

THE DAILY REVIEW.

JOSH. T. JAMES, Editor & Prop'r

WILMINGTON, N. C.

SATURDAY, APRIL 15, 1882.

Entered at the Postoffice at Wilmington, N. C., as Second-Class Matter.

It is expected that debate will be closed and a vote taken upon the Tariff bill sometime during next week.

It is reported that the case of Gen. Fitz John Porter was finally disposed of at the session of the Cabinet held yesterday, but the result has not yet been made public.

It is being commented on as a significant fact that Senator Teller voted to pass the anti Chinese bill over the President's veto the day before his name was sent in as a member of the Cabinet.

Many of the refugees about Natchez, Miss., who have been receiving government rations, manifest no disposition to go to work, though \$1.50 per day was offered for their services. Only four or five consented to work out of several hundred idle men lounging about the city.

We are glad to see that since the star route prosecutions have been placed in the hands of Mr. Merrick and other Democrats they are in a fair way to be heard. The recent decisions of Judge Wiley are also regarded as pretty certain proof that he intends to allow no frivolous pleas or objections to stand in the way of a speedy trial.

It is expected that Secretary Chandler will assume the duties of the Navy Department next week. Secretary Hunt will "run the machine" until his successor is ready for the business, and then he will take his departure, as the Minister to Russia. Secretary Hunt has been of little benefit in the Navy Department and he will probably do little harm at St. Petersburg.

Henry Mandley, the great English authority on the mind and its diseases, says that insanity is the almost inevitable result of exclusive devotion to money-getting. It may not show itself in the first generation, but it is almost sure to break out in the second. The suicide of the son and namesake of Cornelius Vanderbilt is probably a very fair illustration of this assertion. He was never of entirely sound mind, and his self destruction was only the end of a diseased and disordered mental career.

Speaking of the firm tone in cotton, a New York letter of Tuesday says: "The market showed its strength in that liberal buying was done in the face of a weak Liverpool. The bulk of the spot cotton now on sale in the United States is in this market and to-day New York is the cheapest market in the States. New Orleans telegrams say that of the 218,000 bales stock in that market very little actual cotton is on sale. It is said that prominent banking houses bought largely on speculation to-day."

Senator Jones, of Nevada, now receives many letters from colored people, who think that he was hard on their race in his speech against Chinese immigration. One of his correspondents, T. T. Allain, who was once a prominent colored Republican in Louisiana, writes: "Should the spirit of your last speech in the United States, Senate striking 'Sambo' over John Chismann's shoulder, be carried out in its spirit throughout the length and the breadth of this country, it will do poor 'Sambo' more harm in the future than bulldozing did him in the past."

Speaker Keifer seems to be losing his head entirely, and is becoming a mere cat's paw in the hands of Robeson, of New Jersey. The latter endeavored and expected to be the acknowledged leader of the Republican party in the House, but failing in that, he has contented himself by controlling the Speaker, which, for many purposes, amounts to the same thing. At his behest, (perhaps it would be more polite to say request) the Speaker has removed another of the stenographic operators—one who by long experience and scholarly attainments stood at the head of the profession—to make room for a protégé of the New Jersey dictator.

Speaker Keifer made a speech at a reunion of veterans, at Baltimore, last Monday night, in which he said that since the war "this nation has grown in every way better—morally, physically and patriotically. We live longer. There is less public rascality to the population than in any other nation which ever did exist."

That sentence in the above quotation will, we imagine, appear much like a new revelation to many. It has, we regret to confess, that look to us, for we have been led to believe that there was

more "public rascality" in this country than in any other, and that the party now in power could boast of more rascals to the square mile than any party, class or people on the globe. For the last twenty years they have been stealing all they could lay their hands on, and if there is any cessation now, it must be because they see nothing left to "grab."

The South Carolina election cases are in the hands of the jury. If Judge Bond's instructions are followed by the jury there can be but little probability, it seems to us, of a conviction, always provided the report we have read of the trial are correct. Judge Bond's charge is a surprise to us, in some things, we must confess. It is fair enough, as it appears to us. He told the jury that it must be an individual and not a majority verdict and that a finding reached by agreement or a majority vote is unlawful. This should settle the case. We do not see how any impartial, fair minded man, be he Democrat or Republican, could convict a man on the testimony of such disreputable wretches as the witnesses for the government were proved to be in open Court, and we confidently look for a failure to agree on the part of the jury.

It is worth remembering that nobody enjoys the nicest surroundings if in bad health. There are miserable people about to-day with one foot in the grave, when a bottle of Parker's Ginger Tonic would do them more good than all the doctors and medicines they have ever tried. See adv.

MOONSHINE.

A San Francisco man has been arrested for deceiving a widow. While his crime is to be abhorred, it must be admitted that his genius commands admiration.

The friend of Jesse James firmly believes that he has gone to heaven. Jesse had in him the elements of a very lively angel, not to mention his two Bible names.

There is an article going the rounds headed "Who Kissed Away That Tear?" Well, we suppose we might as well own up first as last. It's a mighty mean man that won't kiss away a tear.

A German girl seldom sues for a breach of promise. She wisely says it was a lucky circumstance, and looks out for a better man without further fuss. It is a good example to imitate.—Inter-Ocean.

The thing a defaulter most dreads is that his defalcation may be reported in the papers, and thereby injure his standing in billiard circles. The thought of stealing, and knowing himself to be a thief, gives him no concern.

Thousands of women have been entirely cured of the most stubborn cases of female weakness by the use of Lydia E. Pinkham's Vegetable Compound. Send to Mrs. Lydia E. Pinkham, 233 Western Avenue, Lynn, Mass., for pamphlets.

Southern Fortitude.

Here is something that has a liberal ring about it from the Philadelphia Record, a valuable paper among our exchanges. We wish the editor had even enlarged on the subject a little. There are many things as true as this that might be said:

The fertitude of the southern people in misfortune must command the admiration of the world. Accounts from all sections of the inundated regions agree that the people, white and black, seem cheerful, notwithstanding the terrible ordeal through which they are passing. They look forward to better times in the future. One of the most significant features in connection with the widespread ruin that has overtaken both planter and laborer is the kindly assistance that planters who can command the means are giving to the colored laborers, and the inducements they are holding out to them to return to the plantations and go to work.

How to Secure Health.

It is strange anyone will suffer from derangements brought on by impure blood, when Rosadalis will restore health to the physical organism. It is a strengthening syrup, pleasant to take, and the BEST BLOOD PURIFIER ever discovered, curing Scrofula, Syphilitic disorders, Weakness of the Kidneys, Erysipelas, Malaria, Nervous disorders, Debility, Bilious complaints and Diseases of the Blood, Liver, Kidneys, Stomach, Skin, etc.

Superior Court of New Hanover County Rufus S. Tucker, Plaintiff.

D. S. Cowan, Executor of M. E. Brinkley, D. S. Cowan and wife Sarah S., T. O. McIlhenny, O. M. Stedman, and Margaret Repton, Defendants.  
This action is brought for the foreclosure of a mortgage, dated April 13th, 1875, executed to said R. S. Tucker by said M. E. Brinkley, to secure a sealed note of said date made by said M. E. Brinkley to said Tucker, upon a lot of land in the city of Wilmington, in said county, at the Southeast intersection of Third and Mulberry streets, fronting 81 feet on Third street and running back Eastwardly, the same width with Mulberry street 110 1/2 feet to a brick wall, being part lots 1 and 2, in block 193; and for a judgment against said D. S. Cowan as Executor of said M. E. Brinkley, for any residue of said mortgage debt remaining unsatisfied after a sale of said lot.

The defendant Margaret Repton is hereby required to appear at the next Term of said Court to be held at the Court House in Wilmington, on the 13th Monday after the 1st Monday in March, 1882, and answer or demur to the complaint, which was filed therein at December Term, 1881, of said Court.

Miscellaneous. From Andrew's American Queen. CLEOPATRA OR THE Queen of Sheba's Beauty WAS BUT SKIN DEEP.

The renowned Queen of Sheba, with all her royal pomp, magnificent apparel, and brilliant retinue, would never have appeared within the presence of the grandest of the monarchs of the past, had she not also possessed that which is the crowning glory of the female person—a skin unchallenged for its Oriental softness and its almost transcendental purity. Cleopatra, holding emperors at bay, and rolling empires by her word, had quickly lost her charm and power by one attack of blotches, or of pimples, or of horrid tan freckles.

WOMAN RULES THE WORLD. By her beauty, not less than by her purity of character, loveliness of disposition and unselfish devotion. Indeed, in the estimation of perhaps too many men, beauty in a body takes precedence over every other consideration. Beauty thus forms an important part of woman's "working capital," without which too many, (if not bankrupts in what relates to influence within the circle where they move), are powerless for great good. Hence we see not only the propriety but the duty of every lady preserving with zealous care that which to her is essential to success, and influence, and usefulness in life. And, since "beauty is but skin deep," the utmost care and vigilance are required to guard it against the many ills that flesh is heir to. Among the great and annoying enemies of beauty,

as well as of comfort, happiness and health, are those pestiferous and herid skin diseases—tetter, humors, eczema, (salt rheum), rough and scaly eruptions, ulcers, pimples, and all diseases of the hair and scalp. For the cure of all these Dr. C. W. Benson, of Baltimore, after years of patient study and investigation devoted to diseases of the skin, at last brought forth his celebrated SKIN CURE, which has already by its marvelous cures, established itself as the great remedy for all diseases of the skin, whatever be their names or character. Its success has been immense and unparalleled. All druggists have it. It is elegantly put up, two bottles in one package. Internal and external treatment. Price \$1.00.

The Sun. New York, 1882.

THE SUN for 1882 will make its fifteenth annual revolution under the present management, and as always for all, big and little, means and grades, contented and unhappy, Republicans and Democrats, despised and virtuous, intelligent and obtuse. The Sun's lights for mankind and womanhood of every age; but its genial warmth is for the good, while it pours hot discomfort on the blistering backs of the persistently wicked. The Sun of 1882 is a newspaper of a new kind. It discarded many of its former and a multitude of the superfluous words and phrases of ancient oration. It undertook to report in a fresh, unobscured, unobscured way all the news of the world, omitting no event of human interest, and presenting independent. The success of its experiment was the success of the Sun. It effected a permanent change in the style of American newspapers. Every important journal established in this country in the dozen years past has been modeled after the Sun. Every important journal already existing has been modified and bettered by the force of the Sun's example.

The Sun of 1882 will be the same outspoken, truth-telling, and interesting newspaper. By a liberal use of the means which an abundant prosperity affords, we shall make it better than was ever printed. We shall print all the news, putting it in readable shape, and measuring its importance, not by the traditional yardstick, but by its real interest to the people. Distance from Printing House Square is not the first consideration with the Sun. Whenever anything important worth reporting, we get the particulars, whether it happens in Brooklyn or in Bokhara.

Politics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think about men and events. That habit is the only source of the Sun's political course. The WEEKLY SUN gathers into eight pages the best matter of the seven daily issues. An Agricultural Department of unequalled merit, if it market reports, and a liberal proportion of literary, scientific, and domestic intelligence complete the Weekly Sun, and make it the best newspaper for the farmer's household that was ever printed. Who does not know and read and like the Sunday Sun, each number of which is a Gleanings of interesting literature, with the best poetry of the day, prose every line worth reading, news, humor—matter enough to fill a good-sized book, and infinitely more varied and entertaining than any book, big or little? If our idea of what a newspaper should be pleases you, send for the Sun. Our terms are as follows—For the daily Sun, a four-page sheet of twenty-eight columns, the price by mail, post-paid, is 66 cents a month, or \$6.60 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 66 cents per month, or \$7.70 a year, postage paid. The Sunday edition of the Sun is also furnished separately at \$1.20 a year, postage paid. The price of the Weekly Sun, eight pages, fifty-six columns, is \$1 a year, postage paid. For clubs of ten sending \$10 we will send an extra copy free. Address
