Mr. Jacob Elsbach will leave tomorrow for the Warm Springs, where he goes to recuperate his failing health.

There was only one case before the City Court yesterday; that was an inoffensive drunk and down and the case was dismissed.

The Board of County Commissioners will meet in regular monthly session tomorrow afternoon.

The Cape Fear Steam Fire Engine Company will excursion to Charlotte tomorrow and will spend the Fourth in that town. The Company will leave its engine house at 4 o'clock in the afternoon and march to the depot.

Lieut. W. G. Ross, who was recently ordered to the *Colfax*, has arrived and is now on duty. He was detached from the schoolship S. P. Chase and assigned to duty at this station. We wish him a pleasant sojourn among us.

Water works pipes were put in the City Hall yesterday. A sufficient amount of rubber hose has been purchased to reach all around the building.

A Walking Match.

A couple of our Teutonic friends started on a go-as-you-please walking match from this city to the Sound, a few nights ago, and made the time in three hours. They rested about one hour and a half, and walked back to the city. One of them was so badly used up that he has been laid up, his feet being so swollen and blistered as to prevent him from standing on them.

Out Again.

Capt. J. T. Rankin, who has been quite sick for a week or so, has so far recovered, we are pleased to see, as to be able to appear on the streets yesterday. He expects to leave here tomorrow for the North, with the view of recuperating his health, and we trust that a few weeks away from Water street will bring him around again.

The Tax List.

The time for listing taxes closed last week. Only 3,925 persons listed their taxes, though the list shows that from 200 to 300 more persons listed this year than last. Col. Burr and his efficient corps of clerks are now hard at work codifying the list preparatory to turning it over to the city and county officials.

Ball Fountain.

Messrs. R. H. Grant & Co. are constantly receiving novelties in water and gas fixtures. The ball fountain attachment to the revolving lawn sprinkler which has been on exhibition in front of their establishment for several days past, has attracted considerable attention. All novelties in water or gas fixtures are gotten by them as soon as they appear in the Northern markets. They also have a nice lot of bath tubs on hand. See advertisement elsewhere.

Resigned His Position.

Mr. John D. Von Glahn has resigned his position in the post office in this city, and is to devote his attention to the art of designing and cutting garments. He will connect himself with Messrs. John Dyer & Son. Mr. Von Glahn is a young gentleman of fine taste and a great deal of originality, as has often been displayed in his elegant productions of new designs in scroll work. He is a young gentleman who has always given strict attention to business duties. We wish him every success in his new field of labor.

On the Guiteau Hanging.

Capt. Frank Wilkinson, as he held a REVIEW extra in his hand yesterday afternoon, said: Now, you see, them fellers don't know nothing 'bout hanging a man. If they had just ter have let me fix that rope, I could have done it up in style. I'd took a half hitch round the larboard bite of the noose, and that would have brought the loop forward of the belaying pin; then I would e'r put the slide under the port ear of Guiteau, a little to the east by south to west of the juglar vein and spinal cord of the vertebrose; that would e'r bring the vertex and vertex mussels to the larboard of the port right olfactory and sent it spinning around to the port of the kile vein.

Why, pshaw; when I was Lieutenant commanding in the Navy before the war on the flagship "Step-to-the-Leeward" I hung seven men from the horsepipes one morning for mutiny. When they fell they went down to the gaff. You know the "Step-to-the-Leeward" was brig-rigged and I used to have to hang a heap of men, but I've got tired of that kinder thing, but I don't like to see anything in my line of business badly done.

The First National Bank has declared a semi-annual dividend of three and one-half per cent.

The revenue cutter *Colfax* will fire a National salute, opposite Market dock, at 12 o'clock, on the Fourth. Lieut. Rhodes is a colossus on big guns.

A cart load of watermelons, which were raised on Topsail Sound, were in market yesterday morning. They were of the Cuba variety, and sold rapidly at from 40 to 75 cents each.

The fish market was poorly supplied yesterday afternoon. Fishermen state that there was almost too much wind yesterday morning for the boats to go outside.

Indications.

For the South Atlantic States clearing weather; winds mostly westerly; stationary or lower temperature; higher temperature.

Capt. E. Gabrielson, who has been in Washington, D. C., as a member of the Revenue Marine Examining Board, returned to this city last night. Mrs. Gabrielson accompanied him.

Don't forget the reunion of Company E, 18th Regiment, at Point Caswell on the Fourth. The steamers *Vesta* and *John Dawson* will leave their wharves at 5 o'clock.

A joint excursion of the Hibernian and Young Catholic Friends' Society will be given on the 4th. There will be music, refreshments, etc. A good time is anticipated.

"The Enterprise Band," a colored organization of this city, have ordered a new set of silver horns. They are expected in a few days.

The Phoenix Combination Brace, including patent Sleeve Supporters, sold for 25 cents, at DYER'S, is a great offer.

Tight Rope Walking.

Master Robt. A. Hewlett, the boy Blondin, will give an exhibition of his skill at Point Caswell on the Fourth. He is, possibly, the youngest tight rope walker in the country, and when the fact of his never having received any professional training is taken into consideration, he is truly wonderful. His special feature is a leap for life, in which it is said he excels.

One hundred lots of clothing, three suits to each lot, on which we propose to place special stress, as these lots contain the CREAM of our lines. Don't hesitate to come. We don't write advertisements just for the glory of the thing—but we want all to call and give us a chance to prove that we do as we advertise to do. At this stage of the season when stock is broken, price is of very little consequence, our main desire is to KEEP THINGS MOVING, and in order to do so successfully we take this method of reducing prices, and the reduction of stock is sure to follow.
