The House then, at 11:15, went into Committee of the Whole, Mr. Updigraff, of lowa, in the chair, and resumed consideration of the general deficiency appropriation bill.

At 3:10 the consideration of the bil was completed, and the committee rose and reported it back to the House. Motions to strike out appropriations for payment of amounts due land grant roads, for army transportation, and for bureaus in the Navy Department, were lost The motion to strike out the clause appropriating \$112,600 for payment for special Deputy Marshals at Congressional elections in 1881, and prior years, was lost. In speaking to this proposition Mr. Cox, of New York, said: Inasmuch as the men selected for these positions at our elections performed their work, and are not in any sense responsible for the law under which they acted, and as the money is their due, we desire to say that in voting for this proposition we do not yield our well-considered judg-ment as to the invalidity of the Federal law. The House immediately thereafter went into Committee of the Whole on the legislative, executive and judicial appropriation bill.

In explaining the bill Mr. Cannon, of Ill., said the bill provided for an increase of employees in the Pension office at an expense of \$1,742,000, but quired \$425,000,000 to pay pensions, but it was better to expend the surplus revenue in that manner than to have it remain in the Treasury a standing terms.

NEW YORK, June 8-Night.-The Board of Managers of the New York Cotton Exchange have recently adopted a report relative to the waste in the staple. The report says: Whereas, numerous complaints have been made about the waste in the staple of American cotton, more particularly of this year's growth, which has led to the belief in many instances that it is caused by ginning at a high rate of speed and cleaning seed too closely, thereby breaking the staple and producing an excess of "fluffy," or what is known as reginned staple, thus lowering its character and value, this Exchange would the funeral of Garibaldi has been replanting interest to the evil and ask er is very stormy, and it is surmised that efforts be made to cure it.
