# THE DAILY REVIEW.

VOL. VI. WILMINGTON, N. C., TUESDAY, JUNE 20, 1882. NO. 149.

### Personal.

Mr. James Wilson, of this city, leaves here on Thursday morning for a two months visit to the North, business and pleasure being combined, but the former, we may be sure, being predominant. His address for the present is 1,417 Third Avenue.

### Apples and Onions.

Mr. Aaron Colvin, of the steamer John Dawson, brought down for us from his place, on Colvin's Creek, specimens of apples and onions which are hard to beat. The former are of the Early Harvest and June Red varieties and the latter are magnificent red onions, one of them measuring 13 and another 15 inches in circumference.

### Gen. Lane.

We learn from the Richmond Dispatch that Gen. James H. Lane, formerly Principal of the Cape Fear Military Academy in this city, has been unanimously elected President of the West Florida Seminary, Tallahassee, in which institution he was a professor prior to the war. We, in company with many others in this city, have a warm spot in our heart for this gallant ex-Confed. and most heartily wish him success wherever his lines may fall.

### Two in the Coop.

Some three weeks ago an account of the robbery of Capt. John Fitzgerald's residence, in Brooklyn, by a small colored boy who was employed to cut some wood, appeared in the REVIEW. Since then officers have been on the track of the little rascal and kept an eye on him. They did not see fit to make an arrest until they could ascertain to whom he had sold the stolen property, viz: a hunting case silver watch. Saturday the boy, J. H. McFarlane, aged about 14 years, and A. L. Brown, the man to whom he sold the watch, were arrested. McFarlane acknowledged his guilt. Brown said he bought the watch for fifty cents. Both were sent to jail in default of bond; one for the theft and the other for receiving a stolen article knowing it to have been stolen. Capt. Fitzgerald says the watch cost him \$25 a year or two ago.

Freshwater Perch, Trout and Black fish hooks and lines. A full assortment and lowest prices at JACOB's.

### A Lost Child.

On last Saturday afternoon Mrs. Geo. W. Corbett, of the Black River section, was out fishing in Collie Creek with her two little boys. About 5 o'clock in the afternoon she noticed a storm coming up and called to the children and started homeward. When within 200 yards of her gate she looked and saw one of her boys, accompanied by a little colored boy, coming through the swamp. Thinking it all right and that the child would be within doors in a few moments, she gave no more attention to the matter until, at a later hour, after the storm was over, she ascertained that the child, who was about eight years of age, and named George, was missing. Immediately a search was instituted but the boy could not be found. The neighbors were summoned to aid and all that night and all day Sunday and all Sunday night the search was continued, there being over 100 persons engaged in it, and at 7 o'clock this morning, when the John Dawson left Point Caswell, no tidings of the missing child had been received.

Anything in the hardware line can be found at reasonable prices at JACOB's.

### To Advertisers.

We wish to call the attention of advertisers to one or two facts of interest to themselves as well as to us.

First, the circulation, and by this we mean the actual bona fide circulation, of THE DAILY REVIEW is larger than that of any other newspaper published, in the city of Wilmington.

Second, the actual bona fide circulation of THE DAILY REVIEW is fully 25 per cent. larger than that of any other daily paper published, in the city of Wilmington.

Third—We have reason to believe that we can give advertisers 1,000 more readers than can any other paper published, in the city of Wilmington.

Fourth—Our advertising rates are from 25 to 50 per cent less than those of any other daily paper published in the city of Wilmington.

It is for advertisers to put these various facts together and see wherein it is to their advantage to advertise in THE DAILY REVIEW.

A full feeling after meals, dyspepsia, heartburn, and general ill health relieved by Brown's Iron Bitters.

### No Challenge Passed.

Mr. Charles E. Jones, of the Charlotte Observer, publishes a card in the Sunday issue of his paper, denying that he had challenged Mr. W. P. Canaday to mortal combat. Mr. Jones says: "The statement originated wholly in the inventive brain of the editor of the Patriot, and truth compels me to assert that he drew entirely on his imagination for his statements in regard to this matter."

### Pender's Voice.

At a mass meeting of the Democratic party of Pender county, held at Burgaw, on Monday evening, June 19th, 1882, Dr. W. T. Ennett was called to the chair and A. H. Paddison was requested to act as secretary.

A committee on resolutions was appointed, who reported the following resolutions, which were unanimously adopted:

Resolved, That in view of the faithful services rendered to the State by those well-known gentlemen, Hon. A. A. McKoy, Judge of the Superior Court, and Capt. Swift Galloway, Solicitor of the Third Judicial District, in the impartial discharge of their office, we, the people of Pender county, do take this opportunity of expressing our entire and hearty approval of the upright, fair and impartial manner in which they have discharged their official duties during their term of office which is now rapidly drawing to a close, and if, in the sound discretion of the convention which assembles at Magnolia on the 27th inst., the names of these two gentlemen should be placed on the ticket for re-election to the respective positions which they now so acceptably fill with honor to themselves and credit to their constituents, the people of Pender can be relied on to give them a warm and hearty support.

On motion, the Wilmington DAILY REVIEW, JOURNAL and Star, the Wilson Advance, Goldsboro Messenger and all other Democratic papers, were requested to publish the above proceedings.

Fine Fancy Balbriggan underwear is shown at DYER's.

### Board of Aldermen.

The Board of Aldermen met in called session last evening. Present, His Honor, the Mayor, and Aldermen Huggins, Alderman, Worth, Bowden, Northrop, Sampson and Willis.

The Mayor stated that he had called the meeting for the purpose of receiving the report of the Committee on Fire Department in the matter of dispensing with one or more of the steam fire engines.

The Committee reported as follows: The Committee to whom was referred the resolution inquiring into the propriety of selling or disposing with one of the steam fire engine, respectfully report that it would be injudicious at present to disturb the fire organizations now existing, inasmuch as the water works, however beneficial, cannot supply the utility of steam engines with this efficient organization, even in the business part of the city where hydrants are located, until efficient hose companies are organized and even then it is questionable, with the growth of the city, and large space of territory not protected by the water works, whether a proper protection of property would justify any change.

The committee would suggest that at a period in the future, after the advantages of the water supply is more fully tested and hose companies organized, the expense of the fire department might be materially reduced by keeping only one engine alternately on duty and the number of horses now fed at the expense of the city and other expenses now paid for the support of three engines be diminished.

(Signed) W. L. SMITH, JAS. B. HUGGINS.

After a full discussion by members of the Board, Alderman Worth offered the following:

Resolved, That the report of the committee be received and that within sixty days after the water works company complete their stand pipe and fill the same with water and it is found efficient for the purpose for which it is designed, that one of the steam fire engines be dispensed with; that the company of the engine dispensed with be allowed to continue their organization as a hose company if they so desire.

Resolved, further, That the Committee on Fire Department are hereby instructed to take the matter in charge and report to the Board the proper time for the execution of the foregoing resolution. Adopted.

The meeting then adjourned.

We are sorry to learn that there has been a considerable destruction of fruit trees on Myrtle Grove Sound. It seems that the trees were infested with bugs, and some one advised that spirits turpentine be applied about the roots. The advice was followed, and many fine trees have been killed as a consequence.

Only two weeks from to-day to the Galleries Fourth. The Point Caswellians say they expect a large crowd to visit them on that day, on the occasion of the reunion of the veterans of the "Bloody 19th."

### A New Organization.

A number of talented young gentlemen of this city have organized a pantomime and specialty troupe under the name of the Wilmington Pantomime and Specialty Company, with Mr. R. A. Hewlett as Business Manager and Clown; Mr. Martin Daniel, Stage Manager and Pantaloon; W. F. Burch, Harlequin; Sam'l Carr, Musical Director, and Robt. Gardner, Treasurer. The gentlemen will commence to rehearse this week in order to be able to appear at an early date. We learn from them that they have received an offer from a New York theatrical manager to tour the State. They are considering the proposition, but have not as yet decided what to do. They are well adapted to the cast they have made and will no doubt do themselves great credit.

### The Associated Railways.

The Richmond State publishes an article to the effect that the railroad combination known as the Associated Railways of Virginia and the Carolinas has been broken. Acting on this a reporter of the REVIEW called yesterday upon Hon. R. R. Bridges, President of the roads forming the Atlantic Coast Line, which are parts to this association, for information as to the correctness of the report, and Col. Bridges, in response to inquiries, stated that the arrangement had not been broken up, although some changes would be made, the most important being that each road would hereafter have its own general freight agent. This is the substance of the reported change, as stated by Col. Bridges, who added that the proposed freight agents for his roads had not yet been named.

The days are at their longest now. To-morrow the Calendar Summer begins, and on and after that day they will begin to shorten.
