MRS. JOE PERSON,

Franklinton, N. C.
DEAR MADAME:—In reply to your letter asking what I think of your Remedy, I would say that the sales have been very fair, and so far as I can learn, the Remedy has been very satisfactory to my customers who have used it, especially so in the case of a little girl of this city, ten years of age, who was troubled for a long time with sores breaking out over the face and neck, having the appearance of Scrofula, and which had resisted the usual alternative treatment for a long time. She took four bottles of the Bitters last Spring, when the sores entirely disappeared, and up to this time she has had no return of them, her skin looking as fair and clear as anyone's.
Trusting that you may receive the success which your Remedy seems to merit, I am, very respectfully yours,
WM. SIMPSON,

The receipts of cotton at this port to day foot up 1,587 bales.

The backbone of the long dry spell has been broken at last.

Spirits turpentine, advanced two cents a gallon in this market to day.

The Rentz Santley Troupe are to perform in Goldsboro next Saturday evening.

Steamship *Gulf Stream*, Capt. Ingram, cleared and sailed hence this morning for New York.

The greatest effects have sometimes the smallest cause. Life is constantly sacrificed by neglect of Coughs and Colds, when a 25 cent bottle of Dr. Bull's Cough Syrup would save the sufferer.

Coup's Circus was in Charleston on Saturday and the big tent was filled. The *News and Courier* was very much pleased with the show.

Nor. barque *Eidseva*, Gundersen, cleared at this port to-day for Montevideo, with 327,607 feet lumber shipped by Messrs F. Kidder & Sons.

Third street, in front of the City Hall, has been laid with a red rock marl which comes from the Western coast, of Africa and is said to be fairly illustrative of the soil of that part of the country.

The rain last night and to-day was very refreshing but we have not had enough of it yet. In all there was .31 of an inch of rainfall—.02 last night, .15 this forenoon, and .14 this afternoon.

Capt. Paddison reports that there were heavy rains at Point Caswell yesterday and the indications are that there were more in that direction to-day. We trust they have extended up the Cape Fear.

Sheriff Manning has turned over to the County Treasurer, and has his receipt therefor, \$2,465 for account of general fund for taxes for 1881 and \$763 on account of special fund. The transfer was made to-day.

Eight car loads, comprising about 500 persons in all, passed through here last night from South Carolina and Georgia, bound to the Yorktown Centennial. Besides the troops there were many private citizens and about twenty-five ladies.

Gen. S. H. Manning, who has recently returned from the North, has in his office a large photograph taken at a reunion of the class of 1861, of which he was one, of 32 members of that class who were present at the reunion. There are 41 living out of a class of 50 members.

It will be seen by advertisement published elsewhere that on and after the 10th of next month all assessments due and unpaid on subscriptions to the capital stock of the Duplin Canal will be collected by legal process. Those interested should make a note of this fact.

Some much-needed repairs are being made to the sewer leading from the Rock Spring, near the foot of Chestnut street, to the river. The planking is all rotten, and is being replaced. Capt. Ned McGarrigle discovered a hole in the street above the sewer on Saturday and now has part of his force at work making the necessary repairs.

The Herald of Praise.

We thank Messrs. Oliver Ditson & Co., of Boston, for a copy of "The Herald of Praise," a collection of music for choirs, singing classes and conventions, compiled by Mr. L. O. Emerson. To say that this is an excellent publication will but feebly express the fact. It is a work of rare merit, and will surely meet with popular approval everywhere. Its practical nature throughout will commend it to the great mass of people who want to learn to sing, and, having the knowledge, want good, fresh music which will please as well as instruct. As we have said, it is a practical book by a practical man, and will be used by practical people with profit and pleasing results. Address Messrs. Ditson & Co., Boston. Price \$1.

Exhibits from this City.

We notice in the *News and Observer* a description of the exhibits made in the Ladies' Department at the Fair last week. The only names from this city are Mrs. H. Loeb, who exhibited a beautiful lace collar; Miss Kate Burr, water colors on panels, palettes and eggs, and Miss Annie VonGlabn, a pupil of Misses Burr & James' School, a wonderful piece of Mosaic work composed of 5,000 bits of paper, forming a bird.

Mr. Forbes' Lecture

As has been previously announced by us Mr. Archibald Forbes, the celebrated war correspondent of the *London Daily News*, will lecture in this city, at the Opera House, on Friday evening, under the auspices of the Wilmington Library Association, on "The Inner Life of a War Correspondent." The opportunity will be a rare one and one not to be neglected. Mr. Forbes' reputation is world-wide and he is eminently capable of speaking on the subject because of his actual personal experience during the terrible conflicts of the past decade in Europe.

Board of Audit and Finance.

At a meeting of the Board of Audit and Finance, held yesterday afternoon, it was ordered that, owing to causes considered of temporary duration, the pay of the police force for the months of October, November and December be increased to the following rates: Captains, \$60 per month; sergeants, \$1.60 per day; privates, \$1.50 per day; night janitor, \$40 per month; day janitor \$37.50 per month.

New Guano Warehouses.

The Champion Compress Company are building, on the west side of the river, nearly opposite the foot of Chestnut street, two large warehouses for the storage of guano. Each building is to be 100x125 feet and with a pitch of 18 feet, and will be fitted with a platform and railway, so that the guano can be dumped from the upper part of the buildings. The structures are to be of wood, and Mr. John H. Hanby has the contract for their erection.

Col. Fremont at Brunswick.

We notice that Col. S. L. Fremont, of this city, has arrived at Brunswick, Ga., where he has recently been assigned for duty by Gen. Gilmore, making no more addition to the small colony of North Carolinians now in business at that place. Col. Fremont, it will be remembered, has been for some time past on duty at Savannah, where he was in charge of important works. During the three years he was stationed there, in addition to his duties at that port, he conducted the survey of the ship canal across the Florida peninsula, submitting map and estimates, the survey of the projected inland passage for steamers between Savannah and Fernandina, and the survey of the Savannah river between Savannah and Augusta, 250 miles, submitting a project and estimate for its improvement, so as to carry five feet of water, at its lowest stage, all of which were adopted. There were, besides, other estimates for improvements made and submitted by him.

We notice that Col. Fremont's name is mentioned in connection with the works at Brunswick by the special correspondent of the *Savannah News*. He says:

I have had the pleasure of meeting with Col. S. L. Fremont, assistant engineer in the service of the United States. He is well known in Savannah as a polished and cultivated gentleman, as well as an efficient officer. He is a graduate of West Point, in the class, I believe, with General Sherman. I learn from him that there was a thorough examination and instrumental survey made of this harbor in the summer of 1879 under his immediate direction, and the result reported to General Gilmore, the engineer in charge of the works on this coast. The project for the improvement made by Colonel Fremont was approved. This work is under the immediate charge of Colonel Fremont, who has been in charge of a similar work in Savannah. He is here to hurry up the work and press it to a rapid completion as soon as possible, which will probably be by the first of January, so far as the present appropriation goes.

The Caintuck Crops.

A correspondent residing in Caintuck, Pender county, writes us to correct some of the statements made by us a few weeks ago relative to the crops in that section. He says that some of the most reliable and accurate farmers in that section think that the corn crop has been damaged about 30 per cent, cotton about the same, potatoes 60 per cent, peas 60 per cent, rice 50 per cent and fodder 75 per cent. He says that the wind and rain did not damage the rice so much and that the injuries to this crop came from the army worm which followed the overflow caused by the storm.

Our correspondent is mistaken in one point. The gentleman who furnished us the information to which he refers did not speak of the statement furnished to us by "Veritas," but by another, published subsequently to his communication.

The New Police Uniforms.

Messrs. John Dyer & Son, merchant tailors, who were awarded the contract for making the new winter uniforms for the police, are now at work on them and it is thought that they will be ready for the force as soon as the cold weather sets in. They are of grey cloth, manufactured by Mr. T. B. Lash, at the Bethania Mills, in Forsyth county, this State, and furnished through Col. Jno. J. Hedrick, of this city, the agent here for the manufacturers. There is something not only appropriate but wise in clothing the force in goods of home manufacture. We have seen specimens of the cloth. It is of a beautiful grey, soft and smooth in texture, and thick and close in manufacture. It is all pure wool, without a thread of cotton or shoddy in it, and has but one fault, so far as we can see, and that is that it may last too long. The fact that our own home manufacturers can compete so successfully with those in the Northern States should be a matter of pride to every true North Carolinian. The gray is but one of many colors and qualities furnished by these mills.

DIED.

DICKINSON—In this city, at half-past 19 o'clock to-day, Mrs. ALICE H. DICKINSON, widow of the late P. K. Dickinson, aged 68 years.
Friends are invited to attend the funeral services to-morrow (Wednesday) afternoon at 4 o'clock from St. James' Church, thence to Oakdale Cemetery.
ROOKS—On the evening of the 14th inst., at the residence of Mrs. Martha A. Newton, in Holly township, Pender county, Mrs. MARY ROOKS, aged about 49 years.
She was for many years under sore affliction and for several months confined to her bed. She was a consistent member of the Baptist Church, in which she was brought up. When in health she was always found ministering to the sick in her neighborhood and many will recollect the soothing hand and kind attention they received at her hands and will call her blessed. She died with perfect resignation to the will of Him who gave her life, saying, "weep not for me, for all is well." Thus can the righteous say, "O death where is thy sting; O grave where is thy victory." WITNESS.
