Eight Sunday after Trinity.
Day's length 13 hours and 58 minutes.
Sunset this afternoon at 5 minutes past 7 o'clock.

One child was interred in Bellevue Cemetery during the week.
Peaches retailed in this city yesterday at 25 cents per peck.

One adult was interred in Oakdale Cemetery during the week.
We were shown a Blue polka dot tie that sells for 25 cents at Dyers.

Work on the new railroad warehouses on Nutt street is being vigorously prosecuted.

There were three adults and one child interred in Pine Forest Cemetery during the week.

Rev. Dr. Yates will preach at the Front Street M. E. Church this (Sunday) morning at 11 o'clock.

There is unmailable matter in the postoffice in this city addressed to Capt. R. Walker, Beaufort, N. C.

Freshwater Perch, Trout and Black fish books and lines. A full assortment and lowest prices at JACOBI'S.

The colored excursionists from Point Caswell all left here yesterday afternoon on the John Dawson on their return home.

The Rev. Wm. Buchanan will preach in the first Baptist church (colored) this afternoon at 3 o'clock. The public are invited to attend.

Rev. D. E. Bruton has been appointed, by Bishop Pierce, Presiding Elder of the Warrenton District in the place of Rev. Dr. Closs, deceased.

There were no transactions in the matrimonial market this week. The Register of Deeds says he has not issued a license since his last weekly report.

Dave Mallett was drunk and down Friday night and was taken in. His Honor the Mayor sentenced him to prison yesterday for one day for the offense.

Yesterday was a sweltering day. What a pity some of this superfluous heat cannot be bottled up and laid aside in the cellar and brought out for use next winter, just when it may be most needed.

Miss Emma Lineback, of Salem, who has been on a visit to Mrs. F. W. Foster, of this city, will return to-morrow. Miss Lineback is a musician of a high order of talent and is to take charge of the musical department of the Greensboro Female Academy, which opens on the 10th proximo.

Minnehaha.

We learn from the Agent of the Minnehaha that she will not be ready for use this morning as was at first thought. A new steel crank pin is being made and a new portion of shafting will be put in her. It is the determination of the owners not to let her leave her wharf until the machinery is in perfect order and no likelihood of its giving away.

Snuff.

The boys were "up to snuff" yesterday. A commercial tourist of generous impulses was riding around the city in a buggy throwing out samples of snuff and tobacco. As we came down Market street, a colored woman, who was almost breathless, stopped us and asked, "Whar's dat man dat's going 'way snuff?"

Personal.

Col. S. L. Fremont arrived here last night from Fort George, Fla., and will remain with us, in all probability, for the balance of the summer. Col. Fremont has been in charge of the government works of harbor improvements at the mouth of the St. John's River. The old contracts have been worked out and the work has been necessarily expended until the new appropriation becomes available. Fine results have been obtained from the work as thus far prosecuted.

"Send me a Leaf."

Here we have, from our great Southern Music Publishing House, a new song and chorus that will hold its own with the best of the old ones. The words are by Fanny Crosby, the blind Poetess, and the music by Danks, the author of "Silver Threads Among the Gold," which was so immensely popular. "Send Me a Leaf" is quite as good a song, and will be every bit as popular. Easy accompaniment for Piano or Organ. Sold by all music dealers. Or remit the price, 40 cent, direct to the Publishers, LUDDEN & BATES, Savannah, Ga.

The New York Steamers.

Beginning with yesterday the steamers of the New York and Wilmington Steamship Line will resume their semi-weekly schedule, sailing from both ports every Wednesday and Saturday. The Gulf Stream has been put back on the line and she was to have sailed from New York yesterday afternoon, the Regular sailing hence for New York last evening.

Venor for August.

Venor makes the following predictions for August. He is evidently determined to keep people at home this summer:

I cannot but think that August will be another month of storms and unusual rain fall, with one or two remarkably low curves of temperature. I expect that snow falls will be recorded in extreme Western and North-western sections, and cold rains at more Southern stations shortly after the middle of the month. October will be very similar, but, of course, colder.

A Noisy Ghost.

There seems to be a poor, deluded ghost, which has escaped from a lunatic asylum in Ghostland, perambulating about this city, but he confines his operations almost exclusively to the residence of a gentleman who is in the newspaper business. What he expects to get from the home of a type is more than we can surmise, and before he gets through with his midnight reveries and ceases ruminating over the mutability of human affairs, he will find he has a hard row to hoe. His ghostship is not at all regular in his habits, and does not try to move about the house like a man who was coming home late at night from "the Club." He does not even always choose the usual means of entering a house, as a sensible ghost should, but is frequently heard shaking the windows in a most violent manner. He skips like a flash from window to door and pounds and shakes it most unmercifully. Several attempts have been made to capture this fleeting spirit from the other shore but without avail. The watchers have heard and seen the windows shake and the doors rattle but could see no cause for such demonstrations and they are at a loss to account for the noises. It isn't a scary ghost either. He defies the watchers and shakes the windows by which they are standing. He will rap the door facing over their heads as if he were mad and wanted them out of the way. He stands by his persuers and makes the strangest noises and suddenly leaves them in wonder and amazement at his performances.

A. A. Willard in the hardware line can be found at reasonable prices at JACOBI'S.

Exports Foreign.

Nor. brig *Haidt*, Capt. Neilsen, cleared yesterday for London with 1,633 casks spirits turpentine, valued at \$35,918, shipped by Messrs. D. R. Murchison & Co.

For Asheville.

For George R. Dyer, Business Manager of the Arion Musical Society, will leave here on Tuesday morning for Asheville, to make arrangements for the appearance of the Society at Asheville on Monday, the 7th. The Society will leave next Saturday and will be absent about two weeks.

Errata.

The postoffice at Bogue, on the W. C. & A. R. R., has not been discontinued, as we were informed, and so stated, a few days ago. A postoffice was established at Smithsburg and the mail crank was taken from Bogue and carried to the other place. The train now stops at Bogue.

Spanish Mackerel.

Mr. Jas. M. Hewlett was in market yesterday with a large lot of fine Spanish mackerel, which are still almost a rarity here. He caught 60 bunches of these and 448 bunches of skipjack, or blue fish, yesterday off Masonboro Sound. The mackerel are said to be superior to those caught off the Northern shores and pickled and sent South.

Arrest of the Horse Thieves.

Joseph and James R. Teboe, the two brothers who stole a horse and buggy from Messrs. Merritt & Hollingsworth, of this city, about ten days ago, were arrested at Abbottsburg yesterday. Officer Bunting, of this city, has gone after them. He may arrive this afternoon, with his birds. We understand the Teboe brothers are wanted on two or three charges. They forged the name of a gentleman of this city, and "raised the wind," and are charged with larceny in Columbus county.

Open for the Reception of Guests.

The Seaside Park Hotel at Wrightsville is open for the reception of transient guests. It is under the management of Mrs. Jane W. Hewlett, a lady well qualified, by her long experience, to conduct a first-class house. Persons driving to the sound to spend the day, or going down to spend an evening will find that the table is well supplied with sound delicacies which will be served in good style. The culinary department is presided over by an excellent cook who knows exactly how eatables should be prepared. The hotel is open to the sea breezes and commands a fine view of the ocean.

Don't Die in the House.

"Rough on Rats." Clears out rats, mice, roaches, bed-bugs, flies, ants, moles, chipmunks, gophers. 15c.

A New Enterprise.

Col. T. F. Toon, of Columbus county, was in the city yesterday in furtherance of a work of improvement he has on hand now at Fair Bluff. Having resigned the position in the Construction Department held by him on the Wilmington, Columbia & Augusta R. R., he must needs have some work of the kind on hand, and so is now engineering the completion of a scheme which the citizens of a part of Robeson and Columbus counties have long desired. This is the construction of a road through the dense Ashepole and Lumber River swamps, so as to give an outlet at Fair Bluff to the people of the lower part of Robeson county. This road will be only four miles in length, but a great deal of work will be required to properly construct it, as it will be necessary to corduroy it all the way, and to raise it above high-water mark. The expense is to be borne by subscriptions among the people of that section. The Wilmington, Columbia & Augusta R. R. Company has also contributed to the scheme. It is calculated that the freighting business to Fair Bluff will be largely benefited by the construction of this road.

Our remarks of a few days since, relative to the condition of the Eastern half of Market street, has had its effect, and a petition will be presented to the Board of Aldermen at their next meeting, asking that the street be put in better condition for vehicles.

We are persuaded that the ancient Hermes with all the subtle art and natural resources of the Alchemists, was a very poor doctor compared with Mrs. Lydia E. Pinkham, of Lynn, Mass. Hermes may have been after all only a clever practitioner of the Black Art; but we know there is no humbug in the pharmaceutical chemistry of Mrs. Pinkham's Vegetable Compound.
