JOSH. T. JAMES, Editor & Prop. WILMINGTON, N. C.

Entered at the Postoffice at Wilmington, N. C., as second-class matter. EVENING.

MONDAY, JULY 24, 1892.

DEMOCRATIC TICKET.

REPRESENTATIVE-AT-LARGE: RUSSELL B. BENNETT, OF ANSON COUNTY. FOR CONGRESS—THIRD CONG. DISTRICT. COL. WHARTON J. GREEN, OF CUMBERLAND CO.

The nomination of Col. Wharton J. Green, our standard-bearer in this Congressional district, was greeted at Cumberland by the discharge of one hundred guns.

Some one who signs himself "The Man that stood by Hayes to the Last" writes a communication to the News and Observer, in response to a charge that he had "joined the Bourbons."

SHAM REFORMERS.

Early in the present session, says the New York Sun, Mr. Warner, of Tennessee, (Democrat) introduced a bill to reduce the salary of the President to \$30,000.

The bill was referred to the "Select Committee on Reform in the Civil Service," in which Mr. Orth, of Indiana, with the strong odor of the Venezuela job on his garments, is fitly Chairman, associated with "My dear Hubbell," assessor of officeholders, and oily Mr. Kasson, of Iowa, who is always ready with an excuse for the crimes of his party for the outrages of its leaders.

A very imperfect idea exists in the public mind as to the cost of keeping up the Executive Mansion since extravagance and vulgar display were introduced there during the era of Grantism.

Table listing expenses for the Executive Mansion, including compensation of the President, private secretary, stenographer, and various other costs, totaling \$145,664.

There are other items, mixed with different appropriations purposely to make confusion, from which the exact figures chargeable to the Executive Mansion cannot be separated.

White House. Often, only a portion of this fund was used, though the furniture was far better than any seen in the Executive Mansion of late years.

Last year the Sundry Civil bill contained the following items: "For care and repair of the Executive Mansion, and for furniture, thirty thousand dollars."

This year the Sundry Civil bill repeats these items thus: For refurnishing Executive Mansion \$30,000. Care and repairs of the Executive Mansion 10,000.

Now, if the house was refurnished last year, it certainly does not need a new outfit this year. The item of "care and repair of the Executive Mansion" goes in year after year without question, yet everybody knows, as in the case of the annual refurnishing, the money is not expended for these objects.

The White House is warmed, lighted, furnished and served by appropriations. The public receptions do not cost, the President a dime, and the only expense that falls upon him is the support of the household, his clothing, and such dinners as he may choose to give to persons in public life.

It is believed that Hayes carried away \$175,000 of the \$200,000 he received as Fraudulent President. A salary of \$25,000 is enough for the President; it never would have been raised but for the greed of Gen. Grant at the beginning of his second term.

Members of Congress average about five months' work in the year. They are really paid at the rate of a thousand dollars a month. Their transportation to and from Washington is liberally provided for. They receive \$125 each a year for newspapers and stationery.

Members of Congress average about five months' work in the year. They are really paid at the rate of a thousand dollars a month. Their transportation to and from Washington is liberally provided for.

The pay of a Congressman was originally eight dollars a day. Then it was raised to \$3,000 a year, and finally it was put at \$5,000. Distinguished Senators and Representatives have become millionaires without engaging in any other pursuit than politics.

Mr. Horr is a type of the average Republican Congressman, and a most proper associate for Mr. Orth, Mr. Jay Hubbell, Mr. Kasson, and the "rest of them," as Oakes Ames contemptuously described the fellow-plunderers associated with Garfield.

SHORTS.

Frank Simmons, the American artist, has in his studio room a nearly completed colossal statue of the late Oliver P. Morton, of Indiana.

Little Johnny, who has been observing the difficulty with which gored mosquitoes fly, relates to his little brother at the breakfast table: "If you eat so much you will die, Billy, and be an angel; but you won't be able to fly much!"

At a recent meeting of the Master Carbuilders' Association Mr. Forney said that from 1,300 to 1,500 railroad employes are killed, and from 5,000 to 10,000 injured every year, drawing from this the conclusion that the need of the day is an automatic coupler.

Mr. Raymond, of Cedar Falls, Iowa, had been in the habit for a few days last week of carrying \$150 in the inside pocket of a vest. Changing his vest one day he forgot all about the money; and a lucky thing it was, as burglars carried off the moneyless garment that same night, securing it from his bedside.

A peculiar system of mortgaging farms is used in Switzerland. A farmer may borrow of a dozen men successively, the simple record in an official book showing their order. If he fails to pay, a successor is found for him by beginning at the bottom of the list of debtors, and calling on each in his order to assume all the debts and manage the farm or step aside and lose his claim.

A forwarding agent in Berlin has been sentenced to ten years penal servitude and to pay a fine of \$375 for having attempted to forward by the Stettin railway a case containing an infernal machine. The clockwork acted too rapidly, and the explosion occurred while the case was in the station. He had largely over insured the goods.

An Editor's Gratitude. Eufula, Ala., June 14, 1890. H. I. Warner & Co.—Sirs: To the faithful use of your Safe Kidney and Liver Cure I attribute the permanent and gratifying cure of a painful stricture of the urethra, which has afflicted my son for seven long years.

SUNDAY'S TELEGRAMS.

WASHINGTON.

[By Telegraph to Daily Review.] WASHINGTON, July 23.—Alonzo Bell, Assistant Secretary of the Interior Department, yesterday tendered his resignation, to take effect upon the appointment of his successor. Secretary Teller has recommended the appointment of Merrick I. Joslyn, of Ills., to succeed Mr. Bell, and his nomination will undoubtedly be sent to the Senate tomorrow.

WYOMING TERRITORY.

Prompt Action of a Vigilance Committee.

[By Telegraph to Daily Review.] SAN FRANCISCO, July 23.—A dispatch from Portland, Or., says an unsuccessful attempt was made Friday night to burn the town of Seattle, W. T. The attempt was evidently made by a brother of Payne, who was lynched last spring by citizens of the place. At the top of the bell the Vigilance Committee assembled and hastily prepared a list of names of 20 prominent roughs, whom they notified to leave the place before light or abide the consequences. The order was obeyed and the town was cleared.

ARIZONA TERRITORY.

More Indian Depredations.

[By Telegraph to Daily Review.] TUCSON, Arizona, July 23.—A Globe City dispatch dated July 20, says: Mr. Lyby came in to-day from Wild Rye county, and reports that his brother and four other men were killed in Pleasant Valley. Three brothers, named Tewksbury, started from their rancho to notify Syby of the approach of Indians, but never reached Syby's place and it is supposed they and two men, named Frever and Wahan, were killed, as they have not been heard from. Two or three hundred Indians are reported on the Wasatch, in the vicinity of Pleasant Valley and Wild Rye county. Globe City is trying to equip a company to take the field. In the fight at Syby's four Indians were killed and at Tewksbury's six. Mr. Church was killed. Mr. Medley and his men, who went in search of cattle, are missing, and it is supposed that they also are killed. Reports state that from 60 to 80 Indians are camped on Coon Creek and are evidently bound down Salt river. Buildings have been burned, stock killed and driven off and crops laid waste, causing great loss to the settlers. The people are taking measures to protect themselves.

FOREIGN NEWS.

[By Cable to Daily Review.] LONDON, July 23.—The Observer to-day says: We understand that on Wednesday last the ultimatum was sent to the Sultan, asking him to state within twelve hours whether he was willing to send troops to Egypt, and that it was upon the receipt of an evasive reply to the ultimatum that the Government decided that the time for further delay had passed.

ALEXANDRIA, July 23.—The Khedive has signed a decree dismissing Arabi Pasha, and declaring him a rebel. He will also issue a general order, forbidding the Egyptian army to obey orders from Arabi Pasha, and forbidding the people to pay him their taxes.

The mail steamer from Constantinople, which arrived here this morning, has been embargoed and her captain arrested on suspicion that he was conveying letters to Arabi Pasha. The steamer is guarded by four steam launches from the British fleet.

The British have chartered two vessels to convey 300 mules from Cyprus. They will start for that port to-day. The Observer, in a special edition, prints the following: The proclamation issued by the Khedive asks the people to assist the English, who, it says, are promoting the real interests of Egypt.

The Mahmoudieh Canal has fallen 4 inches in the last 48 hours. Miscreants are still occasionally caught with balls in their possession which are saturated with petroleum.

SIMLA, July 23.—The Indian Government, replying to a telegram from England, on Tuesday last, stated that the Indian contingent for the Egyptian campaign could be embarked within a fortnight or three weeks.

PARIS, July 23.—Measures for the protection of the Suez Canal were discussed at the Cabinet meeting to-day and the necessary credit will probably be moved in the Chamber of Deputies to-morrow.

LONDON, July 23.—A despatch, received by the Exchange Telegraph Co., from Alexandria, says: It is understood that an English and French occupation of Port Said is projected. No water has been supplied to the public in Alexandria since noon yesterday. Admiral Seymour has ordered the machinery of all cotton presses to be used in condensing water.

LONDON, July 23.—Noon.—A dispatch from Alexandria to Reuters's, this evening, says the troops in Milabar, with 1,108 men and a battery of artillery, has arrived.

According to the latest news from Cairo there are 20,000 starving, homeless persons camping in Esbeck gardens. There is great mortality among them. It is rumored that the French marines have disembarked at Port Said, but it is impossible to verify the rumor there being no telegraphic communication. Arabi Pasha yesterday massed 700 cavalry with field guns at the pumping station of Ramlah water works. It is reported that his intention is to destroy the water works.

John Dillon, speaking at Mallow, said that if sixty honest members were returned to Parliament, to support Mr. Parnell, they would render the repression crime bill inoperative. For every man arrested under the bill they would waste two days in the House of Commons; when they were enabled to understand the working of land corporations they would organize such machinery as to defeat it.

While science cannot trace to its origin the vital spark, it can regulate nature's force. In all cases of disordered nerves, Dr. Benson's Celery and Chamomile Pills give comfort and tone. They cure dyspepsia, headache and aggravating wakefulness.

NOON TELEGRAMS.

WASHINGTON.

Democratic Senators in Caucus [By Telegraph to Daily Review.] WASHINGTON, July 24.—Noon.—The Democratic members of the Senate held a caucus this morning and resolved to insist upon a full and free discussion of all amendments to the tax bill and to oppose any attempt to reach a final vote upon the bill, unless such ample opportunity shall have been afforded.

FOREIGN NEWS.

[By Cable to Daily Review.] ALEXANDRIA, July 24.—Noon.—The Sixtieth Rifles marched to occupy Ramlah this morning. Some skirmishing is now proceeding, but no details have been received. The Thirty-fifth Infantry are ordered to support the Sixtieth. The bulk of Arabi Pasha's infantry are reported concentrated at Damietta, the troops at Kafr El Dewar being chiefly artillery and cavalry. The inspector of Cadastral Survey has arrived from the interior. He reports the total force of the Rebels at nearly 100,000. He says a volunteer cavalry regiment is forming to attack Alexandria.

A dispatch from Alexandria, in the second edition of the Daily Telegraph, says: Arabi Pasha's front fell back last evening to the other side of Ramlah, thus forcing the above mentioned operation on the British.

ALEXANDRIA, July 23.—Noon.—Ragheb Bey, second officer of the embargoed mail steamer, was arrested, and documents were found upon him, showing that for months he has acted as the agent of Arabi Pasha, for carrying communication between him and the palace, and the Pan Islamic Committee at Constantinople. Ragheb was taken before the tribunal, and upon being promised leniency if he fully confessed, gave a complete list of persons with whom Arabi Pasha was connected. The list includes the names of several influential persons at Constantinople. Ragheb also gave a list of Arabi's confederates in Egypt. A cipher letter to Arabi was found upon him.

LONDON, July 24.—Noon.—A dispatch to the Standard from Alexandria, says: The rifles and mounted infantry occupied Ramlah early this morning. They stationed one Gatling and one field gun at the bridge over the Canal. The enemy's cavalry appeared, and galloped boldly along the R. R. at 300 yards range, but fled upon a volley being fired. After a short time they reappeared with two guns with which they opened fire ineffectually upon the British, who took to cover. By 9 o'clock, the firing had ceased, but the enemy was expected to reappear with reinforcements.

Telegraphic Brevities.

Col. Arthur T. Collins, political editor of the Nashville American, has retired from that position.

A white physician was recently called by an Indian on Klamath Reservation, Oregon, to treat the sick son of the latter. The boy died and the Indian shot the physician dead and fled.

Commodore Shufeldt was at Yokohama, Japan, on the 6th inst., en route for this country with the Korean treaty. He states that his letter to Sargent, which has now become notorious, was not intended for publication, and that the latter was guilty of a gross violation of confidence in allowing it to be published.

Arabi Pasha recently gave orders to have the life of Napoleon I. translated into Arabic, saying to his friends: "Napoleon is my model. I will do more; he did not—no. I will do more; I will found an Arabian empire. He has also tried to play the role of a prophet by frequently quoting the Koran, and professing to have familiar interviews with the ghost of Mahomet. One day, a month ago, while on his way to the Mosque, he suddenly stopped and stared wildly at the air, as if seeing a vision. Then he stamped upon the ground and cried out that a gun was buried underneath the spot. Excavations were afterwards made, and, sure enough, a gun was found at a depth of several feet.
