Mrs. Joe Person's Statement in Regard to Cancer.

I receive numerous letters asking if my remedy will cure Cancer. I can only cite the following case, which is the only one I have ever cured, the only one upon which I have had an opportunity of testing it in its incipient stage. When we were married, in 1867, my husband had a small wart-like growth on his left cheek bone, which he told me then he thought would eventually terminate in cancer. We paid no attention to it, though we could see with advancing years that it was gradually increasing in size. Then it commenced to form a scab, something similar to a piece of dry bran, which would shed every few days, another form, and so it continued until March, 1872, when it broke out into a regular run, setting sore, which continued to spread with the most alarming rapidity throughout that spring and summer. The sore had eaten in considerably, was about the size of a silver quarter, had the appearance of honey-comb, with the cells distinctly marked, but considerably had a smarting, irritating sensation as if needles were pricking the surface, with occasional sharp darting pains, which extended to the eye and weakened it. Everybody who saw it considered it a case of well developed cancer. The physicians advised him to have it cut out, whereas I advised treatment at a cancer infirmary. At last one of the physicians suggested that I try my Remedy, and said he believed it would cure it. The thought of using it had never occurred to me, as I then only knew it to be good for Scrofula. I commenced its use on the sore the 1st day of October and discontinued it the 7th November, as it was PERFECTLY CURED. It had then been a running sore for six months. It broke out again for four consecutive years, in the spring each time more severely, and requiring much longer to cure. I broke out last in 1878, when it required four months' treatment to effect a cure, since which time it has been and is now perfectly well. I have tried it in many advanced cases—cases beyond the possibility of hope of cure, always with benefit—sometimes by delaying its progress, sometimes by giving perfect freedom from all pain. I am, very truly,

Keep an eye on your neighbor; he might make a blunder and wouldn't see it.

Many a man owes his success in life to the biases of his enemies, instead of the plaudits of his friends.

The steamship *Gulf Stream*, Ingram, left her wharf in this city, for New York, at 11 o'clock, a. m., to-day.

The abhorrent sight of a drunken female denizen of Paddy's Hollow was a disgrace to our streets this afternoon.

**A Great Obligation.**  
"I am indebted for my life," says Judge F. M. Brooks, of Columbus, Ga. "to Warner's Safe Kidney and Liver Cure."

The thermometer in our office, at 3 o'clock this afternoon, indicated 76 degrees, (Summer heat), with the doors all open.

There have been about 1,200 barrels of tar received here this week. As a consequence the article has fallen off 40 cents in the last three days.

There are now 63 members of the Wilmington Telephone Exchange, besides the fire-alarm stations, and the service is better now than it ever was before.

It comes from all lands and all classes of people. To consider the amount of solid testimony in favor of that Ruler of Rheumatic Remedies, St. Jacobs Oil, is almost beyond credulity.

Some say it will be Judge Buxton who is to wear Judge Brooks' judicial shoes; others say it will be Judge Seymour, while many in this vicinity think it will be Judge Russell.

It is easy in the world to live after the world's opinion; it is easy in solitude to live after your own, but the great man is he who in the midst of the crowd keeps with perfect sweetness the independence of solitude.

## City Court

A white tramp, who gave his name as William Henderson, was brought before the Mayor this morning, charged with being drunk and down. The charge was sustained, but as he promised to leave the city forthwith, he was discharged. There being no further business, the court adjourned.

**A PREVENTIVE.**  
It is said that a pinch of powdered sulphur put into each stocking when first put on is to a very considerable extent absorbed by the system and is a most effective preventive against the contraction of very nearly all contagious diseases. Sulphur purified by precipitation is the best. This is a very harmless preventive and can possibly do no harm and is also very cheap.

So utterly careless are many people as to the worth of time, that they will waste months of it in repining at their ill fortune of always being sick, when they could take Hamburg Drops and be promptly cured of Dyspepsia, Liver Disease, Blood Disorders, &c.

## Of Interest to Farmers.

In connection with the annual meeting of the American Agricultural Association, a National Agricultural Convention will be held at the Grand Central Hotel, in New York, commencing on Wednesday, February 1st., and continuing three days. It is intended that the Convention shall be made one of deep interest to the agriculturists throughout the entire country, and the management are making arrangements with the different railroads leading to the city for a reduction in rates of fare, so that people from a distance may not be deterred by the expense from attending.

## Fresh, the American.

In speaking of the above named play, which is to be presented at the Opera House in this city on Monday evening next, with John T. Raymond in the title role, the *Augusta (Ga.) Chronicle and Constitutionalist* says: Raymond is nothing unless he is funny and this play gives full scope to his peculiar talents. In this play, as in "Col. Sellers," Raymond brims over with humor and makes the audience forget the imperfections of the play itself. He is full of fun at all times, no matter how dangerous a situation he may be in, and his appearance on the stage is always the signal for laugh. We look upon this as decidedly the best of Mr. Raymond's characters. He is the play itself and he gives full sway to his peculiar talents. The interest of the audience is sustained throughout. In fact, at no time is the attention suffered to flag.

## A Wilmington Artist.

Master Robert Hewlett, of this city has developed quite a taste and considerable skill as a wood engraver and artist. He has never had any special teaching, which he only needs, to make him a master of the art. When the news of Guiteau's conviction reached him, he at once took a piece of common white pine and with no other tools than his pocket knife whittled out a cut of a scaffold with Guiteau suspended therefrom, a coffin against which was leaning a spade, while His Satanic Majesty stood near by with the index finger of one hand pointed to the suspended culprit while that of the other hand pointed to the coffin. An impression was taken from the picture and although it presents a rough and unfinished appearance, it displays an originality and genius which we hope to see cultivated.

## Some Combinations.

There are several peculiarities and coincidences in the year 1882. If you add the first two figures together the sum is 9, and if you add the last two the sum will be 10. Then, if you add the two sums together, the result will give us 19. Now, if you divide the third figure by the fourth, you will have 4. The fourth figure in the year is 2, and two times 4 is 8. See? Then, if you add together the first and last figures, you have 3. And three times 2 is 6. Now, then, 6 times 8 is 48, and 5 times 6 is 30. So, if you subtract the first figure of the year from the second, you will have 7, but if you subtract the third figure from the fourth you will have a lovely time explaining how to do it. But 7 in 11 you can't, and twice 1 is 2, and once 2 is 2 too. These interesting and instructive combinations of the figures of this year may be carried out, by an ingenious person, to an almost indefinite extent.
