It is not difficult to be satisfied with your lot, especially if it happens to be a corner lot on the principal street. As a general thing, however, it is not their lot, but their little, that troubles people.

The box sheet for the sale of tickets to the performance of the Mascotte on Wednesday evening was opened this morning at Dyer's and judging by the rush then there will be a large house on the occasion.

The steamship Santo Domingo, which was advertised to leave New York for this port on Saturday last has been sent to Charleston and the Benefactor, which was to have left New York last Wednesday, was held until Saturday.

We understand that the authorities of the Carolina Central R. R. will commence at an early day the erection of a handsome new depot building in Charlotte, on the site of the wooden structure which was burned last Fall. The new building will be of brick.

It is very well to be aesthetic, but one may possibly overdo the matter. For instance, when the sweetly perfumed minister said to his people that Jonah passed three days and three nights in the whale's society, he was too utterly delicious for anything.

Ribbons and Flowers and Flowers and Ribbons. Tremendous stock at HAHN'S.

The difference between natural and experimental philosophy is very marked. It is perfectly natural philosophy to ask a man to lend you a small amount of money on the promise to return it the next day, and it is an illustration of experimental philosophy when he refuses to do it.

Rev. J. B. Taylor, pastor of the First Baptist Church in this city, commenced a series of meetings yesterday which will probably continue throughout the week and perhaps longer. He is assisted in his labors by Rev. C. F. Baldwin, who recently preached with great success at a series of meetings held at Durham, in this State. There was a large congregation assembled last night, and we learn that the services were of unusual interest.

A Colored Pound Party. We learn that quite a large number of colored people, of both sexes, members of the Independent Order of Good Samaritans and Daughters of Samaria, made a "pound party" to the Poor House yesterday for the benefit of those of their race and color who are at that institution. We did not learn the precise number who went, nor the exact amount of their donations, but understand that each visitor carried at least a pound of something for the use and benefit of their unfortunate race whose poverty makes them a county charge.

Dangers of Dusting. Do not dust, but wipe! Who would believe it; the duster that peaceful emblem of domestic toil, may, under certain circumstances, become more dangerous to handle than a six-shooter?

We are in dead earnest; an eminent scientist declares it to be a fact. Do you know just what you are doing when you brush away dust? You disseminate in the air, and consequently introduce into your own interior, into your tissues and respiratory organs, all sorts of eggs, spores, epidemic germs and murderous vibrations which dust contains.

One movement with a feather duster may be enough to poison both you and your neighbors—to inoculate you all with typhus, varioloid, or cholera—strange as it may appear. Instead of a feather duster take a cloth; wipe away the dust instead of stirring it up.

In short, wipe!—never dust!

A Public Spirit.

Mr. S. G. Hall has caused to be placed in his garden, on Mulberry, between Seventh and McRae streets, a lamp-post whereon he has placed a lamp which is lighted every night, and is a real accommodation and convenience to the people living in that locality. It lights up the streets and sidewalks on that thoroughfare completely and is worth to the people much more than the lamp on the corner of the street.

Every one has a will and a mind to think for himself, yet many will go about hacking and coughing until a friend recommends Dr. Ball's Cough Syrup for that cough.

Items from Shallotte.

A correspondent at Shallotte writes to tell us of the sad and tragic death of a little girl some seven years old, the daughter of Mr. L. D. Hewett. On the 7th inst. the little one was playing alone in the house, the mother being just outside of the house, when hearing the screams of her child, she rushed into the room and beheld the little one completely enveloped in flames. The child lingered until the 12th inst., when it died.

He also tells us of the loss of a fine mule, valued at \$145, the property of Mr. J. W. King. The team ran away and the leg of one of mules was broken. The same team had run away the day previous with Mr. King, throwing him out and injuring him slightly.

Patience.

Chas. E. Ford's Comic Opera Company was the first to play "Patience" in this country. They produced it at Uhrig's Cave Theatre, St. Louis, three months in advance of its presentation at the Standard Theatre, New York. Since that time, says an exchange, they have played it with great success throughout the Eastern and Southern States. An instance of their popularity is shown in the fact that they have played five different engagements in Harrisburg, Pa., this season, with crowded houses every time. The company played two engagements in Atlanta, Georgia this season, one of three nights and the other of four nights, and each time they achieved a great success. Miss Marie Buckle, the prima donna, possesses a sweet and well trained voice. Mr. Fitzgerald, the tenor, is a good actor as well as singer, and Mr. George Denham is a clever comedian. The chorus is large and well trained. They play "The Mascotte," Wednesday evening. Seats are selling fast at Dyer's.

Lippincott's Magazine.

Lippincott's for April opens with a sprightly description of a Normandy market place in spring, by Margaret Bertha Wright, with illustrations thoroughly artistic and highly finished, one of them being from a painting by Hennessy. Illustrations of a different kind, but equally good, accompany an article on "Four-Footed Prize Fighters," "Our Substitute for a Navy," by Charles F. Johnson, Jr., of the U. S. Geological Survey, is the title of a paper which, after showing that our chief reliance for defence in case of war must be the torpedo system, gives a full and clear account of the different kinds of torpedoes invented both here and abroad, and their comparative efficiency. Charles Burr Todd contributes an interesting paper on the renowned pirate Captain Kidd, whose real history will be new to most people. "In a Florida Cracker's Cabin," "New Year's with the Ojibways," and "Among the Gweldigion" are sketches of local life and manners such as have always been a characteristic and attractive feature of Lippincott's. A long instalment, with fine illustrations, of "Stephen Guthrie" brings the story to a critical point. "A Bohemian," is a story of New York life, and "The Assistant Editor" apparently the record of an actual and singular experience. The poetry of the number is by John B. Tabb, Mary Ainge De Vere, and George Newell Lovejoy, and the editorial departments contain many short papers and reviews which will repay perusal.

Not Yet Interred.

The body of the man who was drowned off the steamer D. Murchison, about two weeks ago, report of which appeared in the Review at the time, was found some days since not far from the place where he was lost, but has not yet received burial. It is on the Brunswick shore and we should think it incumbent on the authorities of that county to have it interred at once.

Marine Disaster.

The German barque August, Capt. Loennies, which cleared from this port on the 9th inst., for Liverpool, with a cargo consisting of 1,592 bales of cotton, shipped by Messrs. D. R. Murchison & Co., was struck by lightning, during a heavy shower, on the 16th inst., which set the cargo on fire and she was obliged to return to this port. At the time of the disaster she was about 140 miles from Smithville, but we were unable to learn her exact latitude and longitude, which is, however, unimportant. She reached this city to-day and made fast to the wharf at the foot of Orange street, where she now lies.

The Fire Department was notified, although no general alarm was given, and in a few moments two streams of water from the hydrants on Front street and a stream from the steam tug Blanche, which lay alongside, were pouring into the hold of the August. The lightning, we learn, struck on the mizen topmast head and then ran down the mizen stay to the foot of the mainmast, where it went through the deck and into the cargo. The purpose now is to so drench out the cargo as to guard against any possible danger and then break cargo and land it on the wharf.

The August was first taken in tow by the steamship San Antonio, bound, we believe, from New York to Havana, and was towed by her to within about thirty miles of Smithville, when she was taken in tow by the steam tug Blanche, which towed her into the river and up to the city.

A Board of Survey, consisting of Messrs. George Harris and B. G. Bates, Port Wardens, and Capt. J. F. Gilbert, Surveyor for the Record, held a meeting this afternoon and decided relative to the cargo as we have stated above. The loss on the cargo is fully covered by insurance in New York. We did not learn whether there was any insurance on the vessel or not.

Pleasant enough for a day in May.

The receipts of cotton at this port to-day foot up 317 bales.

The rage for dark gloomy parlors is overdoing itself and a reaction will soon follow.

TRIBUTE OF RESPECT.

We, the undersigned committee, appointed at a meeting of the Wilmington Steam Fire Engines Company No. 1, to draft resolutions, hereby submit the following:

Resolved, That in view of the loss we have sustained by the decease of our friend and comrade, D. R. MURCHISON, and of the still heavier loss sustained by those who are nearest and dearest to him; therefore, be it

Resolved, That it is but a just tribute to the memory of the departed to say that in regretting his removal from our midst we mourn for one who was in every way worthy of our respect and regard.

Resolved, That we sincerely condole with the family of the deceased on the dispensation with which it has pleased the Divine Providence to afflict them; and commend them for consolation to Him who orders all things for the best and whose chastisements are meant to mercy.

Resolved, That this heartfelt testimonial of our sympathy and sorrow be forwarded to the family of our departed friend and comrade, and also that the usual badge of mourning be worn for the space of ten days, and that a blank page be left in the record book of the company in memory of the deceased, and a copy of these resolutions be sent to the city papers for publication.

W. C. VONGLAHN, H. R. LATIMER, M. O. SMITH, Committee.

TRIBUTE OF RESPECT.

At the meeting of the Church Council of St. Paul's Evan. Lutheran Church, the following set of resolutions, relative to the life and demise of Mr. JOHN W. STRAUSS, were adopted by a rising vote, the members of the Council and the Pastor standing in silence:

Resolved, That in the death of Mr. Strauss his family, the church and society have sustained a loss that cannot be easily repaired. Resolved, That we tender our heartfelt sympathies to the family of the deceased and commend them to the keeping of Him who is a father to the fatherless and the widow's friend.

Resolved, That a blank page upon our minutes be dedicated to the memory of our deceased Brother, upon which his birth, death, &c., shall be inserted.

Resolved, That a copy of these resolutions be sent by the Secretary to the afflicted family, and that these resolutions be printed in our daily papers and in the Lutheran Visitor.

H. B. ELLERS, JOHN HAARY, JR., H. VOLLMER, J. F. HULPS, Committee.
