WILMINGTON, N. C.

THURSDAY, JANUARY 5, 1882.

Entered at the Postoffice at Wilmington, N. C., as Second-Class Matter.

The Washington Post makes this telling point. While the Administration is lighting a candle in the day to faciliate the hunt for a Georgia Ma hone, the good people of that State are organizing factories and demonstrating their good sense in clinging to the Democratic party and efficient government thereunder. A cotton mill with a capital of one million dollars was organized, Wednesday, in Augusta, and probably none of its corporators think the State bound to go to ruin unless it sells out to the present Stalwart administration.

One of the largest counts of bullion ever made in the United States will be commenced in New York this week. A new superintendent of the assay office at that place will, in a few days, take the place of C. Acton, the New York stalwart, who becomes assistant treasurer at New York. It is necessary that there shall be a count of the bullion in view of the change. There is \$350,000,000 of it in the assay office. It has all to be weighed and certiefid to before the transfer of the superintendency will be formally completed. This work will be done by treasury experfs and it will probably take six weeks or two months.

Mr. Oscar Wilde, the English apostle of estheticism, arrived in New York Monday on the steamship Arizona. He will lecture in that city on "Renaissance," which he interprets to be "the revival of they are steadily sinking into their the intimate study of the correllation of graves when, by using Parker's Ginger all arts," and if this "too utterly utter" young man succeeds there, he may treat other cities with his notions of estheti cism. He has also written a play which he wishes to produce on the American stage, provided he can secure a cast of actors "who shall be thoroughly able to represent the piece with all the force of its original conception." Being only 26 years of age, Mr. Wilde is quite young enough to learn a thing or two, provided he remains in this progessive country even a few years.

EMIGRATION.

The emigration from Europe to the United States has been greater this year than ever before. The number that arrived at the city of New York alone from January 1 to December 11 was 419,120, an increase of 112,804 over last year in the same period. The commissioners of emigrants paid \$2,500,000 for inland transportation, and brought. with them besides about \$9,000,000. Of course many who gave their destination as New York only remained there a short time, afterward going inland. A larger number have gone to the south west this year than heretofore, but, as usual, the great majority went to the Western States. The largest number, 43,419, went to Illinois, and at least onehalf of them settled in Chicago," or in that vicinity. Pennsylvania received the next largest number, 36,745; and 15, 701 went to Wisconsin; 15,698 to Minnesota; 12,526 to Iowa; 17,088 to Michigan; 5,124 to Indiana; 3,381 to Kansas, and 4,124 to Nebraska. It appears that 1,715 went to Utah; but the statistics do not state how many were Mormon dupes.

RICHMOND (VA) AND IT'S PROSPERITY

The Richmond (Va.) Dispatch, of the 1st instant, is principally devoted to the growth, prosperity and future prospects of that city; and the exhibit is gratify ing. Its enterprising publishers have taken particular pains, by a thorough canvass and inspection of the books of the different manufacturing and business establishments, to have its report authentic and correct. The increase has been marked and encouraging, as the following figures will show:

Capital Annual sales 1881 . . \$11,020,815 \$32,802,756

This is an increase of sales, of about

33 per cent. There were 716 more hands employed | Cure than in 1880, and whereas in 1880 the hands were not continuously employed, in 1881 they made not only full but in

many instances extra time, and it was often that the demand for skilled labor exceeded the supply. The report shows that there are 675 manufacturing establishments in the city, which give employment to 17,648 operatives. The largest industry is the manufacture of chewing and smoking to. baceo, of which there are 55 establish

ments, with a capital invested of \$2,821,-

000, employing 4,821 operatives and with

sales during the year amounting to

tance is embodied under the head of iron and nail-work, machine works, foundries, stove works, agricultural iron-works, tobacco fixtures, &c., of which there are 31 establishments, with a capital invested of \$1,642,000, employing 4,042 operative and with sales during the year amounting to \$5,337,599.

This is a showing of which the city may well be proud, and with the present business outlook, there are yet brighter prospects for the future.

Lydia E. Pinkham's Vegetable Com pound will at all times and under all circumstauces, act in harmony with the laws that govern the female system. Address Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for circular.

MUUNBHINE

A New Jersey man "couldn't see any danger in smoking while weighing pow der." He cau't see anything now .-The Judge.

Drill sergeant (to recruit): Throw out your chest and keep in your stomach!' A soldier should always have a full chest and an empty stomach!—Punch.

A distinguished English physician, who after a day of hard labor, is too ralgia and Dyspepsia, and the nervous weary to enjoy a dinner and wishes to system put in a natural and healthy avoid drinking wine or brandy, eats a few fine raisins, which, he says, bave a stimulating effect

The New York produce exchange has organized a glee club. They will proba-bly sing "Tis Wheat to be remembered" as an opening chorus; followed by such selections as "Ryes and Shine, "Peas, be Still," "The Prairie Flour, and closing with a vigorous cadenza of wild western oats .- Pittshurg Telegraph

A Deadwood man saw another reach for his hip pocket, thought the fellow meant to draw a revolver on him, and so shot him dead. Then he found that the man was about to draw a flask and treat him, and he much regretted his hasty act. But he remarked that the last wishes of the deceased should be carried out, and took a drink from the flask.

Many Miserable People drag themselves about with failing strength, feeling that l'onic, they would find a cure commencing with the first dose, and vitality and strength surely coming back to them. See other column.

The Sun. New York, 1882. THE SUN for 1882 will make its fifteenth

dec 2 Broadway an i Ann st, New York

annual revolution under the present management, chining, as always, for all, big and little, mean and gracious, contented and unhappy, Republican and Democrat, deprayed and virtuous, intelligent and obtuse. The Bua's light is for mankind and woman and the state of the blistering backs of t' e persistently wiched THE SUN of 1868 was a newsuaper of a new kind. It discarded many of t e forms and a multitude of the superfluous words and phrases of spc er t journalism It undertrok to report in a fresh, uccinct, unconventional way all the news of the world, omitting ne event of human interest, and commenting upon sffairs with the fear eseners of abselute independence. The success of this experi ment was the success of the Sun. It effected a permanent change in the style of American

ne appapers. Every important journal established in this country in the dezen years past has been modelled after the run, Every important journal already existing has been modified and bettered by the force of the Bun's example. THE SUN of 1882 will be the same outspoken,

truth-telling, and into esting newspaper.

By a liberal use of the neans which an ab indent prosperity affords, we shall make it better than ever before. We shall print all the news, butting it in readable shape, and measuring its impor-tance, not by the travitional yardstick, but by its real interest to the people. Distance from Printing House Equare is not the first consideration with the Sun. Whenever say-

thing happens worth reporting we get the particulars, wheth r it happens in Brooklyn Inpolitics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think about men and events. That habit is the only secret of the Sun's political course.

THE V BEELS SUN gathers into eight pages the best matter of the reven daily issues. An Agricultural Department of unequalled merit, full market reports and a liberal proper-

tion of litera y, scientitic, and domestic in-telligence complete the Weekly Bun, and make it the best newspaper for the farmer's household that was ever printed. Who does not know and read and like the Sunday Sun, each number of which is a Gotconda of interesting literature, with the best poetry of the day, prose every line worth reading, news, humor—matter enough to fill a good sized book, and infinitely more varied and entertaining than any book, big

If our idea of what a newspaper should be pleases you, send for the Sun. Our terms are as follows-For the daily un, a four-page sheet of twenty-eight columns, the price by mill, p st-paid, is 55 cents a month, or \$6.50 a year; or, including the Sun ay paper, an eight-page sheet of fifty six columns, the price

is 65 ceats per month, or \$7.70 a year, post-The Sunday edition of the Sun is also furnished separately at \$1.20 a year, postage

The price of the Weekly Sun, eight pages, fifty-six columns, is \$1 a year, postage paid. For clubs of ten sending \$10 we will send at extra copy free. Address
1 W. ENGLAND, Publisher of the Sun, New York City.
