeting for the present Conference year at the Front Street and Fifth Street M E. churches of this city on Saturday diameter and about eighteen inches in and Sunday next.

That Belfry.

It seems that Alderman Chadbourn's resolution relative to the reconsideration raised high in the air, the two iron disks of the matter of the belfry on the City being thus brought together, the rubber Hall was not adopted, as was incorrectly springs are hooked on, the lever put reported. It was still in discussion when the meeting adjourned, but it will in al probability be adopted at the next meeting, as it is said that there are but two members of the Board in favor of placing the belfry on the City Hall.

'Lu Lu's Wonderful Feat. At a meeting of this Pleasure Club, Coup's big show will be with us toheld last evening, the following officers morrow, and will exhibit afternoon and evening. The street parade will take

place in the forenoon. The following, from an exchange, will prove of interest The powerful and ingenious, enginery,

by which Lu Lu is thrown, like a bird, through space in Coup's show, is an im mense improvement on those used by the ancients in Syracuse during the reign of Dionysius the elder. These formidable military engines were used for throwing JUSSPH D. SMIFH as a member of o business if you will only use Dr. Bull's Cough Syrup at ence; the most reliable remedy in the world for Coughs colds, etc. cords of hair or gut. The largest of thes machines projected beams six feet long and weighing sixty pounds to the dis tance of 400 paces. They were mad of such strength and power as t hurl ponderous projectiles with precision a distance of a quarter of a mile. The twenty feet in length, two cast-iron disks supplied with hooks, a hundred o more pieces of elastic rubber, an inch i length, with iron eyes in both ends, and a wire rope fastened from the throwing end of the lever to the carriage supporting the catapult. In getting the machine in readiness for action the long lever is down until the springs are stretched to nearly six feet, and the enormous strain of over 20,000 pounds pulls heavily upon

the short arm of the lever. At a moment specified the master of ceremonies introduces to the audience the celebrated Lu Lu, who is a good-looking young man, neatly clad in tights. Alter a gracecul bow Lu Lu looks over the machine and sees that the safety pin is all right and soon stealthily mounts the frame work-one misstep, a quick pressure or bad calculation would cause the lever Tuesday, Oct. 25, '81. to detach, and instantly he would receive a blow that would smash him to atoms. Placed at the extreme end of the lever is a form for the body of Lu Lu to lie upon. With the utmost coolness and caution he reaches to his "form" on the end of the lever, and at this point the most absolute quiet is demanded by his attendant. A breathless silence ensues. The powerful lever by means of which Lu Lu is projected like a bird through the air, is held in its place by a toggle, which is in charge of aa attendant, and when the order is given to go, the catch bolt is touched, the iron disks spring to gether, the great beam flies upwards with a tremendous force, and the daring Lu Lu is whirled through the air with the speed of a rocket, seventy-five feet high, describing the segment of an air circle nearly five hundred feet in diameter, and performing two complete somersaults before alighting in the net nearly two hundred feet away. On discovering that this wonderfal "man bird" accomplishes his daring flight unharmed, the audience breathes freer and the lithesome Lu Lu skips away out of sight amid the deafening cheers and rapturous plaudits of the electrified multitudes. One or two foolish attempts have been t ut are detained through pressure of busi. made to imitate Lu Lu, both of which will take place monthly. proved fatal, one being that of a young girl who now lies buried in Greenwood Cemetery, New York, from the effect of the fall. Lu Lu is the first and only human being that ever accomplished the feat.

MRS. JOE PERSON,

Franklinton, N. C.

DEAR MADAME :--- In reply to your let. er asking what I think of your Remedy, would say that the sales have been very fair, and so far as I can learn, the Remedy has been very satisfactory to my customers who have used it, especially so in the case of a little girl of this city, ten years of age, who was troubled for a long time with sores breaking out over the face and neck, having the appear-ance of Scrofula, and which had resisted the usual alterative treatment for a long time. She took four bottles of the Bitters last Spring, when the sores entirely disappeared, and up to this time she has had no return of them, her skin looking as fair and clear as anyone's.

Trusting that you may receive the suc

cess which your Remedy seems to merit, I am, very respectfully yours, WM. SIMPSON, Druggist,

So clear is the atmosphere, notwithstanding the dust, that the moon, now near its last quarter, was plainly visible this forenoon in the West.

Mr. Joseph D. Smith has been admitted as a member of the insurance firm of Wm. L. Smith & Co. He is one of the cleverest young gentlemen in the city and a good business man and we congratulate him on his "promotion."

A gun fired from the cutter Colfax to-day, about 12 o'clock, aroused considerable curiosity. A reporter of the REview was asked dozens of times "What was that gan fired for?" and he is still unable to answer the question correctly.

Coup's Circus will exhibit to morrow in the same place as last year, at the Eastern extremity of Chestnut street, among the gallberry bushes and dry ditches. A more ineligible site could hardly have been selected.

Capt. J. F. Gilbert, residing in the Eastern section of the city, has apple and peach trees on his premises on which new leaves are putting forth. He has also a black scuppernong vine on which a second crop of grapes is now well under way.

Rev. Thos. D. Pitts, Rector of St. John's Church, left here yesterday for Baltimore and will be absent until the latter part of next week.

Rev. Dr. Patterson, who has been, during the Summer, in Georgia, in the interest of the University of the South, arrived here yesterday and is the guest of Hon. R. R. Bridgers. He will serve in St. John's Church, next Sunday, in the absence of the Rector.

The State Band.

The gentlemen from this city, mem. bers of the Cornet Concert Club, who are to form a part of the State band at Yorktown, under direction of Prof Neave, of Salisbury, will leave here to-morrow morning for Raleigh, where the band will be organized. They are Mr. James E. Willson, Leader, E flat cornet; Mr. D. B. Mitchell, B flat cornet and Mr. S. G. Hall, tubs. Others were expected to go ness engagements.

The Wilmington Light Infantry will have a dress parade to-night on Front and Market streets.

There is considerable disappointment manifested at the fact just made known that the State fund will suffice to pay but half of the fare of the military to Yorktown. We notice in the Charlotte Observer that an appeal is being made there to the citizens to aid the Hornet's Nest Riflemen in paying their fares.
