WILMINGTON, N. C.

SATURDAY, NOVEMBER 96, 1381.

Entered at the Postoffice at Wilmington, N. C., as Second Class Matter.

President Arthur, it is reported; will give no permanent hostess to the White of the cabinet.

The six largest States, named in their order, are Texas, California, Colorado, Nevada, Oregon, and Kansas. The six smallest States, beginning with the least, are Rhode Island, Delaware, Connecticut, New Jersey, Massachusetts, and New Hampshire.

Mr. Conkling, it will be remembered, resigned in order to be vindicated by the people of his State. The Legislature refused to vindicate, and now it appears that but one of his supporters in the Legislature was re-elected to a seat in that body. Mr. Conkling has had enough of vindication.

The Marquies de LaFayette's grave in the Picpus cemetery was decorated on All Soul's Day by a number of American ladies. To a quantity of flowers one woman added a little earth brought from the field of battle of Yorktown, in which three little flags were planted, the Ameri. can stars and stripes, the white fleur delys of the old French monarchy, and the tri color.

A new horse distemper has broken out in New York city, taking the form of typhoid pneumonia. The eyes maturate, the nose discharges profusely, the legs swell, and every organ seems to be affect ed. Ale, milk-punch, nitre and quinine appear to be the most effective remedies-Many cases are fatal, horses dying with faff to succeed at all in after lire. He is in sixteen hours after being attacked.

Prince Bismarck's mother is described, and the description is approved by Bismarck himself as correct, as having been a tall, graceful, amiable, and altogether charming woman, but with all this possessing a notable expression of decision and firmness. She had steady eye and hand, and was an excellent pistol shot.

The Figaro says that since Cromwell, who changed his sleeping place nearly every night and studiously kept his movements a secret, no one has simed at more or a bottle to-day—before you become incurable. It is the cure; safe and sure. incognito than M. Gambetta. The states. man has, says L'Estafette, lately taken a house in the Rue St. Didier, but the owner was led to suppose by an old lady who came on the bussiness that he was leasing it to a Mme. Leon, who wanted it for her daughter. In Germany M Gambetta traveled as "M, de Massabie, a French gentleman."

Professor Brunialti, of the statistical archives of Rome, estimates that there are altogether in the world 6,568,000 Jews, of which number 5,500,000 are in Europe, 240,000 in Asia ,500,000 in Africa, 308,000 in America, and 20,000 in Australia. Taking the European countries, by far the largest number of Jews in population to the population are in Roumania, where the average is 7.44 per | bars." 100 inhabitants. Russia comes next with 3.57 per 100 inhabitants, while Ger many has 1.22, Great Britain 0.20, and Portugal only 0.04.

A few days ago some workmen, who had bored an artesian well near Rich mond and Car streets, in Cincinnati, to a depth of eighty-three feet, were astonished to see the water stop flowing and to find that gas was escaping from the pipe. When lighted the gas from a oneinch pipe made a flame seven leet in length and equal in illuminating power to nearly 500 ordinary gas bu ruers. The gas is apparently pure and is said to come from a bed of coal oil. Spectators are flocking by the thousand to see the phe. nomenon.

It is a curious fact that the incidents of President Garfield's assassination have already been embodied in a tragedy which a company of traveling actors ad vertised to play at Mad son, Ohio, last week. The public mind is not yet pre pared to see the harrowing story rehears ed upon the stage, and the fact that Madison is the late President's home district accounts for the instant and em phatic expression of public indignation, which decided the ambitious tragedians

with the escape of the Republican Star route plunderers. The two facts explain the policy of each party towards its own rascals. Democracy destroys its peculators. Republicanism makes its cabinets and its courts the factors in a conspiracy to acquit them. Let the people remember the difference."

General Walker, ex-superintendent of the Census Bureau, has submitted a statement to the Secretary of the Inte-House, but will, upon occasions of formal rior containing some interesting facts as entertainment, invite the assistance of to the representation of the next House the wives and daughters of the members of Representatives. The total population of the States-49,371,340, with the number of Representatives at the pres eut figure, 293-would give one Repre sentative to every 169,080 of population, Upon this basis the following changes in representation would ensue in the Fortyeighth Congress: Arkansas, Californise Michigan, Mississippi, South Carolina and West Virginia would gain one each, Minnesota and Nebraska would gain wo each. Alabama, Illinois, Maine, Maryland, New Hampshire, Ohio, Tennessee and Vermont would lose one each, Pennsylvania two and New York three. The other States would show so change

> Some of the Toronto newspapers are protesting against the cramming which they say prevails to an alarming extent in the public schools there. According to one of the best known Toronto doctors, cramming exists to an alarming extent in the schools from the Upper Can ada College down. He instances deaths which are directly traceable to over-study and also gives his professional opinion as to the results of over-study as it exists in the schools there. In both sexes it produces, he says, paleness, emaciation and nervous debility, and the nervous exhaustion leads in after life to lack of self control in many respects, and drunken. ness and other evil habits follow. Not only this, but mental enfeeblement, the doctor says, is a frequent result of overstudy, and often the brightest pupils totally opposed to young children being required to study at home or out of school hours, as many of them have to and lays the blame of much of this evi to the teachers, who often overrate the understanding of the children.

"I Don't Wan't a Plaster',

said a sick man to a druggist, "can't you give me something to cure me?" His symptoms were a lame back and disordered urine and were a sure indication of kidney disease. The druggist told him to use Kidney Wort and in a short time it effected a complete cure. Have you these symptoms? Then get a box -Knozville Republican.
