No City Court to-day.
Nothing doing in magisterial circles to-day.

There was another heavy frost this morning but the weather has moderated very much during the day.

We have always kept the Hamburg Drops in our family, writes Mr. Nicholas Schroeder, West Webster, N. Y., and they have done us the best service in Dyspepsia.

Those who are fond of frozen oysters had a fine opportunity this morning for gratifying their palates, many of those arriving here in cars being in that condition.

Capt. Roberts, of the steamer D. Murchison, informs us that there is about 12 feet of water in the river, and that when the snow melts in the up-country, a freshet may be expected. He also says that the river is proportionally higher at this end than it is up nearer Fayetteville. The raftsmen have taken advantage of the rise of water, and a good deal of timber is being floated down for a market.

To Builders and others—Go to Jacobs for Sash, Blinds and Doors, Glass, &c. You can get all sizes and at the lowest prices.

The Baltimore Times.
We have received the initial number of *The Times*, a newspaper just started with the new year in Baltimore, Md. Mr. W. B. Hazleton, an experienced journalist, is the publisher and proprietor. Its aim will be independence in politics, although its proprietor is a Republican. It is a two-cent daily; is well gotten-up; contains a great variety of interesting matter, political, general, local, and the gist of the foreign news, and is well worth the money.

The Howard Relief Fire Engine Co.
No. 1, held a meeting last evening for the election of officers for the ensuing term, with the following result:
Foreman—A. Adrian.
1st Asst. Foreman—H. Hintze.
2nd Asst. Foreman—M. Rathjen.
President—J. G. Oldenbattel.
Vice President—J. D. Steijles.
Rec. Secretary—F. C. Miller.
Cor. Secretary—J. G. L. Gieschen.
Treasurer—J. Haar, Jr.
Chief Engineer—W. Farlong.
Asst. Engineer—E. Martens.
With one exception all the old officers were unanimously re-elected.

Pender County Items.
The people of this new county are ready and ever clamorous, as we are informed, for a Court House and Jail at Burgaw. On Monday, the 2nd inst., the Board of County Commissioners, at their regular monthly meeting, appointed a committee to prepare plans and specifications, to be submitted to the magistrates of the county on the 1st Monday in February next. The committee consists of the Board of County Commissioners, Messrs. Daniel Shaw, James Alderman and G. W. Corbett, to which were added Messrs. A. H. Padden and Charles Robert Johnson.

This means business and a determination to construct these much needed public buildings.

No new county is really such without its Court House and Jail.

Freshwater Perch, Trout and Black Fish Hooks and Lines. A full assortment and lowest prices at J. A. Gault's.

New Year's brings Good Resolutions.
The idea of a thorough reformation commencing with a New Year in all affairs of life, is as old an idea as the world itself; but when the year closes, a retrospective glance always tells of intentions not carried out. To those who have thought it wise to delay an essay of fortune's favoritism by sending one or two dollars to M. A. Dauphin, New Orleans, La., in time for the 140th Drawing of the World-famed Louisiana State Lottery, before January 10th, the idea must come: Delays are dangerous.

The Governor of North Carolina said to the Governor of South Carolina: "Sir, the best remedy in the world is Dr. Bull's Cough Syrup" and the latter seconded the assertion.

The Fire this Afternoon.

About 4 o'clock this afternoon a fire was discovered among some bales of cotton standing on the platform of the Champion Compress Co., which had just been delivered by the W. C. & A. R. R. The employees of the Compress Company and the railroad went to work and rolled the ignited bales away from the others, and a stream of water was in a few moments playing from a hose attached to the hydrant of the Water Works, and also from the fire steamers. The fire was soon subdued, and the damage to the 18 bales injured will be not above \$200. The cotton belonged to Messrs. Alex. Sprunt & Son, and was fully insured.

The Vokes at the Opera House.

This celebrated family will make their first appearance in Wilmington on the night of Tuesday, January 10th. They are the originators of the particular kind of entertainment they represent, and have had many rivals and imitators, but none to equal, let alone excel them. They have lent dignity to folly by lavishing upon it the resources of art. Their fun is the broadest—the heartiest, and yet it is raised high above the level of mere rough play by the methods employed, which are distinctly intellectual and artistic, and we can assure our readers a rare treat is in store for them. The New York World thus speaks of them:

"The original and only Vokes family—most agile, versatile and popular actors—singers, dancers and pantomimists, have begun anew the conquest of the American public. They appeared at the Union Square Theatre last night in the ever welcome, mirth-provoking extravaganza, 'Belles of the Kitchen,' in which Miss Victoria Vokes, Miss Jessie Vokes, Mr. Fred Vokes and Mr. Fawdon Vokes repeated their successes of former years. The singing and dancing of Miss Victoria and Mr. Fred excited tremendous applause, and the funny business of the piece kept the audience in a roar."

Railroad from Clinton to Warsaw.

Of all the plans named for the people of Sampson to reach Wilmington, as one of the best markets in the South, there is none so accessible, cheap and desirable as that by railway to Warsaw, and thence down to the city by the Wilmington & Weldon Railroad. The old plank road from Warsaw to Clinton would be the route, and this would make the grading for a railroad amount to but little. The distance is only about twelve miles. If the people of Sampson prefer to reach Wilmington by way of the proposed Clinton & Point Caswell Railroad all well. That would be cheaper and every way more desirable than the wild scheme of W. J. Best, of a railroad from Clinton to LaGrange by way of Faison. It is surprising to many that the good people of the sterling old county of Sampson should follow the lead, as so many of them seem to be doing, of this man Best. Let them see to it that they do not regret it before it is too late. In giving their time, attention and money to this scheme they are injudicious, impracticable, and they will secure failure for their success. But a railroad from Clinton to Warsaw is the most feasible plan after all. Unless I am greatly misinformed the Wilmington & Weldon R.R. under the direction of that great Southern Railroad President, Hon. R. R. Bridges, will do for such a scheme what said company have done for the Halifax and Scotland Neck Railroad, and that is more help and better strength than Best can give, however glittering and seductive his promises. They would doubtless take the road after it is graded and crossed by the subscribers, and then iron it and equip it, and run it. In this way the people of Sampson could secure the cheapest road and have the surest and best access to Wilmington and the rest of the world. It is an easy matter to build railroads on paper; it is a hard and expensive thing to do so in reality as well as to run them successfully. Building railroads requires money. It is now too much the fashion when Northern syndicates come among us to build railroads to flatter the people at first, who live along the proposed route, that donations and subscriptions will not be asked from them, at all, and yet, when our citizens are committed to these projects, they are asked to build them. Did our own people or Mr. Best and his syndicate grade the Midland Road from Goldsboro to Smithfield? Did he not say that he would not ask subscriptions from those living along the line of his proposed road?

TRIBUTE OF RESPECT.

At a regular meeting of the Historical and Scientific Society held Jan. 2nd, 1882 the following resolutions were adopted: Whereas it has pleased God to take from among us our fellow member and friend, Mr. HENRY NUTT, it is becoming in this Society to make out record of this sudden and sad event; therefore, it is Resolved, That the death of Mr. Henry Nutt the Scientific and Historical Society of Wilmington has lost one of its most active and efficient members, whose regular attendance and able contributions have added greatly to the interest and value of our meetings, whilst his fund of information in all that related to the Cape Fear District was large and varied, ready always to be drawn upon by his friends for facts and data, which they might be in search of, whilst his genial nature and uniform urbanity stamped him as a gentleman of refinement and culture, with whom it was a privilege to be acquainted.

Resolved, That the Secretary be instructed to reserve a page in our record book, on which shall be inscribed as follows:
IN MEMORIAM
HENRY NUTT.

Born— Died— and that the Secretary be also directed to convey to the family of the deceased our sincere and deep sympathy; their bereavement, and that a copy of these resolutions be transmitted to them, and also a copy to the DAILY REVIEW and Wilmington Star.

DIED.

PRITCHETT—At his residence in Bladen county, on 28th Decemb. r. 1881, JAMES H. PRITCHETT, aged 63 years, 11 months, and 18 days.
The subject of this notice was a native of Jones county. He removed into Bladen county in 1845, and was one of the pioneers in the settlement of this section of North Carolina. The major part of his life was spent in Brunswick, where he will be long remembered for his many generous and charitable acts. He was a genial, whole-souled, kind-hearted man, devoid of deceit, a zealous christian and a kind and affectionate husband, father and friend. Peace to his ashes.
