 Steamboatmen inform us that when they left Fayetteville yesterday the river was rapidly falling, but there is yet an abundance of water for boating or rafting purposes.

Runaway.
 Some little excitement was occasioned on North Water street this afternoon by the dashing up the street of a horse with the shafts of a dray attached to the harness and dangling at his heels. He did not run far, however, before he was caught. Two draymen had just lifted a heavy bale of sheeting on a dray at the foot of Chestnut street when the shafts popped and the horse started off on the run.

Body Recovered.
 The body of a colored woman by the name of Betty Hines, an oyster gatherer, who was drowned on Masonboro Sound on Monday last by the capsizing of a boat in which she was seated, was recovered yesterday. The face and body were badly mutilated by the fish. She was found by Caesar Baker and Aleck Gallo-way, two colored men who were grappling for the body, and in the spot on which she went down. An inquest will probably not be held.

Criminal Court

The following cases have been disposed of in this Court since our yesterday's report:
 State vs. William Sweat, charged with larceny. Verdict not guilty.
 State vs. Alice Fairfield, charged with larceny. Verdict guilty.
 One case of selling liquor to minors was tried this forenoon and found guilty.

Mr. R. B. Askew, late Assistant Postmaster at Baltimore, said some time ago: "Having had occasion to try Dr Bull's Cough Syrup, I unhesitatingly pronounce it the best remedy I have ever used. A small bottle relieved me of a severe cold."

City Court.
 Major Dixon, a colored boy, was brought before the Mayor this morning, charged with throwing a stone against the door of one of our citizens last night. The charge was sustained, and the boy was ordered to pay a fine of \$5, or be confined in the city prison for 10 days. Not having the funds, he went below.
 Emily Bradley, colored, for disorderly conduct, was ordered to pay a fine of \$5 or go below for 10 days. She went below.

A Fine Showing.
 Master Sol. Weill, a son of Mr. A. Weill, of this city, is now a student at the Hebrew Union College and High School, at Cincinnati. He will graduate from the High School in June and continue his studies at a University.
 Sol writes to his father, under date of February 12th, giving the following per centages as the result of his examination: Bookkeeping, 100; Latin, 99; Greek, 99; history, 98; chemistry, 95; making an average of 98. Could any fond parents ask for more?

The River and Bar Works.
 We learn from Mr. Bacon, the Engineer in charge of the works for improvement of the Cape Fear river and bar, that the work of dredging the river is steadily progressing. There are two steam dredges at work on what is known as the Horse Shoe, this side of Smithville, deepening and cleaning out and straightening the channel; and this work is to be continued all of the way to Wilmington, 16 feet at low water being the uniform depth to be obtained. After this amount of water is secured there will probably be more dredging done for a still further increase. The work is being done now by contract. Col. Craighill's estimate for the ensuing year for this work is \$300,000, and this is the sum that Congress will be asked to appropriate for the Cape Fear. The improvement has been so great and the increase of water so decided that there should be no difficulty in securing enough money to complete this very important work.

The rise of tide is 3 feet at Wilmington, 3 1/2 feet at Big Island, 4 feet at the Horse Shoe and 4 1/2 feet on the bar.
 Three days use of St. Jacobs Oil was sufficient to cure Mrs. Joseph Hinkle of Hanover, Pa., of rheumatism, after being unable for a long time to attend to her work.

Sufferings at Sea.
 Ship *Jessie Burrill*, Churchill, which arrived at New York, Feb. 14th, reports that on Feb. 9th, in lat. 36.30, lon. 70.30, she fell in with the brig *Jennie Morton*, Granger, hence for Baltimore, lumber loaded, water-logged and dismasted; took off the crew, five in number, and carried them to New York.
 The *Jennie Morton* left here Feb. 2nd and had pleasant weather until the 4th, when, according to the report of the survivors, she experienced a fearful gale during which one of the crew had his arm broken and was subsequently washed overboard and drowned. The vessel was thrown on her beam ends and the crew were obliged to lash themselves to the chain plates. They suffered untold hardships and exposure. Two cans of condensed milk was all the sustenance the five remaining men had from Monday, the 6th inst., until Thursday, the 9th inst., at which time they were rescued as above stated.
 The *Jennie Morton* was cleared from this port for New York by Messrs Geo. Harris & Co. with a cargo of 158,856 feet lumber, shipped by Messrs Colville & Co.

HER CASE WAS AN INTERESTING STUDY.

LITTLETON, N. C., Nov. 10, 1881.
 MRS. JOE PERSON.
 Dear Madam:—I commenced last January to use your Bitters and Wash on our little daughter Annie, aged twelve years, for Scrofula, with a tendency to White Swelling, the physician said. At the time I commenced using your Remedy she was very much reduced in flesh, complexion sallow, appetite poor, limbs very much swollen, bones enlarged, with two frightful sores on her left leg near the ankle. After using the Remedy a week or two I could see a change, as I then thought, for the worse. The sores discharged copiously a yellow corruption, sometimes running in a stream to the floor in spite of the linens. But feeling encouraged by your letters I persevered and after using the Remedy a while longer her strength was greatly improved, her appetite good and complexion much improved. These symptoms encouraged me, but the flow of corruption continued for several months, and not until her general health was greatly improved did the sores begin to heal. First the swelling began to decrease below the knee, and continued gradually downward, and when it nearly reached the sores they began to heal. In the meantime the leg from the ankle half way to the knee became covered with running pimples, in fact the leg had become almost a solid sore. After this the sores healed rapidly. The worst one, on the instep, healed entirely, the other to the size of a five cent piece, and it has remained in that condition ever since, which has been several months ago. For a month or more it has not discharged at all, and looks sometimes now as if it was entirely well. As a Blood Purifier and Tonic I think it superior to anything I ever tried. If you could have seen my daughter when she commenced using your Remedy, and now, you would hardly believe her to be the same child. Last January nearly every one thought she would die. Then she was a living skeleton, now she is fat and rosy. Her case was an interesting study from the time she commenced your Remedy. I can most heartily and cheerfully recommend it to be what you claim for it. Wishing you every success with your undertaking, and with many thanks for the benefits we have received from your medicine, I am, very respectfully,
 MRS. R. J. ALLEN.

The Remedy is for sale in Wilmington by **DR. W. H. GREEN.** feb 17

Rescued from Death.
 William J. Coughlin of Somerville Mass., says: In the fall of 1876 I was taken with bleeding of the lungs followed by a severe cough. I lost my appetite and flesh, and I was confined to my bed. In 1877 I was admitted to the Hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I gave up hope, but a friend told me of Dr. William Hall's Balsam for the Lungs I got a bottle, when to my surprise, I commenced to feel better, and to-day I feel better than for three years past.
 "I write this hoping every one afflicted with Disposed Lungs will take William Hall's Balsam, and convinced that Consumption can be cured. I can positively say it has done more good than all the other medicines I have taken since my sickness."
