JOSH. T. JAMES, Editor & Prop'r

WEDNESDAY, JANUARY 18, 1882. stered at the Postoffice at Wilmington, N

The Baltimore Sun of the 17th inst. rejoices at the increasing export trade of Wilmington.

C., as Second-Class Matter.

Bostonians are in despair. A small black fly is intesting the bean crop, and several cases of poisoning have been the consequence. Boston without beans would be in despair.

A true bill for murder in the first de gree has been reported by the grand jury at New Haven. Conn., against Walter E. Malley, James Malley and Blanche Douglass for killing Jennie Cramer on the 5th of August, 1881.

Atlanta opened its first grain elevator on Friday last, and the first grain was ics' wages, one of the largest establishlifted in the presence of a large number of interested lookers-on. It has a capacity of 210,000 bushels, and will probably soon be followed by others. Atlanta is certainly awake to everything that will conduce to her business growth and prosperity.

Gov. Lowry, of Mississippi, in his recent inaugural message declared that the "president and managers of a successful factory ought to be more highly appreciated by the people of the South than any public functionary in the land." The New, Orleans Times pronounces Gov. Lowry's utterances "noble words, and fairly representative of the ideas that thrill the heart of the new South."

The Southern Railway Gazette, which has been looking into the matter, discovers that the South is better provided with water power than any other section of the country. This is peculiarly so of the Atlantic slope the four States of Virginia, North Carolina, South Carolina and Georgia having water power equivalent to 14,000,000 horse power, four times that of all the steam engines in the world.

It is estimated that the cost of the Guiteau trial will amount to \$30 061 85 The fees of Messrs. Porter and Davidge will not, it is said, exceed \$5,000 each ; for the jury, \$3,213; for the witnesses, including mileage, there has been paid \$8,078.85; of this sum \$5,189.95 was paid in behalf of the government and \$2,889 for the defendant, and of the lat. ter amount \$389.25 went to Guiteau's family and connections; for reporting and printing \$5,000, and for the seven deputy marshals used in the halls and chambers, \$1,302 will be necessary .-Miscellaneous expenses will foot up \$1," 600. The medical experts simply re ceived fees and mileage like other witnesses. It was found that extra compensation to them would be illegal.

GUITEAU.

Jadge Cox has very properly refused permission for Guiteau to make a speech to the jury, and that irrepressible assassin has given it to the associate press for publication. It appears in full in some of the New York dailies of the 16th instant, and is a formidable document, mainly a re-hash of what he has said in the court room and to reporters. We have not space for its publication, nor would we publish it if we had unlimited space. It is teeming with blasphemy from beginning to end, and we own to some surprise that any newspaper should publish it.

He has stated that if he could be permitted to make that speech to the jury he would surely be acquitted, but it is in reality no argument at all, and fails of the quickness of wit and perception which he has at all times manifested in the court room. A jury who have been compelled to listen to him so much and so long would become disgusted at once, and we feel assured that his chances would be jeopardized if he was permitted to deliver that speech to the jury.

FEMA E SUFFRAGE.

The women seem to be coming to the front with rapid steps. Gov. St. John, of Kansas, has appointed a lady-Mrs. Cora M Downs, of Wyandotte-as one of the Regents of the State University, which has a large number of female students, and several female professors among its faculty.

Massachusetts is also taking steps to ward female suffrage, which, according to the Chicago Tribune, means the right of females to coerce the males by law making. Gov. Long in his message declares his conviction of the rights of wo man suffrage, and suggests that if the State is now ready to incorporate these rights in a constitutional amendment then they ought at least to be tested at the municipal elections. Senator Hoar, of the same State, has also moved the addition of a standing committee on the | jy 2-daw nrmte

rights of women to the other Senate committees. The motion has been carried and the committee appointed.

MECHANICAL PROSPERITY.

The American Machinist publishes letters from fifty-five of the leading machinery establishments throughout the country, which indicate the present condition of business, the progress made in 1881, and the prospect for 1882. The letters are all cheerful. There is scarce ly an exception to the claim that manufacturers of machinery are everywhere in a fleurishing business, and the outlook for the coming year is considered promising. Most of the firms report orders for months in advance, compelling an increase of equipment. The machinetool builders are apprehensive that they will be unable to fill within a reasonable time the many requisitions already on file. "+ ngine-builders are pressed to deliver their motors, and steampump manufacturers are enlarging their facili ties to meet the increasing demand." Not the least gratifying feature of the situation is seen in the advancing of mechanments reporting an average increase during the past year of fifteen per cent. "l'aken altogether," says the machinist, "the outlook for the machinery business this year is about as good as could be

Persons who stand upon their Feet, whether men or women, are often troubled with serious pains and weaknesses in the back, loins and other parts of the body. It has been proven beyond a doubt, however, that Warner's Safe Kidney and Liver Cure is a certain preventive of these troubles.

THE MAILS.

The mails close and arrive at the City Post Office as follows:

The Sun. New York, 1882.

THE BUN for 1882 will make its fifteenth A annual revolution under the present mapagement, chining, as always, for all, big and happy, hegublican and Democrat, deprayed and virtuous, intelligent and obtuse. The sus's light is for mankind and woman ind of every sort; but its gerial warmth is for the good, while it pours but discomfort on the blistering backs of the persistently wieled "HE SUN of 1868 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluous words and phrases of ancient journalism. It undertook to report in a fresh, uccinct, unconventional way all the ne sof the world, omitting as event of human interest, and o mmenting apon sffairs with the fear carners of absolute in tependence. The success of the experiment was the successor the Sun. It effected a permanent change in the style of American ne spapers. Every important journal established in this country in the desen years past has been modelled fter the rus. every important journal already existing has been modified and bettered by the force of the

Bun's example.
THE SUN of 1882 will be the same cutspoken,

truth-telling, and into esting newspaper.

By a liberal use of the news which an ab ndant prosperity affords, we shall make it better than ever before.

We shall print all the news, rutting it in radable thape, and measuring its importance, not by the tra itional yardstick, but he its real interest the meaning its importance. by its real inter at t the people. I istance from Printing House Fquare is not the first consideration with the Sun. When ver anything happens worth reporting we get the particulars when r it happens in Brooklyn

Inpolitics we have decided opinions: at are accust med t express them in language that can be understood. We say weat we think about men and events. I hat habit is the only recret of t e run's political course. THE WEEKLY FUE gathers late eight pag s the best matter of the Lev n daily impes An egric itarsi Department of unequali dustit, full ma ket reports and a liberal proportion of litera y, scientific, and domestic legistrose complete the Weekly Bun, and make it the best ewspaper for the samura

household that was ever printed Who coes not know and read and like the cunday cun, each number of w io is a Gorconda of inter-sting literature with the best poetry of the day, prose every line worth reading, news, homor-matter enough to fill a good sized book, and infinitely more varied and entertaining than any book, big

If our idea of what a newspaper should be pleases you, send for the Hun. Pleases you, send for the Mun.
Our terms are as follows—
For the daily on, a four-page sheet of twenty-eight columns, the price by mill, p st-paid, is 15 cents a month, or \$6.50 a year; or, including the Fun ay paper, as eight-page sheet of fifty six columns, the price is 65 cents per month, or \$7.70 a year, post-

age paid.

The Sunday edition of the Sun is also furnished separately at \$1.20 a year, postage

The price of the Weekly Sun, eight page, fifty-six columns, is \$1 a year, postage paid. For clube of the sending \$10 we will send as extra copy free. Address I. W. ENGLA D, Publisher of the Eun, New York City.
