"JUST IMAGINE HOW I FELT."
 BRUNSWICK, Co., Va.,
 November 5th, 1881.

Mrs. Joe Person,
 Franklinton, N. C.
 DEAR MADAM:—It is with pleasure that I write to tell you that your valuable Remedy has entirely cured me of a most fearful looking and painful sore on my ankle. It came more than twelve months ago, very much like a ring worm. I painted it with Tinct. Iodine, until it became a very painful and bad looking place. Then I commenced to try everything I could think or hear of, until it became so very painful I could scarcely walk, when I went to the best doctor in the country for advice. He told me he could cure me if I would take my bed and there remain for four or five weeks, and if I did not do so pretty soon, it could not be cured at all, and my foot would become diseased, and my foot would have to be taken off. Just imagine how I felt, to be told there was no cure for the sore but to lose my foot, or give up all business—either of these Remedies would have ruined me. Mind you this was the advice of one of the best doctors in the State of North Carolina, and this conversation took place last February. I continued to burn with cantharide, as he advised until September, but derived no benefit from his treatment. I was advised then by a friend to try your Remedy, (Bitters and Wash) took the first dose the 17th of September, and I am now a well man, the sore is perfectly cured, and I can now walk as far, dance as much and jump as high as any man you know. Put me back to the 1st of September, let me know as much as I now do of the virtue of your Remedy, and I would not hesitate to pay ten dollars a bottle for it, if I could not get it for less. I think more of it than any medicine in the world. It is not only the best Remedy to purify the blood and cure all skin diseases, but I believe it will cure all kinds of blood diseases, and I know it will cure a love for strong drink. I hope you will have this published, as there are many sufferers who could be cured, if they could know of and get your Remedy I am truly and respectfully,
JOS. R. MASON,
 South Gaston, N. C.

Terrible Loss of Life.
 Millions of rats, mice, cats, bed-bugs, roaches, lose their lives by collision with "Rough on Rats." Sold by druggists, 15c.

Some very fine dressed turkeys were in market to-day and sold for two shillings a pound. When we say two shillings we mean, according to the ante-bellum valuation, sixteen and two-thirds cents.

An entertainment complimentary to a young lady from Smithville who has been on a visit to friends in Wilmington was given last night by a number of young gentlemen. It was a highly pleasant and successful affair.

Mr. Samuel Northrop was yesterday elected a member of the Produce Exchange. Mr. R. H. Love, agent for the Chess Carley Company, was appointed on the Committee on Information and Statistics, and Capt. S. P. Collier on the Committee on Statistics.

Mortuary Report.
 At the last meeting of the Board of Aldermen, Dr. J. C. Walker, Superintendent of Health, made his regular monthly mortuary report for the month of November. The total number of deaths during the month was 42, classified as follows:

Whites—Males, 7; females, 5; adults, 4; children, 8. Total, 12.
 Colored—Males, 18; females, 12; adults, 12; children, 18. Total, 30.

This, from Louise Hilgen, Cedarburg, Wis., is noted in a Milwaukee exchange: About two years ago I began suffering with a pain in the knees, and in a short time was lame entirely. I used St. Jacobs Oil and found relief after the trial of the first bottle, and am now perfectly well again.

A Cold Bath.

About 10 o'clock this morning a pig came down Market street to the dock, jumped into the river and struck out, not manfully, but piggishly, for the other side. Two men started immediately in a boat, but failed to overtake piggy until he had reached the opposite shore. As he could not climb the wharf, they had no difficulty in capturing him.

When a lecturer has worked the lecture of his audience so near to the weeping point that they have gotten out their handkerchiefs, and then suddenly changes his tone and speaks of the merits of Dr. Bull's Cough Syrup he is bound to rouse a feeling of indignation.

Personal.

We understand that Mr. Richard J. Jones has been chosen by the Board of Directors of the Wilmington Gas Light Company to fill the vacancy in the Board caused by the death of Mr. Z. Letimer. This will not, we presume, interfere with Mr. Jones' position as Secretary and Treasurer of the Company, a position which he has held for so many years and with so much acceptability.

Gent's Scotch Sole Gaiters and various other styles at cost at Howey's. 2w

A Good Showing.

The financial exhibit for the First Baptist Church for the past year is very encouraging. Rev. J. B. Taylor, the Pastor of the Church, at the business meeting of the Church, held on Monday evening, called attention to the fact that nearly \$7,000 in money was raised by the congregation during the year. Of this amount more than \$3,000 has been paid on the Church debt, thus reducing it one-half, and nearly \$3,500 was contributed for various objects, domestic and foreign.

At cost for cash. The large stock of boots and shoes at Howey's. 2w

Package Matinee.

Prof. Agostini proposes to give a very unique entertainment at the Rankin Hall, on next Saturday afternoon. It is to be a package matinee. There will be no charge for admission, but each guest is expected to bring with him or her a pound package of tea, coffee, sugar or something in the way of edibles for the poor, in whose benefit the entertainment is given. With such a laudable object in view, it should be a success. The programme shows ten dances, in the following order: Waltz, polka, pinafore, three steps, racquet, (new), olivette, waltz, polka, german and march. Masters Thomas Southerland and Whiting McIlhenny form the Reception Committee; Masters Victor Grainger, Albert Birdsey, Dave Lippitt and Genie Thompson form the Floor Committee, and Master B. Capehart will be the Director of the Floral March.

Children's School Shoes, both lace and button, AT COST FOR CASH, at Howey's. 2w

Venno for December.

Here is what Venno says about the weather for December. It will be seen that the first few days have not been remarkable for accord with his forecast: December, 1881—1, 2, 3. Storms or indications of storms in the Atlantic, and cold, blustery weather at New York, Boston and other seaboard cities; snow-falls in the middle and northern States and Canada; very cold weather west.

Probably a brief mild term 7 to 11. Generally very cold weather, probably commencing and ending with snow-falls in northern, middle and western sections, and bleak and stormy weather south.

13 and 14. Probably milder in all sections, with rains South and West to a limited extent.

15 to 20. Very cold and blustery period, with snow-falls where these were experienced in 1876 and 1880, the 19th and 20th probably being the days most marked in this respect; intense cold in Canada and the New England States.

25. Christmas has a cold and stormy period before and after it, but the day itself may just escape.

26 to 30. After the 26th I see nothing but cold, snow and bluster to the close of the year for Canada and much of the United States, West and South, the month probably resembling, in many respects, the Decembers of 1876 and 1880. As to the intensity or degree of these snow-falls, I have no very definite indication or low temperatures for the forecast of the approaching winter season.

But January will have its "they" this time and probably a very marked one.

To Builders and others—Go to Jacobs' for Cash, Blinds and Doors, Glass, &c. You can get all sizes and at the lowest prices.

Mr. J. H. Harden, at his drug and chemical store in the New Market building, has an elegant assortment of new and pretty things for holiday and wedding gifts, which have just been received from New York and which will be sold at low prices.

First Cargo of New Corn.
 The first cargo of new corn of the crop of 1881 arrived here to-day on the schr. *Minnie Reynolds*, from Elizabeth City, to Messrs Henderson & Co. She brought 1,354 bushels which have been sold but at a price not made public.

Prominent Railroaders.
 Mr. H. B. Plant, President of the Southern Express Company and a prominent railroad magnate, and Col. Henry S. Haines, General Superintendent of the Savannah, Florida & Western Railway, are in the city to-day. Col. Haines is a Wilmingtonian, but left here some years previous to the war to seek his fortune in other States.

When Signs Fall.

If red clouds in the East in the morning betoken rain, as is generally supposed, we were certainly entitled to a big storm to-day. The clouds this morning, just before sunrise, were brilliant and beautiful to look upon, and during the greater part of the forenoon there were indications of a storm, which, however, at this writing have all been dissipated and the sun is shining pleasantly and brightly.

Educational.

The Hanover County Board of Education met in pursuance of law, at the office of the Register of Deeds on Tuesday, the 6th inst., and made the following appointments of School Committees, to serve for the next two years: District No. 1—Donald McRae, W. M. Parker and Jos. E. Sampson.

District No. 2—Walker Meares, Jas. H. Chadbourne and John G. Norwood.

District No. 3—A. J. Johnson, John Canady and Thos. Davis.

District No. 4—John G. Wagner, Louis Todd and Wm. H. Waddell.

District No. 5—W. B. Giles, A. A. Moseley and A. R. Black.

District No. 6—W. S. Johnson, O. M. Fillyaw and Samuel C. Nixon.

We understand that the Board are to meet again at an adjourned session within a few days, but could not learn the precise time.

Duplin Canal.

Maj. W. L. Young, Superintendent of the Duplin Canal, was in town to-day. He states that the work is progressing favorably, and that it is being pushed at the rate of about 400 yards per week. He states that the delinquent subscribers to the stock were brought before Justice Matthews, at Kenansville, on Tuesday, the 6th inst., and that judgment was rendered against them in each case. He also says that in making excavations he has struck what is known as "Jersey Green Sand", a marl composed of lime and potash, and which is the most valuable marl known. The strata is from three to four feet in thickness, and has been found for a mile and a half in extent. Before the war Prof. Emmons found a thin strata of the same marl at a point about 4 miles from the place of the present discovery. There is not a doubt that it underlies a large tract of territory in that section, and will prove immensely valuable as a fertilizer.

Frank Leslie's Sunday Magazine.

The January issue of this admirable monthly is, in all respects, a holiday number, and reflects great credit on the new editor, T. De Witt Talmage, D. D. It opens with a charming illustrated Christmas Carol, by R. H. Stoddard, followed by an illustrated article of much interest, "A Brief Chat About Christmas." "Cold Weather Talk," by W. C. Gray; "A Christmas Homily" and "Christmas and Epiphany Celebrations," etc., are timely and excellent articles. The "Reminiscences of an old New Yorker" are continued; the delightful serial, "May Cunningham's Trial" is concluded, and two of deep interest commenced, entitled, "Margaret's Enemy," by the author of "Maid Marjory," etc., and "Prudence Winterburn," by Sarah Doudney. There are short stories, sketches, essays, poems, etc., by celebrated writers, and the Home Folio gives a sermon by Rev. Dr. Talmage, "The Manger." Among the many attractive features of the number, which abounds with entertaining, instructive and edifying reading, is No. 1, of "People I Have Met," by the Editor, introduced with illustrations, William Cullen Bryant, Washington Irving, Peter Cooper, Daniel Webster and Dr. J. G. Holland. The price of a number is 25 cents; yearly subscriptions, \$3, post paid.

Address Frank Leslie, Publisher, 53, 55 and 57 Park Place, New York.
