WILMINGTON, N. C.

FRIDAY, JANUARY 13, 1882.

Entered at the Postoffice at Wilmington, N. C., as Second-Class Matter.

The Philadelphia Record says "there is as much prejudice against negroes in Philadelphia as there is in Virginia."

Yes, there is not only as much, but there is a greater prejudice in Philadelphia and all the rest of the Northern cities and villages than there is in any locality in the South.

OUR EXPORT AND IMPORT TRADE.

The Bureau of Statistics reports an excess of merchandise over imports for the month ended November 30, 1881, of \$13,399,439, against an excess for the same month of last year of \$35,899,226.

BISMARCK'S HAND.

A recent letter, written by a shrewd and observing citizen of New York, in speaking of the recent German Imperial Rescript, says: "Thoughtful and intelligent Germans here, in almost every walk of life, are deeply moved by the news from the Fatherland."

Several of these exiles were members of Parliament, others were editors of newspapers and magazine writers. These people see the hand of Bismarck behind the rescript, and assert that the Chancellor is, but pushing the Emperor to his ruin.

fact that all able-bodied males in that Empire are compelled to serve a certain period in the German army, will draw many more than usual from that country, while the influx from the Scandinavian nations will equal, if it does not exceed, that of previous years.

Well, let them come, say we! There is room and verge enough in our broad domain for them all, and a generous soil to reward their patient industry.

Persons who stand upon their feet, whether men or women, are often troubled with serious pains and weaknesses in the back, loins and other parts of the body.

"I have found your tender spot," as the fireman said to the locomotive when a sudden lurch lauded him in the coal bin.

A statistician announces that fourteen out of every twenty men in the United States carry watches. These, it should be borne in mind, are summer figures.

"This world is made up of little things," moralized Mr. Hickenlooper, as he dug his knife into the quivering heart of an underdone potato.

Many Miserable People drag themselves about with failing strength, feeling that they are steadily sinking into their graves when, by using Parker's Ginger Tonic, they would find a cure commencing with the first dose, and vitality and strength surely coming back to them.

Guiteau, London Vanity Fair says, would be "great and distinctly precious" to the London dailies who dish up crime for the masses, but he is too far off for sympathy.

Dr. C. W. Benson, of Baltimore, Md., prepares a skin cure that is the best thing for skin diseases ever known. It cures eczema, tetter, ring worm and all rough and scaly skin diseases in the shortest time.

Ex-President Hayes and his wife have just given a handsome watch and chain to Engineer John M. Unglamb, the man who bravely remained at his post on the engine of the train during the collision of the 5th of March last on the Baltimore and Potomac Railway.

THE TREATMENT OF EMIGRATION. It is reported that the agents of the different steamship lines have already booked emigrants from Europe to this country to the number of five hundred thousand.

There is not a doubt that the immigration during the ensuing year will be far in excess of any previous year. There is every reason why such should be the case.

The Sun. New York, 1882.

THE SUN for 1882 will make its fifteenth annual revolution under the present management, shining, as always, for all, big and little, mean and gracious, contented and unhappy, Republicans and Democrats, depressed and virtuous, intelligent and obtuse, the sun's light is for mankind and womanhood of every sort; but its genial warmth is for the good, while it punishes the wicked.

The Sun of 1868 was a newspaper of a new kind. It discarded the old forms, and in a multitude of the superfluous words and phrases of ancient journalism, it endeavored to report in a fresh, succinct, unobscured way all the news of the world, omitting no event of human interest, and commencing upon affairs with the fearlessness of absolute independence. The success of the experiment was the success of the Sun. It effected a permanent change in the style of newspapers, every important journal established in this country in a decade since has been modeled after the Sun. A new and original journal already existing has been modeled and bettered by the force of the Sun's example.

The Sun of 1882 will be the same outspoken truth-teller, and late with a newspaper. It is a liberal user of the Sun's name, which abundant popularity affords, we shall make it better than ever before.

We shall print all the news, putting in its readable shape, and measuring its importance, not by the traditional yardstick, but by its real interest to the people. It is from Printing House Square, not the far consideration with the Sun, when we say this happens worth reporting we get our materials, which it happens in Brooklyn or in Bokhara.

Imparting we have decided opinions; we are accustomed to express them in language that can be understood. We say what we think about men and events. That habit is the only one of the Sun's political course that we have never given up. This WEEKLY SUN gathers into eight pages the best matter of the day in daily issues. Agricultural Department of unequalled merit, full market reports, and a liberal proportion of literary, scientific, and domestic intelligence complete the Weekly Sun, and make it the best newspaper for the farmer, household or the news ever printed.

Who does not read and read the Sun? Sunday, one each month, or \$1.00 a year. Grounds: a later still, literature, with the best poet, the day, every every line worth reading, news, humor—master every line to fill a good sized book, and furnish you with an entertaining than any book, or list of.

For ideas of what a newspaper should be, please refer to the Sun.

For the daily Sun, a four-page sheet (twenty-eight columns), the price by mail is \$1.00 a month, or \$10.00 a year; or, including the Sun by paper, an eight-page sheet of fifty-six columns, the price is 65 cents per month, or \$7.50 a year, postage paid.

The Sunday edition of the Sun is also for sale separately at \$1.20 a year, postage paid. The price of the Weekly Sun, eight pages, fifty-six columns, is \$1 a year, postage paid. For clubs of ten send \$10 we will send an extra copy free. Address
