HEINSBERGER—Will H Rain or Shine To-morrow?

The receipts of cotton at this port yesterday foot up 105 bales.
Watermelons and canteloupes are abundant in the market now.
The repairs to the *Minnehaha* have been completed, and she will be ready to resume her regular trips to-day.
Messrs. Aaron & Rheinstein are making some improvements to the front of their building on North Front street.
We've got to take it back. It wasn't the *Gulf Stream*, but the *Benefactor*, which left Tuesday night at the New York wharf. The former boat was to have left New York yesterday afternoon.

Anything in the hardware line can be found at reasonable prices at JACOBI'S.

We are requested by Thos. J. Lee, President of the Farmers' Association, to state that the picnic, which it was understood would take place at Croom's Bridge, in Pender county, on the 26th inst., has been postponed.

Many of those who came in on the excursion train yesterday availed themselves of the opportunity offered by taking a trip down the river to Smithville and the Forts, on the steamer *Passport*, which was in waiting for their accommodation.

Every fashionable gentleman wears the monarch shirt bought from DYER.

A gentleman who was in the city yesterday, from up about Laurinburg, verifies the reports which have been heretofore published regarding the excellent crops along the line of the Carolina Central Railway. He says the farmers are jubilant over the prospects.

Experiments have been made in extracting sugar from watermelons, and it has been ascertained that they contain seven per cent. of saccharine matter, or pure sugar, and that an acre of good land would produce 34,500 pounds of melons, from which 2,415 pounds of sugar could be extracted, worth, at 10 cents, \$241.50.

For tremulous, wakefulness, dizziness, and lack of energy, a most valuable remedy in Brown's Iron Bitters.

Death of Mr. Walter Furlong.
We are pained to announce the decease of Mr. Walter Furlong, which occurred last evening at his residence in this city. He was one of our well-known citizens, though of foreign birth, and has, for a number of years been the Engineer of the Howard Relief Steam Fire Engine, in which position he was very efficient. His interment will take place this afternoon, and he will be followed to his last resting place by the several organizations of which he was a valued and esteemed member.

Drowned.
A colored girl by the name of Nixon was drowned yesterday in the creek at Wrightsville Sound, opposite Mr. W. R. Giles' place. She was crossing the creek on Mr. Giles' gangway and fell off into the water and was drowned before help could reach her. She was seen to fall by Uncle Prince, at Mr. Latimer's place, and he at once rushed to her rescue but before he could reach the spot she had disappeared. At last accounts the body had not been recovered.

Cutting Affair in Pender.
On Sunday evening last Mr. T. C. Orr, a quiet and good citizen living about a mile from the village of Lillingston, Pender county, attempted to correct a refractory and unruly son of about 17 years, when the boy turned upon him with a knife, almost disemboweling the old man. A severe cut is in the region of the left lung, and another, still worse, is lower down on the same side just above the hip.
Dr. George F. Lucas is attending the sick man, and expresses much fear as to the result of his injuries.

Bennett-Green Club.

The Democratic citizens of New Hanover county are cordially requested to attend a meeting to be held at the Court House this evening at 8.30 o'clock, on which occasion a

Bennett-Green Club

is to be organized for the campaign. This is the first gun. Let it be heard. Several good speakers will address the meeting.

G. J. BONEY,
Chairman Co. Ex. Com.

Golden Days.

The August number of this charming monthly is at hand and its contents are as usual rich and varied, and the illustrations, of which there are many, are very fine. *Golden Days* is published for the benefit of the boys and girls but the older folks cull much enjoyment from its pages. Published by James Elverson, Philadelphia, at \$3.00 a year.

Bloody.

A bloody difficulty occurred this morning at the City Pound between two colored men, one from the country and the other from the city. The former was struck on the forehead with, it is alleged, a pair of brass knuckles, and the claret flowed very freely. We suppress the names by request. The case will be carried to the Criminal Court.

Scrimmage on Dock Street.

There was a very exciting scrimmage yesterday afternoon on Dock street, between Front and Water, the combatants being Jno. H. Giles and Doty Telfair, both colored. Dray irons, knives and razors figured in the fray. The parties were arrested on warrants issued by Justices Millis and Gardner, in the serving of which the officers who carried them became nearly involved in a row with each other.

To Builders and others—Go to JACOBI'S for Sash, Blinds and Doors, Glass, &c. You can get all sizes and at the lowest prices.

Infants in Hot Weather.

It is an undisputed fact that the summer is the most critical period in the lives of infants and young children, and hence the following, which we find in the *New York Sanitarian*, will be read with interest. The *Sanitarian* gives ten rules for the care of the little ones, the first of which is that an infant should not be weaned between May 1 and October 1, if it can be avoided. The others are as follows:

Second. All children under two years old should, if possible, be taken to the country during hot weather.

Third. The great mortality among infants is mainly due to diarrhoeal diseases caused by errors in diet, heat and impure air. Beware of overfeeding; it is not necessary to feed an infant to quench thirst; a little pure, cool water or barley water is often much better for the child than milk.

Fourth. Feed the child at regular intervals—every two or three hours until it is a month or two old, after that every three or four hours, and during the night less often. Do not allow the child to go to sleep while nursing.

Fifth. Do not use any patent infant foods except when prescribed by a physician. Do not use any complicated nursing bottles having tubes and joints, unless extra precautions are taken as to cleanliness. A common twelve ounce bottle with a nipple of black rubber is satisfactory. As soon as used, the bottle and nipple should be thoroughly rinsed and then kept entirely under water until again wanted. They should never be allowed to get dry.

Sixth. The food for infants recommended by the New York board of health is the best and cheapest. It is prepared as follows:

"Boil a teaspoonful of powdered barley (ground in coffee grinder) and half a pint of water, with a little salt, for fifteen minutes, strain and mix it with half as much boiled milk, add a lump of white sugar size of a walnut, and give it lukewarm. For infants five or six months old give half barley water and half boiled milk. For infants very cooive use oatmeal instead of barley, cooking and straining as above."

Seventh. Give well children an all-over wash or bath with cool water twice a day. Give them as much fresh air as possible and keep them cool, but be careful that in a sudden fall of temperature they do not get chilled. Light flannel clothing next the skin is better than cotton.

Eighth. Beware of bad smells about the house, but remember that it is not the smell itself that is dangerous, but what it is a sign of, and therefore try to discover and remove the cause of the smell, whether it be a leaky soil pipe, a foul sink or garbage box, a filthy cellar, or gutter, or yard, or what not.

Ninth. If the child has diarrhoea, consult a physician at once, and do not waste time with domestic remedies.

Tenth. Let those who have no children to care for, try to help the thousands who have, but who are too poor to give them a chance for life, by taking them where they can have a few hours enjoyment of fresh, pure air.

Steam on the Ferry.

A little yacht steamer was attached yesterday afternoon to one of the Market Dock ferry flats, for a trial trip, to see how steam would answer for ferrying purposes. The steamer, the *May*, took the flat across in just two minutes, clearing the landing on one side and tying up on the other in that time. It was voted a success.

Magistrate's Court.

Justice J. C. Millis yesterday disposed of the following cases, to-wit: Ed. Robbins, assault and battery upon Elias Halsey. Defendant submitted, and judgment was suspended on payment of cost.

Elias Halsey, assault and battery upon Ed. Robbins. Defendant submitted, and judgment was suspended on payment of cost.

Speaking at Smithville.

Hon. R. T. Bennett, the Democratic candidate for Congressman-at-Large, who is to speak at Smithville, on Saturday next, is expected to arrive in this city on Saturday morning. The steamer *Minnehaha* will wait beyond her usual hour of departure for the purpose of conveying him and others who may desire to attend, to Smithville.

It is not yet positively known whether Judge Bennett will speak in this city during his present visit to this section of the State but efforts are being made to induce him to do so.

The Excursionists.

The excursion train, notice of which has been frequently made in the *Review*, arrived yesterday in due time. Some time before the train was due numbers of our citizens, together with a swarm of the irrepressible, ever-present small boys, of the colored persuasion assembled at the Front street depot to witness the arrival of the excursionists, and to greet and welcome expected friends and relatives. The arriving strangers numbered, as we estimated, between 300 and 400 persons, among whom were quite a number of ladies. There were but very few colored people among them, and they of the decidedly better class. We noticed quite a number of familiar faces, but there was a "right smart sprinkling" of strangers, some of whom had evidently never been in the city before. We wish them a pleasant time while in our midst, and that, upon their safe return to their several homes, they may feel satisfied that their time and money have been well expended in their trip to Wilmington.

Pic-nic at Mill Branch.

For the Review.
BURGAW, July 27, 1882.
MR. EDITOR: It was my great pleasure to be present at a pic-nic on the Point Caswell Road, at a place called Mill Branch. Early in the morning the crowd began to come in, and by 12 o'clock they had fully assembled together, with the young and the old, and mingling in that assembly were some of the fair daughters of Pender county. The Woodcock band, the only organized band in Pender, was in attendance and discoursed lively airs of sweet and varied music, to the ears of the eager spectators who were impatiently awaiting the signal of "get your partners."

At one o'clock, dinner was spread out in the beautiful grove, selected for the occasion. Baskets, boxes and trunks were teeming with what was substantial to the "inner man."

Mr. Editor, your correspondent regrets you could not have enjoyed those nice things prepared by our good ladies. Our worthy friend, Mr. R. B. Frayer, being present was called for and came forward with his usual smiles and made a most excellent speech on the different topics of the day. Dancing was kept up by our young friends until a late hour. Then it was resolved by the committee to have an annual pic-nic at Mill Branch. Much credit is due our worthy young friend, Mr. Henry Vollers, for the manner in which everything was conducted.

THE MAILS.

Thermals close and arrive at the City Post office as follows: CLOSE.
Northern through mails, fast.....4.45 P. M.

General delivery open from 8.30 to 10.30 A. M. and on Sundays from 1.30 to 5.30 P. M.

STATE NEWS.

Greensboro, Aug. 2. Miss Painter, the female revivalist, has been preaching at Marion, and, as a result, there is a great religious awakening, and many conversions of souls.

Newbern Journal: A new hotel is to be erected at Morehead City, near the Atlantic Hotel, to be ready by the opening of the next season. It will contain about forty rooms, and will be conducted on the European plan. Mr. F. L. Perry, who has much experience as a hotelier, will conduct it.

Greensboro Patriot: The bright, hot suns are making a magnificent corn crop. A resident of Pine Hill says that he has not been able to sleep for several nights on account of the noise made by the corn growing in his garden. By actual measurement it has grown three feet since Friday.

Rutherfordford Banner: The longest beet this year has been sent in by Mr. A. E. Miller, measuring 23 inches in length and 10 inches in circumference for more than half its length. From all sections of the country, except Upper Camp Creek, we hear that good rains have fallen, and the prospect for a large crop of corn is encouraging.

Durham Plant: While threshing wheat at Mr. Ebert Glenn's, last Saturday, George Riley had the misfortune to break one of his arms below the elbow. A band ran off and he attempted to replace it without stopping the machine, resulting in a broken arm.

In June last, at his residence in Durham county, Mr. Herod Stahley died, in his 81st year. He had lived a long life and raised a family of interesting children. Four sons and four daughters survive him, who mourn their loss. A destructive hail and wind storm struck Durham last Friday afternoon. The hail stones were very large and did considerable damage. The tobacco crop of Capt. T. B. Lyon was seriously damaged by the hail and wind, and his loss is estimated at several hundred dollars. A Mr. Rigbee had a fine field of corn north of town that suffered very materially. In some instances window glass were broken out and other damage done to buildings.

Charlotte Observer: The bicycle riding will be a big feature of the Popular Tent fair. Four riders from Salisbury, eight from Charlotte and one from Concord will enter the race. Mr. W. B. Starke, a well-known young man of Salisbury, and one of the railroad boys at that place, met with a very painful accident on his bicycle, a day or two ago. His leg became caught in the wheel as he attempted to execute a "hoist over the handle," and the result was a rough header to the ground. His leg was severely bruised and the muscles were painfully contracted, necessitating a surgical operation to relieve the contraction. No bones were broken.

Sunday evening the heaviest down-pour of rain known this year, visited the city about seven o'clock. It verily seemed as if the bottom had dropped out of the clouds. The rain lasted only a short time, but many of the streets were flooded and the railroad tracks at the Air-Line depot were under four or five inches of water. The total amount of rainfall Sunday evening, as recorded at the signal office in this city, was 2.08 inches. We learn that the rain was general all along the line of the Richmond and Danville, as far as Greensboro. Yesterday afternoon a steady soaking rain set in. The farmers are in the happiest sort of spirits and are calculating the result of their corn and cotton crops in big figures.

News and Observer: Col. Richard Dodge, United States Army, lately of Gen. Sherman's staff, is visiting relatives in this State. He is a native of Stokes county. A physician yesterday remarked that during the months of June and July the mortality among infants here was only about one-sixth that of either of the past two seasons.

A correspondent writes us that Hon. K. P. Battle, on the invitation of Professor Spinks, the energetic and able superintendent of public instruction of Stanly county, delivered an excellent address on education at Albemarle on the 29th. Prof. Spinks has just closed an excellent teachers' institute, at which all but three or four of the teachers of the county were present, eagerly learning. He was ably assisted by Prof. William B. Phillips, of Stanly, Hamilton and others. Our correspondent at Morehead writes: "A very exciting incident occurred Friday. Miss Haywood and Miss Morehead were outside of the bath-house, indulging in a swim. Miss Morehead swam beyond her depth, became panic stricken and sank. She rose to the surface and called for help. Dr. R. B. Haywood was standing on the bridge, and seeing that not a second could be lost, mounted the railing of the bridge and plunged into the water. He soon reached the lady, but being encumbered with boots and clothes found great difficulty in reaching the steps with his charge, but finally got her out. On landing his charge a lady rushed up to him with tears streaming from her eyes, and said: "You are a hero." "Well, madam," said he, "you have no idea how little like a hero a man feels when he has on wet clothes and his boots full of water." The Doctor received a perfect ovation from the ladies in the ball-room.

"Buchupalpa,"
Quick, complete cure, all smaying Kidney, Bladder and Urinary Diseases, \$1. Druggists Depot, James C. Mands.

"How do you Manage," said a lady to her friend, "to appear so happy all the time?" "I always have Parker's Ginger Tonic handy," was the reply, and thus keep myself and family in good health. When I am well I always feel good natured." See other columns.

Democratic Mass Meeting.

There will be a Democratic mass meeting at Smithville on Saturday, August 5th, at which time speeches will be made by GOV. T. J. JARVIS and COL. WHARTON J. GREEN, Democratic candidate for Congress.

Col. B. T. Bennett and other distinguished gentlemen have also been invited.

The steamers *Passport* and *Minnehaha* will run excursion trips on that day. Fare for the round trip 50 cents.

V. V. RICHARDSON,
Chairman Dem. Cong. Executive Committee.

DIED.

FURLONG—On Wednesday, the 2d inst., at 8.30 p. m., WALTER FURLONG, aged 50 years.
