

The Daily Review.

JOSH. T. JAMES, Editor & Prop.

WILMINGTON, N. C.

Entered at the Postoffice at Wilmington, N. C., as second-class matter.

EVENING

SATURDAY, MAY 13, 1882.

The first political gun of the year will be fired by Oregon June 5. She elects State officers and a member of Congress.

The prohibitionists of Connecticut announce their intention of making a thorough and systematic canvass of the State in the next gubernatorial campaign.

An exchange notes the fact that 1,200 Italians who arrived at the port of New York one day last week had only \$105 altogether. On the same day 672 Germans arrived, who had \$60 to \$2,500 each.

Noting the fact that Canada proposes to abolish postage on newspapers after the 1st of July, the Louisville Courier-Journal remarks that "the United States might do worse than to adopt a custom of like nature."

Rome recently celebrated her two thousand six hundred and thirty-fifth birthday with appropriate honors. Municipal and national flags were placed upon the capitol and other public buildings, and the new excavations at the Pantheon and Forum were thrown open for the first time to the public. Both the king and the queen visited the Forum, the ruins in and around which were illuminated in the evening with Bengal lights.

There are now more than six hundred bills on the calendars of the House of Representatives awaiting action. That is to say, that out of the thousands of bills introduced at this session, this large number of bills has been distributed through three calendars as being worthy of consideration. On the Speaker's table are 166 bills that have passed the Senate and now wait for the concurrence of the House. It is obvious that, if the House is to adjourn this summer, only a comparatively small portion of the bills on the calendar and sent in from the House can become laws at this session.

LOOK AT HOME.

The New York Herald, of the 11th inst., complains that the elections in South Carolina have been a farce and a foul stigma upon the purity of the ballot-box. That paper seems to have forgotten that the city of New York stands as the greatest monument of fraud in the country so far as the purity and sanctity of the ballot-box are concerned, and that the State seems to be in a struggle to keep pace with its chief city. The Herald well knows, as does every intelligent man in the country, that in the last Presidential election the victory was to the Republicans, not by the numerical strength of the party, but because there was an open trade between disaffected Tammany Democrats and Republican leaders in New York, and that in consequence, the State and the country were given to the party now in power. It also knows that Indiana was carried by the Republicans by means of money freely expended by John W. Dorsey, one of the Star Route thieves, who is now non est.

When the Herald can have effected the purification of the ballot-box in New York city and State, and when its influence shall have extended to Pennsylvania with such force as to make that State no longer a blot and stain in consequence of rascality at the polls than its advice would be more seemly and better appreciated in the South.

PROVIDING FOR THE FUTURE.

We notice that a strong movement is being made to secure the appointment of Major O. E. Babcock as Engineer Commissioner of the District of Columbia, to fill the place made vacant by the death of Major Twining, which occurred a few days ago. Major Babcock held the same position during a portion of Grant's administration and there was a great deal of scandal at the crooked manner in which the business of the department was conducted.

The affairs of the District are administered by three commissioners, two of whom are civilians, and the third an officer of the engineer corps of the army. The two former are paid for their services by taxation, while the latter is entitled to no pay other than his regular pay according to rank in the army. The duty of the engineer extends to a supervision and control of all the roads, streets, sidewalks, bridges and culverts in the District, and when Major Babcock was in office before, the expenses of the department were simply enormous, and the tax-payers of the District, who had to foot the bills, were loud in their denunciation of the extravagant bills which they were compelled to pay.

Babcock was also implicated in the "whiskey ring," and other "jobs," by which to deplete the District and the National treasuries.

He, with a swarm of others who hung upon the skirts of the administration, are watching every opportunity for spoils from the public purse, and it is more than likely that many of them will have the coveted opportunity. Some of them have already been provided for, and there has been a host of bills introduced in Congress which, if passed, will afford an opportunity for the others.

Grant, fortunately, is out of the way, and is apparently as dead, politically, as he is reported to be financially. President Arthur was his friend until the "lottery of assassination" placed the latter in the chair, and set the "Presidential bee" to buzzing in his bonnet. He will look out for Grant's friends just as long as they can be made to subservise his interest and suit his ambitious aims and no longer. Recent developments show that Grant has lost the powerful influence which he once had at Washington, and in the politics of the country. There are but few who now cling to him, and those few are being quietly and efficiently cared for by President Arthur in view of his own personal ends.

NOON TELEGRAMS.

LOUISIANA.

The Louisiana Board of Health and the National Board.

[By Telegraph to Daily Review.]
NEW ORLEANS, May 13.—Noon.—A New Orleans special states that the Board of Health last night, by a unanimous vote, refused to receive any communication from the National Board of Health, except such as came from the president thereof. In explanation of this resolution, which is aimed especially against a resident member, Dr. M. Bennis, Hon. Isaac N. Marks, acting president, said he was of the firm belief that the Board would be troubled with no more communications from any employe of the National Board in this city, whose only objects appeared to be to create trouble and discord between the Louisiana State and National Boards and who are as ready to-day as heretofore to declare rice fever to be yellow fever, in order to keep up agitation whereby they might be continued on high salaries as employes of the National Board.

Telegraphic Brevities.

The steamship *Pliny*, which left Rio Janeiro, April 25, for New York, is ashore on Dial Beach on the coast of New Jersey. The passengers and crew are safe.

The Hanlan-Ross race is fixed for July 3d.

The wife of Police Officer Walter B. Ruby, York, Pa., had her feet so badly frosted that she was unable to wear her shoes and scarcely to walk. She applied St. Jacobs Oil on a Saturday night, and the next day she was able to wear her shoes and walk to church. Her feet were free from soreness and as well as ever.

DOMESTIC MARKETS.

[By Telegraph to Daily Review.]

FINANCIAL.

NEW YORK, May 13.—Noon.—Stocks dull and irregular. Money 3 per cent. Sterling Exchange, long, 48 1/2; short, 48 1/2. State bonds unchanged except for Tennessee mixed, which were 1/2 higher. Governments irregular.

[By Cable to Daily Review.]

LIVERPOOL, May 13.—Noon.—Cotton steady; Uplands 6 1/2; Orleans 6 13 1/16; sales 10,000 bales; for speculation and export, 2,000 bales; receipts 26,000, of which 16,400 were American; May, 6-38-64; June and June, 6-38-64; July and August 6-46-64; August and September 6-50-64; September and October 6-42-64. Futures steady. Pork—long clear middles 52s. 6d.; short 55s. 6d.

Later—Cotton—Sales of 7,500 bales American; May 6-39-64; June and July 6-42-64; July and August 6-46-64. Futures steady.

THE STOCK MARKET.

NEW YORK, May 13.—Noon.—The stock market opened rather weak and generally 1/4 lower than yesterday's closing prices, the latter for Omaha preferred, while North Western preferred 3/4 higher. In early dealings the market was dull, and after a small fractional decline in the general list, an advance of 1/4 took place; New Jersey Central leading in the upward turn.

"How do you manage," said a lady to her friend, "to appear so happy all the time?" "I always have 'Farker's Ginger Tonic handy,'" was the reply, and thus keep myself and family in good health. When I am well I always feel good natured." See other column.

WEEKLY COTTON STATEMENT.

NEW YORK, May 13.—Receipts of cotton at all interior towns 19,060 bales; receipts from plantations 10,186; crop in sight 5,206,881; total visible supply of the world is 2,700,095 bales, of which 1,707,492 is American, against 2,921,712, and 2,231,032 respectively last year.

MISCELLANEOUS.

No Whiskey!

BROWN'S IRON BITTERS is one of the very few tonic medicines that are not composed mostly of alcohol or whiskey, thus becoming a fruitful source of intemperance by promoting a desire for rum.

BROWN'S IRON BITTERS is guaranteed to be a non-intoxicating stimulant, and it will, in nearly every case, take the place of all liquor, and at the same time absolutely kill the desire for whiskey and other intoxicating beverages.

Rev. G. W. RICE, editor of the *American Christian Review*, says of Brown's Iron Bitters:

Cin., O., Nov. 16, 1881.
Gents:—The foolish wasting of vital force in business, pleasure, and vicious indulgence of our people, makes your preparation a necessity; and if applied, will save hundreds who resort to saloons for temporary recuperation.

BROWN'S IRON BITTERS has been thoroughly tested for dyspepsia, indigestion, biliousness, weakness, debility, overwork, rheumatism, neuralgia, consumption, liver complaints, kidney troubles, &c., and it never fails to render speedy and permanent relief.

Bear in Mind
