"JUST IMAGINE HOW I FELT."
BRUNSWICK, Co., Va.,
November 5th, 1881.

Mrs. JOR PERSON,
Franklinton, N. C.

DEAR MADAM:—It is with pleasure
I that write to tell you that your valuable
Remedy has entirely cured me of a
most fearful looking and painful sore on
my ankle. It came more than twelve
months ago, very much like a ring worm.
I painted it with Tinct. Iodine, until it
became a very painful and bad looking
place. Then I commenced to try every-
thing I could think or hear of, until it
became so very painful I could scarcely
walk, when I went to the best doctor in
the country for advice. He told me
he could cure me if I would take my bed
and there remain for four or five weeks,
and if I did not do so pretty soon, it
could not be cured at all, as the bone
would become diseased, and my foot
would have to be taken off. Just imagine
how I felt, to be told there was no cure
for the sore but to lose my foot, or
give up all business—either of these Re-
medies would have ruined me. Mind
you this was the advice of one of the best
doctors in the State of North Carolina,
and this conversation took place last
February. I continued to burn with
caustic, as he advised until September,
but derived no benefit from his treatment.
I was advised then by a friend to try
your Remedy, (Bitters and Wash) took
the first dose the 17th of September, and
I am now a well man, the sore is perfectly
cured, and I can now walk as far,
dance as much and jump as high as any
man you know. Put me back to the 1st
of September, let me know as much as I
now do of the virtue of your Remedy,
and I would not hesitate to pay ten dol-
lars a bottle for it, if I could not get it
for less. I think more of it than any
medicine in the world. It is not only
the best Remedy to purify the blood and
cure all skin diseases, but I believe it will
cure all kinds of blood diseases, and I
know it will cure a love for strong drink.
I hope you will have this published, as
there are many sufferers who could be
cured, if they could know of and get your
Remedy I am truly and respectfully,
JOS. R. MASON,
South Gaston, N. C.

Last Night's Fire.

At about 11 o'clock last night the
alarm of fire was sounded, caused by the
burning of two rice barns on the oppo-
site side of the river, a short distance
below the city, on the plantation of Mr.
George W. Kidder. They contained
about 4,000 bushels of rice, 1,000 of
which were threshed. There were several
stacks of rice which were also consumed.
The fire is supposed to have been the
work of an incendiary, as no one about
the premises could give any other reason.

Mr. Kidder was insured in agencies
represented by Messrs. Atkinson & Man-
ning, for \$6,625, as follows:

On Rice—Queen Insurance Company,
\$2,000; Commercial Union, \$2,000; Vir-
ginia Home, \$1,625. On barns—North
Carolina Home, \$1,000. The rice, of
which there was about 2,500 bushels, be-
longed to Mr. Kidder, and this was cov-
ered by the insurance; but on the two
barns destroyed, which were the prop-
erty of Messrs. Northrop & Cumming, the
loss will exceed the insurance.

The Water Works.

Our report of the test yesterday after-
noon was necessarily imperfect, as the
time allowed us was too short. We are
glad to say that while complete, it was in
every respect satisfactory. The follow-
ing is the report of the inspectors sta-
tioned at the various points:

Water and Market Streets.—Water
was thrown through a one-inch nozzle
with one section of 50 feet hose to an av-
erage height of 109½ feet. Through
two sections of hose, or 100 feet, water
was thrown 125 feet horizontally.

Front and Church Streets.—This plug
or fire hydrant is the farthest off from
the pumping station, being over three
miles distant by the route the water had
to take to reach it, and through fifty feet
of hose with a one-inch nozzle the av-
erage height reached was 108½ feet.

Fifth and Market Streets.—This hy-
drant being near the feeder on Fourth
street, an average height of 143 feet was
attained with a one-inch smooth nozzle.

Fourth and Red Cross Streets.—The
record at this point was very accurately
kept and the report full and complete.
It shows an average height of 111½
feet. The position is an exposed one
and a high wind was blowing during
the entire time the streams were played.
At this point there was a stream thrown
horizontally 156 feet.

Fourth and Harnett Streets.—This
was also an exposed position, and the
firemen, not being familiar with the man-
ner of opening the hydrants, did not get
any water until Dr. Cloud, the contractor
was sent for and opened the hydrant,
after which they threw a stream to an
average height of 111½ feet.

The above streams were all thrown
through fifty feet of linen hose and the
averages are figured from observations
taken every five minutes during the test.
The engines pumped at the rate of 1,600-
600 gallons every twenty-four hours,
with an average steam pressure of sixty-
three pounds to the square inch and an
average water pressure of nearly one hun-
dred pounds to the square inch at the
pumping station.

H. R. Worthington, of New York,
built the machinery for pumping, and
the perfect machinery with which it works
reflects much credit upon the builder.
Mr. John Slingerland had the supervi-
sion of the boilers and machinery during
the test, and was assisted by Mr. Geo.
Alsover and Mr. W. H. Brewer, who is
in the employ of Messrs. J. A. Cloud &
Co., the contractors. Mr. John Sweeney,
late engineer of the *Wm. Nyce*, who is to
be the resident engineer, was also
present to assist and to be inducted into
his new position.

The inspectors and firemen were much
commended by Dr. Cloud for their gen-
tlemanly demeanor and the conscientious
discharge of their duty during the test.

A medical journal gives the following
simple remedy for relieving hiccup:
Inflate the lungs as fully as possible and
then press firmly on the agitated dia-
phragm. In a few seconds the spasmodic
action of the muscles will cease.

Never experiment too much; but use
the right means and thus secure the best
results. Mr. F. Luchterhand, 145 C
street, Boston, Foreman of P. Lally &
Co.'s Machine Works, S. Boston, did in
this wise, and writes: I had severe pains
in my shoulder; but after using St.
Jacobs Oil, I was quickly cured and am
now entirely well.

City Court.

Only one case, that of a colored man
who was found asleep on the street, was
before His Honor this morning. He was
discharged.

Personal.

Mr. John H. Currie, of this city, re-
turned here on Wednesday night with
his bride, after an extended trip to the
North as far as Niagara. Mr. and Mrs.
Currie are stopping at the Purcell
House.

Unavailable.

Unavailable matter, addressed as fol-
lows, remains in the Postoffice in this
city:

One stamped white envelope,
illegibly addressed; Edward P. Tucker,
No. 7 Primus ave, third flight; Raphael
J. Moses, Jr., attorney at law, 61 Wall
street, New York, N. Y.; one stamped
envelope, illegibly addressed.

For a New Home.

T. H. W. McIntire, Esq., of Moore's
Creek, Columbia township, Pender coun-
ty, leaves to night for a home "way down
South." His future residence will be at
Minter City, Leflore county, Miss., which
is in the Western Central portion of the
State, on the Tallahatchie river. He
goes to superintend the business of his
brother, Mr. G. C. McIntire, who is a
merchant and planter at that place. Mr.
McIntire takes his family, consisting of
a wife and seven children, with him. We
dislike to have such people leave the
"Old North State," but as he is bound to
go, we wish him and his a safe and
pleasant journey to the home he will
adopt, and hope that a career of profit,
success, happiness and usefulness may in
a measure recompense him for the ties
he has sundered at his old home in Pen-
der.

At 3 o'clock to-day the thermometer
in this office registered 78 degrees, which
is two degrees above Summer heat.
How is this for the middle of November?

The receipts of cotton at this port to-
day foot up 1,232 bales.
