

THE DAILY REVIEW.

JOSH. T. JAMES, Editor & Proprietor. WILMINGTON, N. C.

WEDNESDAY, JANUARY 25, 1883.

Entered at the Postoffice at Wilmington, N. C., as Second-Class Matter.

There are now \$70,000,000 standard silver dollars in the Treasury, and \$62,000,000 in silver certificates in circulation, and there are those who would cease the coinage of silver and retire the silver certificates. Let this be done and the road to a financial panic would be short and quickly reached.

The "irresistible impulse" dodge fails to convince a New Jersey jury that the murderer should not pay the penalty of his crime. James B. Graves was tried upon the charge of murder at Newark, N. J., and although he was allowed to testify in his own behalf and claimed that he was impelled to the crime by an "irresistible impulse" the jury found him guilty of murder. That is the best way to get rid of "irresistible impulse," "transitory mania," "emotional insanity," and all the lame excuses, apologies and justifications for committing heinous crimes.

General Grant was undoubtedly created to be an orator, but from some cause has not been remarkably successful thus far. His last brilliant speech was delivered a few days ago in New York at the "California banquet."

Being called upon he rose and said: "I am sorry that on former occasions when I was invited to meet this society I was unable to be present. Even on this occasion I expected to have been in Washington, to assist the President in filling some post offices, and so on."

It is cheering to know that he continues yet a benefit to the government in assisting to make "postmasters and so on," and it is really to be deplored that the latter was for a season deprived of his invaluable assistance.

The editor of the Richmond Dispatch recently copied from a Philadelphia paper an article ridiculing the action of the Virginia Legislature with regard to small pox, whereupon James Frazier, speaking in the Virginia Assembly, said: "For long years it is well known, whenever the Dispatch wants to say anything particularly mean of those who happen to differ from the editor, it goes out of the way to copy articles, thus avoiding personal responsibility. To this the Dispatch said in so many words 'Jim Frazier is a liar.' When things had gotten to this interesting point warrants were simultaneously issued for the arrest of the two belligerents, but further trouble was prevented by mutual explanations and apologies."

THE SOUTHERN ROOM.

Southern cities make an exceptionally good showing for the new year. Richmond, a city of 63,000 population, has a property valuation for taxable purposes of \$40,000,000 in round numbers. Taxation for city purposes is at the rate of one and one-half of one per cent., and for State purposes about one per cent., producing an aggregate revenue of a million dollars. The debt of the city is \$4,686,208. There are in the city 675 manufacturers, embracing almost every kind known to the industries of the country. They employ 17,500 hands, have a working capital of \$11,000,000, and sold during the year \$32,800,000 of fabrics. This is an increase of \$8,000,000 over 1880. Iron and tobacco are the leading articles of manufacture. Columbus, Ga., with a population of only 7,400, has increased its assessment by \$471,000, and its business by \$695,000.

Atlanta, Ga., with a population of 37,000, reports revenues from all sources during 1881 amounted to \$480,510.97. The city debt is \$2,196,200, and the expenditure on account of interest and sinking fund \$193,573, leaving a balance of \$286,945.97 for ordinary expenditure. The city has no floating debt, and cannot, as the State law stands, increase its bonded debt.

Augusta, Ga., with a population of 23,000, has \$4,000,000 invested in cotton manufacturing alone. These run 115,000 spindles. There are six mills, and all declared excellent dividends the past year. The Augusta factory declared a dividend of 10 per cent. last year, and added 10 per cent. more to the surplus fund. Graniteville ditto. The Langley paid 8 per cent. dividend for six months the year, and is expected to declare as much for the last six months. The Enterprise paid 10 per cent. dividend in cash in 1881, and added 50 per cent. to its capital stock. The Sibley and John King are just starting.

From everywhere in the South similar circumstances of the increase of manufacturing and their prosperity. But it is in agriculture and cotton growing that the greatest advancement will be made in this section. There is less than a tenth of the superficial area of the cotton

States yet in cultivation. The agricultural possibilities of that quarter of the Union can but be conjectured from what has yet been accomplished.

THE MOVEMENT NOT MOVING.

The "independent movement" in the South has not at present a very promising outlook. In Georgia, where there has been the most talk and fuss to give it a boom, it seems to be dropping into premature decay. Its present status there prompts a writer in the New York Times to bemoan its condition, and claim that, "the independent movement is not independent enough," and he further says that he "would rather ten times over be a Bourbon than be a Radical." This was after he had attended the recent conference at Atlanta, where it was tried to give shape, size and substance to the "new departure."

The material with which to Mahonize Georgia or any other Southern State, is very limited, and there is no reason why it should be otherwise. The people, under Democratic rule, are prospering as they never did before; peace reigns within our borders; our unlimited resources are being rapidly and profitably developed; taxes are being reduced; our indebtedness, both State and individual, is being liquidated; population and capital are seeking investments among us, and there is no earthly reason why we should risk a certainty for an uncertainty by a change in our political complexions.

Persons who stand upon their feet, whether men or women, are often troubled with serious pains and weaknesses in the back, loins and other parts of the body. It has been proven beyond a doubt, however, that Warner's Safe Kidney and Liver Cure is a certain preventive of these troubles.

MOONSHINE.

Gracious! Oscar Wilde toes in! Boston Post. Women are not cruel by nature. We never heard of one thoughtless enough to step on a mouse.—Illinois State Register.

"Lie!" shouted old Mowers as he smashed his fist down on the table. "Lie! Why he can lie like a show bill!"—Fort Plain Register.

"No, I shall leave my wife nothing," said old Gribb, "she's always had her will, and now I'll have mine."—Louisville Courier-Journal.

"A St. Louis man traded his wife for a bake shop." He has got something that can cook, now.—Benedict of the Jersey City Journal.

Guiteau has actually spoken of "God and I," giving the Deity preference over himself. He is evidently weakening.—New Haven Register.

Gen. Hawley says: "The country will not be safe until every American is a politician." All right, General; sit down. It's safe.—Burlington Hawkeye.

Counsel for prisoner—"Did you see the prisoner at the bar knock down the deceased?" Pat—"No, yir Honor; he was alive when I see him knocked down."—Ex.

"How's business with you, Brown?" asked his friend Pingrey. "Not very lively," said Brown. "But you have made something, I suppose?" "Oh, yes; I made an assignment."—Boston Transcript.

Coffee drinkers should read the advertisement in another column headed Good Coffee.

GOOD COFFEE.

Everybody wants it, but very few get it, because most people do not know how to select coffee, or it is spoiled in the roasting or making. To obviate these difficulties has been our study. Thurber's package Coffees are selected by an expert who understands the art of blending various flavors. They are roasted in the most perfect manner (it is impossible to roast well in small quantities), then put in pound packages (in the bag, not ground) bearing our signature as a guarantee of genuineness, and each package contains the Thurber recipe for making good Coffee. We pack two kinds, Thurber's "No. 34," strong and pungent, Thurber's "No. 41," mild and rich. One or the other will suit every taste. They have the three great points, good quality, honest quantity, reasonable price. Ask your Grocer for Thurber's roasted Coffee in pound packages, "No. 34" or "No. 41." Do not be put off with any other kind—your own palate will tell you what is best.

Where persons desire it, we also furnish our "Ideal" Coffee pot, the simplest, best and cheapest Coffee-pot in existence. Grocers who sell our Coffee keep them Ask for descriptive circular.

Respectfully, &c. H. K. & F. B. THURBER & CO., Importers, Wholesale Grocers and Coffee Roasters, New York.

P. S.—As the largest dealers in food product in the world, we consider it our interest to manufacture only pure and wholesome goods and pack them in a tidy and satisfactory manner. All goods bearing our name are guaranteed to be of superior quality, pure and wholesome, and dealers are authorized to refund the purchase price in any case where customers have cause for dissatisfaction. It is therefore to the interest of both dealers and consumers to use Thurber's brands. dec 13-law4w-tu-w4w-tonrm
