No City Court to-day.

More rain last night and this morning.

Next Tuesday will be Valentine's Day.

Capt. T. L. Emry, of Weldon, was in the city yesterday.

The receipts of cotton at this port to-day foot up 121 bales.

The weather is decidedly unseasonable and a cold spell would be welcome.

About the greediest thing known is a fowl eating corn. It takes a peck every time.

Repentance is not so much remorse for what we have done as the fear of consequences.

If you have a doubt, try it. A girl never looks so killing as when you tread on her dress.

There is no special style of engraving engagement rings. A spider's web, with a fly in it, is a very pretty device.

The Hop at Germania Hall last evening was largely attended, and was thoroughly enjoyed by the young folks who were present.

If anything will impress the human mind with awe, it is the expression of the man's face who has just been aroused from snoring in church.

Two men, one woman and two children, all foreigners, applied at the city guard house last night for food and lodgings, which were furnished them.

We were pleased to receive a call this morning from Mr. E. A. Oldham, of this city, but recently of the *Newbern News and Nutshell*, who has resigned his position on the staff of that paper and has returned to Wilmington.

We have personal knowledge of great benefits derived from the use of St. Jacobs Oil. When we get a supply of Oil, we don't pretend to put the bottles in our medicine case; we merely open the boxes, have them set in a convenient place, sell out of the box and open another. It seems as though we retailed a dozen a day. PRICE & HENRY, Druggists, Burlington, Iowa.

Mr. Jno. F. Henry, of Jno. F. Henry & Co., of New York, accompanied by his wife, was at the Purcell House yesterday. A few years ago Mr. Henry was at the head of the firm of John F. Henry, Curran & Co., probably at that time the largest drug house in the United States.

Sheriff Manning, who has been to Rumford, Me., to attend the funeral of his wife's father, has returned as far as Washington, D. C., on his way home. He will be detained at the Capital a few days, but it is probable that he will get here by Saturday night or Sunday morning.

The Commercial Hotel. Mr. M. Schloss, who has for some time past been engaged in renovating and furnishing the Commercial Hotel building, opened the house this morning. Mr. Schloss is an experienced hotelier, having been engaged in the business in other cities for many years past, and under his management the house will be likely to attain a high reputation. Mr. Schloss is assisted by his son, and in a few days everything will be in trim and in excellent working order.

Rescued from Death. William J. Coughlin of Somerville, Mass., says: In the fall of 1876 I was taken with bleeding of the lungs followed by a severe cough. I lost my appetite and flesh, and I was confined to my bed. In 1877 I was admitted to the Hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I gave up hope, but a friend told me of Dr. William Hall's Balsam for the Lungs. I got a bottle, when to my surprise, I commenced to feel better, and to-day I feel better than for three years past.

"I write this hoping every one afflicted with Diseased Lungs will take William Hall's Balsam, and convinced that Consumption can be cured. I can positively say it has done more good than all the other medicines I have taken since my sickness."

### Unmailable

Unmailable matter, addressed as follows, remains in the Postoffice in this city: Rev. J. S. Black, Burgaw, N. C.; Jno. P. C. Morris, Marlboro Co., Bennettsville, S. C.

### The Double Marriage.

Miss Kate Claxton makes her first appearance in this city at the Opera House to-morrow night in the play of "The Double Marriage." If the fame which has preceded her is justly her due, (and we see no reason to doubt it, as the critics of all the larger cities of the North have but one opinion of her,) she is a most accomplished actress. Her support during this tour is said to be very able, and our theatre goers may expect a rare treat.

### Bank of New Hanover.

The annual meeting of the stockholders of the Bank of New Hanover was held in their Banking House in this city to-day at 12 o'clock.

Capt. John F. Divine was called to the chair, and Mr. W. B. McKoy was requested to act as secretary.

The committee appointed to ascertain the amount of stock represented reported 6,191 shares represented in person and by proxy.

An election for Directors for the ensuing year resulted in the choice of the old Board, composed of the following gentlemen, viz: W. I. Gore, G. W. Williams, Donald McRae, H. Vollers, R. R. Bridgers, J. W. Atkinson, C. M. Stedman, Isaac Bates, Jas. A. Leak, F. Rheinstein, E. B. Borden.

Subsequently, at a meeting of the Board of Directors, Major Charles M. Stedman was re-elected President, Mr. Isaac Bates, Vice President, Mr. S. D. Wallace, Cashier, Mr. W. L. Smith, Jr., Teller, and Mr. B. G. Empie, Clerk.

### Plucky.

Considerable of a sensation was created on Front street yesterday afternoon by the runaway of a horse attached to a light wagon and driven by Geo. W. Price, Jr., a well-known colored citizen of this place. The horse became unmanageable as he was being driven down Market street and as he turned into South Front street he broke into a run. When near Dock street one of the shafts broke but the driver held manfully to the reins. When near Orange street the wheels gave away and Price was thrown to the ground. Still he held manfully to the reins and brought the horse to a stop, escaping fortunately with but a few bruises.

A western paper says: Nothing will cure some sick men more quickly than an office, properly applied. This "cure" may be very successful in many cases, but we would say: If a man suffers from a cough or cold, give him Dr. Bull's Cough Syrup.

### "The Decline of Wilmington."

We are reminded of one fact which we neglected to state in our editorial article in Tuesday's issue of the REVIEW, relative to the alleged "decline of Wilmington," which will be found of interest in connection with this subject. As was stated by us in that article the increase of cotton from last September 1st to January 31st, of this year, was 15,239 bales, fully 15 per cent over last year. In addition to this there would have been a further increase of about 20,000 bales but for the fact that freight room could not be had here. We know of one firm alone who had expressed a decided preference for this port and who did ship largely here, who would have given Wilmington at least 15,000 bales more could the freight have been obtained. This would have swelled our increase to about 35 per cent over last year. How does this compare with other ports, Savannah, for instance, where the decrease was one-tenth, or about 70,000 bales? There was a plethora of shipping at Savannah and a dearth of it here, and the rates at that port were in consequence lower than they were here. Yet, in the face of this fact our increase was 15 per cent. We know of one shipping firm alone, Messrs. Heide & Co., who ordered several vessels from Savannah to this port to receive cargoes for foreign ports. These facts are well known to the mercantile community here and are pregnant with testimony on the subject of the "decline of Wilmington." And there are others to which we may advert in a day or two.

### DR. HENION'S LECTURE.

### Graphic Description of Bright's Disease

Dr. J. B. Henion, of Rochester, N. Y., gave a very interesting lecture at the Opera House last evening, on the cause and cure of Bright's Disease of the Kidneys. The doctor said anything that had a tendency to deplete the system would cause it or an excessive use of over-eating would produce it; but the most prolific source of Bright's Disease was from blood poisoning, especially the poisoning of the blood with bile; there was rarely ever a case of Bright's Disease of the Kidneys without a morbid condition of the liver. He said that he had been brought down to the verge of the grave with the disease, and that he consulted the most eminent physicians in the country and they all said he had a liver, nervous or dyspepsia trouble and that he doctored himself for liver and stomach trouble and malaria for two years before he discovered that he had Bright's Disease. That he had been reduced in flesh from 207 to 124 pounds, and had given up all hopes of recovering, when last June he was induced to take Warner's "Safe Kidney and Liver Cure" and that it had saved his life and cured him; he gained twenty-six pounds in three months on the use of this remedy; that he was here as a living witness of the cure of Bright's Disease; he gave the lecture in hopes that he might induce others who had given up all hopes to take "Warner's Safe Kidney and Liver Cure" and be saved. He knew from experience (not only in his own case but in hundreds of others to whom he had prescribed it since his recovery) that it would positively and radically cure Bright's Disease, and all other diseases of the liver and kidneys. He made an appeal to those who were suffering from these diseases and to all females in delicate health, not to be deceived by doctors but to take "Warner's Safe Kidney and Liver Cure." As a blood-purifier this remedy stands without a rival; it produces a healthy condition of the liver, which makes all the blood in the body, and enables it to make pure, healthy blood; and if ladies who have been suffering for years from female weakness would discharge their physician and faithfully use "Warner's Safe Kidney and Liver Cure," he could promise them a speedy and permanent cure, and while some persons might get well by taking two or three bottles, others might require three times that number; and he could assure all those who were suffering from Bright's Disease, or Kidney and Liver disease of any kind, also irritation of the Bladder, if they would persevere in the use of "Warner's Safe Kidney and Liver Cure," their return to health and happiness would be permanent.

### A Good Joke.

That is a good goak they tell on Capt. F. M. James, the efficient Health Officer. Some one told him that there was a bad odor perceptible about the Postoffice and that Col. Brink wanted him to go there and see about it. Capt. James hurried to the spot and after a long and fruitless search, while confessing that something did smell bad yet declared that he could find nothing to account for it. The only explanation that could be furnished him was that there were so many dead letters on the premises.

It is the Height of Folly to wait until you are in bed with disease you may not get over for months, when you can be cured during the early symptoms by Parker's Ginger Tonic. We have known the sickliest families made the healthiest by a timely use of this pure medicine. —Observer.
