STATE NEWS. Smithfield Herald: We are very sorry to announce the death of A. D. McLean, Esq., of Harnett county. Mr. McLean was well-known through this section, having visited our courts for the last thirty years.

NEW ADVERTISEMENTS. Notice. I DESIRE TO INFORM MY FORMER patrons and the public generally, that I have purchased the Tonsorial establishment at No. 8 South Front St., and the good will of the late Proprietor of the same.

A hat for a stylish gentleman is bought at DYERS. The very best way to shorten sales is to stop advertising.

Corrections. Mr. David J. Moore, formerly of Co. E, 18th N. C. Regiment, to whom we were indebted for the roster of that company, published by us last week, writes of an error or two which crept in and which we very cheerfully correct.

Pender Court. Capt. Swift Galloway, Solicitor of this Judicial District, arrived in this city yesterday, and proposes to go down the river to-day, in company with Judge Gilmer, who is to join him here this morning, to inspect the new Hotel Brunswick, and see if it fulfills the legal requirements in such cases made and provided.

Newbern Nut Shell. Dr. N. H. Street, from Trenton, who was in our city yesterday, tells a strange freak of the lightning at Trenton on Monday. A man working in one of the mills in the place had a lighted lamp in his hand, and was going about the house, when lightning struck the lamp, shivering it to pieces in the man's hand and doing no other damage.

Hot Enough. FOR AWNINGS, WE HAVE A FEW on hand, but will be ready to serve you in a few days, if you will leave orders at S. JEWETT'S, 27 N. Front St. Upholstering goods, Paper Hangings, Mattress material, Window Shades and Fixtures, Mosquito Nets and Fixtures on hand.

We always have our suspicions of a man who invariably takes his soda from the other side of the fountain. Ingenious men have tried to invent a spark arrester, but a pretty woman is the only article that succeeds in that line.

Fatal Accident. James Beasley, colored, was killed yesterday morning under the following circumstances: He was coming from the direction of Meares' Bluff, towards the city, on the track of the Wilmington, Columbia & Augusta Railroad, and when about half a mile from Hilton bridge, the 6:20 train on that road came along, and seeing him walking on the track, the engineer caused the bell to be rung, shut off steam and blew the whistle for brakes, but it was too late.

Found. The little son of Mr. George W. Corbett, who was lost on Saturday last, an account of which was given in the REVIEW of Tuesday last, returned to his father's house on the evening of Friday, the 22nd inst., safe and sound, although very tired and hungry. He states that he had been in the swamp all the time. When the storm of Saturday came up he took the wrong path, which instead of leading to his home took him farther from it.

Charlotte Observer: A peculiar case was reported yesterday by Officer Stephens, and as a hen story it takes the belt, yet withal it is true. One of Mr. Stephens' neighbors has a hen that, one month ago, began to cackle just like a hen does when she lays an egg, and since that time poor biddy has not been able to cease her song. Night and day she goes it, not even stopping to eat, but cackles between swallows. She sits on a pole in the hen house and has now become too weak to walk. Her cackling is kept up all night, as well as all day. It is a funny case, but it is all true.

Base Balls, BASE BALL BATS, PICTURE FRAMES, CHROMOS, STEEL ENGRAVINGS, PIANOS AND ORGANS. At HEINSBERGER'S. BANJOS AND GUITARS, ACCORDEONS AND VIOLINS, HARMONICAS & TAMBOURINES. At HEINSBERGER'S, Live Book and Music Store.

A physician declares that alcohol has killed more people than yellow fever. He forgets that more persons have taken it. A young lady attending balls and parties should have a female chaperone until she is able to call some other chap her own.

Freshwater Perch, Trout and Black fish hooks and lines. A full assortment and lowest prices at JACOBI'S. A Bad Cut. A correspondent at Fremont writes us of a serious accident which occurred in that neighborhood on last Wednesday evening.

Tarboro Southerner: The many friends of the Rev. Thos. R. Owen will be pained to learn that on Monday, the 5th inst., he had a stroke of paralysis, resulting in the loss of the use of his left arm. Mr. Owen is living with his daughter, Mrs. M. C. Gibbs, in Tennessee. The indications now point to a bolt by one White, (colored) of Newbern, for Solicitor against Collins. If the information that reaches us is reliable, and we have every reason to believe it, the dissatisfaction existing among the Republicans of this District to Collins is strong and wide.

Winston Sentinel: Mr. John Pink Charles, of this county, boasts of having raised the largest yield of oats from one grain, that has been heard of for many a day. From one grain there sprang 244 stalks and these produced by actual count 7,340 grains. At the recent term of Rowan Court the case of Mrs. O'Donnell, who sued the N. C. R. R. Company for the recovery of \$25,000, the amount placed upon the life of her husband, who was killed while in the Company's service, just beyond Lexington, in the Fall of 1880, the jury rendered a verdict of \$12,000 in her favor.

Ship Notice. ALL PERSONS ARE HEREBY cautioned a not forewarned against harboring or crediting any of the crew of Br. barquentine Indiana, Capt. Evans, as neither the Master or Co-shippers will be responsible for any debts contracted by them. C. P. MCBANE, Consignee.

Persons leaving the city for summer resorts or for travel can have the DAILY REVIEW mailed to their address for 35 cents per month, or 10 cents per week. It is reported here that Capt. Fred. Smalls, of Smithville, is negotiating for the purchase of a new steamer to be placed on the line between this city and Smithville.

Take it Easy. Be careful about sunstroke. The first fierce heats of the summer are always most dangerous, because they catch us unprepared. During times of excitement in very hot weather people are apt to forget their danger and remain too long exposed to the direct heat of the sun. It is best to slacken up the labors of business, particularly between 2 and 5 o'clock, and to avoid indulgence in stimulating beverages. But the old idea that water should be sparingly used is exploded. Drink what ice water you want, only do not take much at a time. Frequent sips of ice water are cooling and keep up the perspiration. Large draughts are, however, dangerous. The main thing is to avoid overwork and fret. Take it easy.

Fayetteville Examiner: On Friday last the turpentine distillery of Messrs. J. E. Elliot & Brother, located on Little River, fourteen miles north of this place, was burned in a singular manner. The distiller and wagoner, colored men, both in the employ of the Messrs. Elliot, got into a fight. The distiller knocked the wagoner down with an adze and tried to throw him into the kettle of boiling turpentine. The other, though disabled, made a desperate resistance. Meantime a barrel of turpentine got knocked into the furnace below, and everything was soon in a terrific blaze. The bystanders were too much occupied in quelling the fight to give attention to the fire, until it got such headway that it became uncontrollable. The Messrs. Elliot's loss is about \$200. They had just had the still repaired and remounted the day before this affair.
