THE SITUATION IN EGYPT.

The cause of the trouble in Egypt is not generally understood. Arabi Bey, the War Minister, raised a revolt in opposition to the levying of a very harsh tax with which to repay the money borrowed by the late Khedive from money lenders in France and England...

This is the present situation of affairs. What England and France will do about it, remains to be seen; but, as the Savannah News says, whatever the outcome of the present complication, however, the Egyptians have taught the world one unexpected lesson...

SAVE THE FRUIT.

Under this head we find a very interesting article in the News and Observer. It may be found to contain some interesting suggestions to the people of this section where earlier crops and surer crops of fruit may always be produced owing to the vicinity of large bodies of water...

Dried apples from 6 to 8 cents per pound; dried peaches, choice, peeled, 19 to 20 cents per pound; dried plums, Southern, 11 to 12 cents per pound; dried cherries, Southern, 17 to 19 cents per pound...

Mr. William H. Oliver, of Newbern, in a communication to us estimates the cost of starting a canning establishment, outside the use of an ordinary steamer boiler, not to exceed \$500. He says the boiler of any cotton gin or saw mill can be used and suggests that a few of those persons interested in each neighborhood take the necessary steps at once to start a cannery...

FRUIT CROP PROSPECTS.

Late frosts and a backward spring do not seem to have done any harm to fruit in the vicinity of New York, says the Herald. Some cherry buds were killed, but the tree sars still fairly loaded; peaches have endured better than in some places further south, and pears and apples were never promised more abundantly...

Braintree's latest reports regarding the business situation and the general condition of the country are not very encouraging. Special telegrams to that journal from twenty-five cities indicate that while business is in most cases quiet or dull, still the crop prospects continue to be undisturbed by any authentic reports of seriously injurious weather or insects...

The winding up of the business of the house of A. T. Stewart & Co. is reported to be progressing much more rapidly than was expected, and it is now thought the affairs of the concern will all be settled in the course of the summer. The rumors that the business would be bought out in a lump, and continued as it was, under a different management, seems to be entirely without foundation...

Augusta Chronicle: The Independent candidates for Governor and for Congress, in this District, at least, will not run far. There are two or three in the race. It will be a sort of walking match.

The immigrant arrivals at Castle Garden for the week ending Saturday, aggregated 20,191, making a total of 78,000 for the month thus far.

PERSONAL.

"Dr." Mary Walker wants Guiteau sent to an insane asylum. One of the newspaper carriers in Boston is a woman 87 years old. Gen. Winfield S. Hancock is now the guest of Judge Black, at York, Penn. A girl named Taylor, of Caldwell county, Mo., aged 11 years, is a mother. Recent rumors that the health of Pope Leo XIII is failing, are authoritatively denied.

Senator Fair, of Nevada, says that Massachusetts is the place for John Chinaman. The police census just made returns an aggregate of 81,704 as the total voting population of Baltimore under the new division of the wards. Mr. Labouchere, of the London Truth, speaks of an American young lady whose bonnet was as "rampanantly picturesque as her ruffe."

Dion Boucault will make an extended tour of the United States next season, supported by a strong company under the management of Brooks & Dickson. Both Lydia E. Pinkham's Vegetable Compound and Blood Purifier are prepared at 233 and 235 Western Avenue, Lynn, Mass. Price of either, \$1. Six bottles for \$5. Sent by mail in the form of pills, or of lozenges, on receipt of price, \$1 per box for either. Mrs. Pinkham freely answers all letters of inquiry. Enclose 3c. stamp. Send for pamphlet. Mention this paper.

The Pennsylvania Independents appear to be terribly in earnest. An Italian has a colony of 60,000 silk worms in a room in St. Louis, and is confident of a fine silk crop. In Cambria county, Pa., there are two springs only a few feet apart, one of which finds its way into the Atlantic ocean and the other into the Gulf of Mexico.

The peach crop along the valley of the Hudson is pronounced to be a total failure. Late frosts have destroyed what was not killed by the earlier frosts and freezes. An exposition of "funeral implements" such as hearses, coffins and grave clothes is called to interest and amuse the good people of Rochester during the latter part of June. An electric railroad, twenty-six miles long, is proposed for a district in the south of England, which is well supplied with water power to drive the dynamo-electric machines. Take warning by this young man's fate, He would leave off his flannels, He's sleeping now 'neath a silver plate, And his coffin had rosewood panels.

The prospect in Pittsburgh is, according to the Post, that more idle men will tramp the streets of that city this summer than ever before. The class who will suffer most are the day-laborers, who, unlike the strikers, have no funds nor organization on which to depend. To Promote a Vigorous Growth of the hair, use Parker's Hair Balsam. It restores the youthful color to gray hair, removes dandruff and cures itching of the scalp.

NOON TELEGRAMS.

TEXAS. Railroad Work About to be Suspended. (By Telegraph to Daily Review.) GALVESTON, Texas, June 1—Noon.—The Houston Post publishes the following special: The work of construction on the New York, Texas & Mexican Road will be abandoned when it reaches Victoria, which will be about June 17th. The reason given is the inability of the State to give satisfactory land grants.

ILLINOIS.

How the Colored Man is Treated in the Loyal Northwest. (By Telegraph to Daily Review.) CHICAGO, June 2—Noon.—The Joliet Iron & Steel works had a gang of 20 non-union men, some colored, unloading iron at their docks here yesterday. Last evening they got on board the Chicago & Alton train to go to Joliet. When the train stopped at Pan-Handle crossing, it was surrounded by about 50 striking iron workers and their friends, four or five of whom jumped on the engine, presented revolvers and prevented the engineer from starting again; another detachment entered the train and pulled out all the workmen they could recognize, including half a dozen colored men. The remainder of the crowd took them and beat, kicked and jumped upon them, injuring them severely. Many stones were thrown and shots fired. One shot took effect in the groin of Judge Pillsbury, of the Ills. Appellate Court, inflicting a wound which it is feared will prove fatal.

Rescued from Death

William J. Coughlin of Somerville Mass., says: In the fall of 1876 I was taken with bleeding of the lungs followed by a severe cough. I lost my appetite and flesh, and I was confined to my bed. In 1877 I was admitted to the Hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I gave up hope, but a friend told me of Dr. William Hall's Balsam for the lungs. I got a bottle, when to my surprise, I commenced to feel better and to-day I feel better than for three years past.

"I write this hoping every one afflicted with Diseased Lungs will take William Hall's Balsam, and be convinced that Consumption can be cured. I can positively say it has done more good than all the other medicines I have taken since my sickness.

MOONSHINE.

M. Damala-Bernhardt has formally made it known to the Paris press that he will personally chastise, on his return, whoever may have spoken slightly of his wife.

Boston Post: "Grant had an own cousin in the Confederate army under Lee. It will be remembered that it was virtually a toss of a cent that decided Grant and Logan which army to enter."

In view of the generous contributions to Betty and the sentimentalism over Sergeant Mason, half the soldiers in Washington are kicking themselves because they didn't shoot at Guiteau's widow.

Woman's most implacable enemy is woman. For instance Gail Hamilton, in writing to a friend, adds this postscript: "Anna Dickinson is playing Hamlet. She ought to play his uncle, for she murders Hamlet. Nothing else new. With love."

The latest joke about King Kalakaua, of the Sandwich Islands, is that he cannot help being a good man. The reason assigned is that his ancestors ate so much missionary in their time that it worked into their systems and was transmitted to their descendants.

The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it—no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health—in no other way can lasting benefit be obtained.

75 Dearborn Ave., Chicago, Nov. 7. I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel none of the old troubles, and am a new man. I am getting much stronger, and feel first-rate. I am a railroad engineer, and now make my trips regularly. I can not say too much in praise of your wonderful medicine. D. C. MACK.

BROWN'S IRON BITTERS does not contain whiskey or alcohol, and will not blacken the teeth, or cause headache and constipation. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, &c.
