Ger. barque *Soli Deo Gloria*, Meyer, sailed from Hamburg March 28th for this port.

Of all things that man possesses, woman alone, takes pleasure in being possessed.

If you fail to see the Seven Sisters you will always regret it. Their equals do not exist.

"Time works wonders," as the woman said when she got married after a thirteen year's courtship.

Ger. brig *Kronprinz von Preussen*, Klein, from Liverpool, for this port, sailed from Holyhead March 15th.

A lady says that it takes many men a whole life time to learn to carry a \$10 bill home without changing it.

Hanging a man in effigy is a good deal like kissing a cow owned by the father of a young girl. It don't hit the case.

Men are so fearful of wounding a woman's vanity that they rarely remember that she may by some possibility possess a grain of common sense.

The Seven Sisters will hold a levee to-morrow morning from 9 to 12 o'clock for the benefit of ladies and children; usual levees afternoon and night.

To-morrow (Saturday) morning the breakfast bell will be rung at 7 o'clock and turn-out bell at 8 o'clock, which will be the order until further notice.

The idea has become prevalent that the young ladies who practice tight lacing are fast. This is an error, as they are really the most stayed among their sex.

Advice to a young woman: Soubrette "How is the prettiest way to hold the hand?" Why so that the other side can't see what cards you've got.

If you want to employ a white washer, contract with him to whitewash the floors, the furniture, and everything but the ceiling. Then he may get some on the ceiling.

March steps out with to-day and April steps in with to-morrow, and the two steps are taken so nearly together that there is not a second of time between March and April.

Mr. Evans, of the Fayetteville Examiner, made us a brief visit this forenoon. He had been in attendance at the Superior Court in Whiteville, Columbus county, and was on his return to Fayetteville, for which place he left on the boat to-day.

At a recent party a young lady was annoyed by the impertinence of a young man, and becoming tired of it, turned toward him rather angrily and requested him to cease his impudence. The young fellow replied, "Please do not eat me." She replied, "Have no fear, sir, pork does not agree with me."

Peoria. National Democrat.

There is no medicine in the world that equals St. Jacobs Oil. Thousands of testimonials are received daily from responsible parties who speak in commendable terms of it. In a later issue the same journal remarked: St. Jacobs Oil is something no family should be without.

Personal.

We had a very pleasant visit from Mr. J. M. Hyde, the General Agent of the "Alvin-Joslin Comedy Company," this morning. He is in the city preparing for the appearance of the Company at the Opera House here, which is to be on the 10th proximo. Mr. Hyde is a clever agreeable gentleman and understands his business in all its details.

Library Hours.

The rooms of the Wilmington Library Association will be open during the following hours; from 9 to 11 a. m.; 12 to 1 p. m., 3 to 6 p. m.; 8 to 10 p. m. Strangers, are invited to visit the room when in the city, where Capt. J. L. Wooster will be in attendance to render them any assistance they may need in searching after desired information, and will receive them with characteristic courtesy.

Disappointment in matters of pleasure is hard to be borne, in matters affecting the health it becomes cruel. Dr. Bull's Cough Syrup never disappoints those who use it for obstinate coughs, colds, irritation of throat and lungs, etc.

The Seven Wonders.

The Sutherland sisters continue to attract large audiences to witness, admire and wonder at the marvelous wealth of luxuriant hair with which they are crowned, and listen to their superior singing. They are to remain in the city but a few days longer, and we advise all who have not yet seen and heard them, to give them a call. The price is so small that it is within the reach of all. Matinee for ladies from 1:30 to 6 p. m.

Freshwater Perch, Trout and Black fish Hooks and Lines. A full assortment and lowest prices at JACOBI'S.

Not Concluded.

At the Superior Court of Columbus County, which has been in session at Whiteville during the past week, the case of Gillespie Buie, charged with the murder of his brother-in-law, Edward F. Camp, in Bladen county, came up for trial, but was continued to the next term of Court on account of the absence of an important witness. The case was removed from Bladen county to Columbus, and will not now be heard until the next term which convenes in December next. No other cases of importance were heard during the term. Judge Shipp presided, and he will hold Superior Court for Brunswick county, which convenes at Smithville on Monday, April 11th.

A Possible Postponement.

There is a possibility that the lecture to be delivered by Rev. T. DeWitt Talmage, may not take place, as previously announced, on the 13th proximo. He has notified the committee, in this city, having the matter in charge that he is to speak in Raleigh on the 12th and in Charleston, S. C., on the 14th of April, and that consequently he will not be able to address our citizens until on his return. The committee are anxious that there shall be no postponement, and are in correspondence with Dr. Talmage in the endeavor to make arrangements for him to speak here at the time named, and with strong hopes for success. Should the committee fail, however, in their efforts to secure his services for the day named, the postponement will be but for a very few days.

The Little World.

Throughs visited this wonderful mechanical exhibition yesterday, and all expressed the same opinion—that it was a perfect marvel of ingenuity, taste and skill. This is the fourth place in which it has been exhibited East of the Rocky Mountains, it having been brought from San Francisco to the Atlanta Exposition. At Atlanta it was visited by more than 200,000 people, and was the wonder of all. The figures are perfectly natural and lifelike in looks and movements, and even the lilliputian conductor, who comes to the rear of the car and waves his signal, looks and acts the character to the very letter. Go and see it. Ten cents will admit you. Matinee every afternoon, especially for ladies and children, from 1:30 to 6 o'clock. There will also be a special matinee for the children to-morrow (Saturday) morning, commencing at 9 o'clock and continuing until noon.

Don't Die in the House.

Ask druggists for "Rough on Rats." It clears out rats, mice, bed-bugs, roaches, vermin, flies, ants, insects. 15c. per box.

To-morrow is positively the last day of the Seven Sisters exhibition in this city.

Thermometrical.

The range of the thermometer is singularly uniform to-day throughout the South. At 6.56 this morning, according to the official bulletin received from the Signal Office in this city, it stood at Wilmington, 53; Norfolk, 50; Nashville, 50; Montgomery, 55; Memphis, 50; Lynchburg, 49; Charlotte, 54; Cape Hatteras, 54; Augusta, 55; Atlanta, 55.

Definition of a Baby

It is composed of a bald head and pair of lungs. One of the lungs takes a rest while the other runs the shop. One of them is always on deck all the time. The baby is a bigger man than his mother. He likes to walk around with his father at night. The father does most of the walking, and all of the swearing.

Don't fail to see the wonderful family, the Seven Sisters.

Fire No. 2.

About 10 o'clock this forenoon a fire was discovered upon the roof of a one-story frame building on Chestnut, between Eighth and Ninth streets, occupied by Mr. William Sheehan. The alarm was given, and the fire department were promptly on hand, but the fire was extinguished before they could get to work. The damage consisted in quite a number of large holes being burned in the roof. The house, we learn, is the property of Mrs. McDonnell, and is not insured.

An Explosion.

About 2:30 o'clock, this afternoon, the workmen who are engaged in making the excavations for the extension and addition to the Carolina Rice Mills, caused the explosion of a rock which was in their way, and which they had drilled into and charged with powder. Fragments of rock flew in every direction, but fortunately, no one was injured, which is somewhat remarkable, as there were many people in the vicinity at the time who had no knowledge that such a thing was to be until they heard the report made by the discharge, and were surrounded of their peril by the descending fragments. We suppose it is all right, but would suggest that a little more caution or some warning in future like operations would be desirable.

A Disappointed Goat.

Ludicrous incidents well occur, even in the midst of misfortune. The only damage done to the furniture at the fire on Chestnut street this forenoon was to a looking-glass, and that was in a manner entirely unlooked for and unexpected. The glass had been taken from the house and carefully leaned up against the fence, where it stood unharmed during all the confusion and alarm occasioned by the fire. But a goat happened to come along and spying a reflection of himself in the glass, he gazed for a moment, shook his head a few times and mounting on his hind legs, he went for that other goat in a hurry, and only found out his mistake after the looking-glass was smashed into smithereens, and no goat was to be seen. He seemed confused for a moment, stared a little, shook his head a little, and then walked quietly away to make a breakfast of any old piece of tinware or broken crockery which might be left lying around loose.

This Morning's Fire.

The two story frame dwelling house, on Sixth, between Princess and Chestnut streets, was discovered to be on fire at about 6 o'clock this morning. The alarm was given at once and the fire department was promptly on hand, and succeeded in extinguishing the flames, though not until the lower part of the house was destroyed. The house is the property of Louie Davis, colored, and she had furniture stored in the lower story, (although she does not live there) which was badly damaged by rough handling in its removal. The only occupant of the building was Washington Howe, a young colored man, who slept in the second story. When he awoke the room was full of smoke, and he came near suffocating before he could raise a window for fresh air. An examination developed the fact that kerosene oil had been poured around the building in several places and then ignited, showing conclusively that the fire was the work of an incendiary.

The house was insured to the amount of \$400 in the Star Insurance Company, of New York, represented in this city by Messrs. DeRosset & Northrop.

The receipts of cotton at this port to-day foot up 71 bales.

It is a popular error to suppose that ivy growing on the walls of a house makes it damp. The attachment of ivy to walls, so far from injuring them and causing dampness, is an advantage. If the walls are dry when planted, ivy will keep them so. If damp, as the plant over spreads their surface the dampness will disappear. Where dampness prevails ivy sucks out the moisture, and its thick foliage will prevent the access of rain to the structure; and thus it is not only a remover, but a preventive, of dampness. The only danger attending the planting of ivy on buildings is where fissures occur in the walls, in which case the shoots and roots will enter, and, if left undisturbed, their growth will soon begin to tell upon the building and will, by increase of growth, push against the sides of the opening, thereby enlarging it, and eventually so weaken the walls as to cause it to fall. Where the wall is sound there is no such danger, for the plant does not make fissures, although quick to discover them.

There were three parties brought before the Mayor this morning charged with disorderly conduct, but they were all discharged.
