"JUST IMAGINE HOW I FELT."
BRUNSWICK, Co., Va.,
November 5th, 1881.

Mrs. Joe Person,
Franklinton, N. C.

DEAR MADAM:—It is with pleasure that I write to tell you that your valuable Remedy has entirely cured me of a most fearful looking and painful sore on my ankle. It came more than twelve months ago, very much like a ring worm. I painted it with Tinct. Iodine, until it became a very painful and bad looking place. Then I commenced to try everything I could think or hear of, until it became so very painful I could scarcely walk, when I went to the best doctor in the country for advice. He told me he could cure me if I would take my bed and there remain for four or five weeks, and if I did not do so pretty soon, it could not be cured at all, as the bone would become diseased, and my foot would have to be taken off. Just imagine how I felt, to be told there was no cure for the sore but to lose my foot, or give up all business—either of these Remedies would have ruined me. Mind you this was the advice of one of the best doctors in the State of North Carolina, and this conversation took place last February. I continued to burn with caustic, as he advised until September, but derived no benefit from his treatment. I was advised then by a friend to try your Remedy, (Bitters and Wash) took the first dose the 17th of September, and I am now a well man, the sore is perfectly cured, and I can now walk as far, dance as much and jump as high as any man you know. Put me back to the list of September, let me know as much as I now do of the virtue of your Remedy, and I would not hesitate to pay ten dollars a bottle for it, if I could not get it for less. I think more of it than any medicine in the world. It is not only the best Remedy to purify the blood and cure all skin diseases, but I believe it will cure all kinds of blood diseases, and I know it will cure a love for strong drink. I hope you will have this published, as there are many sufferers who could be cured, if they could know of and get your Remedy I am truly and respectfully,
JOS. B. MASON,
South Gaston, N. C.

The Remedy is for sale in Wilmington by Dr. Wm. H. Green. Send for circular of testimonials.

We visited the County Poor House and found everything in very good condition and the inmates cheerful and satisfied with their treatment as to food and other necessities.

We also visited the County Jail and found it not in as cleanly a condition as it should be; and we also found that some necessary repairs are needed. We would recommend that the plastering in the rooms be repaired and that the cells and house generally inside be whitewashed. We further recommend that the prisoners be allowed more comfortable bedding. (Signed) S. W. DUNHAM, Foreman.

Cold Feet and Sleeplessness.

The association between cold feet and sleeplessness is much closer than is commonly imagined. Persons with cold feet rarely sleep well, especially women; yet the number of persons troubled is very considerable. This is the plan to adopt with cold feet: They should be dipped in cold water for a brief period. Often just to immerse them and no more is sufficient; and then they should be rubbed with a pair of hair-brush gloves, or a rough Turkish towel, till they glow; immediately after getting into bed. After this a hot water bottle will be successful in maintaining the temperature of the

feet, though without this preliminary it is impotent to attempt to do so. Disagreeable as the plan at first may appear, it is efficient, and those who have once fairly tried it continue it, and find that they have put an end to bad nights and cold feet. Pills, potions, lozenges, "nightcaps" and all narcotics fail to enable the sufferer to woo sleep successfully; get rid of the cold feet and the sleep will come of itself.

The Rice Market.

What makes it dull and low at the present time? for it seems to be so at the largest market for what is known as "Carolina Rice." Here in Savannah there is very little rice of the higher grades—such as you Cape Fear people make—changing hands. The lower grades are at times quite lively at the standard rates for such rice: 95 cents to \$1.25 for rough upland. Tidewater is held at \$1.50 to \$1.70 and few buyers, although every one believes there will be an advance in price after Christmas, when it has been fully demonstrated that the crop of good rice is short. We all know it is short and that the prices must advance! Nowhere has the crop been larger than it was last year, and the "Carolina rice" has suffered a severe loss, especially in the higher grades, yet the "bears" are holding back to see how many farmers can be forced to sell at a reduced price. This is good "human nature," but bad for commercial prosperity. Last year they held the market down all the season under a belief that the crop was large: that Louisiana had made 250,000 barrels and that would leave a surplus on hand. When the milling season was over, however, there was found to be no stock on hand, and prices advanced two cents a pound! That state of things caused the market for new rice to open high and so much higher than usual—8½ cents for good grades—that it has receded and now the market seems to be demoralized. Stocks are withdrawn from the market here under a confident belief that an advance will be made at no distant day. Your planters should, if they can, hold their rice. They can, by sending it here or to other mills, get an advance on its value of, say \$1 a bushel for good rice, and take advantage of the future market by paying interest at the rate of 8 per cent. on advances. Planters have some rights that should be respected. Speculators may "corner" the crop, but with the rice mills to assist the planters, they will hardly make a very large fortune out of the crop of 1881 of
