If the correspondent had but extended his visit to Wilmington we could have told him something.

Col. Dockery, the man whose light was so effectually put out by Colonel Waddell in 1870, asserts that the State will go Republican by 30,000 majority. This is a modest computation. It means that the Radical army of 10,000 white men will receive 42,000 recruits In two months. It is a moderate boast but then, Mr. Dockery is a modest man. He was satisfied with claiming to say, only \$1,200. The people use 3,000 majority for himself in this distriet in 1870, when, in fact, Col. Waddell beat him by nearly 400 majority, showing that Dockery, as a calculator, which puts \$8,000,000 a year of the peorates only about 300 per cent. below zero. In this instance he will be almost as much out of the way.

But enough of this, for to-day. We may resume our comments on the Herald letter at another time.

THE REAL FACTS.

The great cry among the Republican politicians of the North has been for a "free ballot and a fair count" for the colored voters of the South. In season and out of season, in the halls of Congress, on the stump, from the pulpit and through the columns of the press this has been the cry which has been rung from one end of the land to the other.

of personal risk as do the white men .-The votes are counted under the intelligent scrutiny of men of their own party, and generally of men of their own race and color, and all the talk we hear head, whole heart and faithful stemach. from the North regarding the personal risks which a colored man undergoes in exercising his right of suffrage is the veriest bosh, nonsense and falsehood .-This is the rule which obtains through-South knows it.

There is an exception, however, which it is proper and just to note at this juncture; and that is, that any colany other ticket in opposition to the will of the party leaders, would not be safe, either in his person or property, from violence at the hands of men of his own race and color. This is a fact as well known as the one which we first stated, and we doubt if colored Republicans would deny it.

Of these, the people we mean, there are fifty millions in the United States. There are in Massachusetts, Rhode Island and New York United States. There are in Massachuabout a dozen blanket factories. To enable these dozen factories to compete with foreign factories, a tariffduty averaging 90 per cent. is levied on all imported blankets under the plea of raising money to support the government. The result is no blankets, that is to say only \$1,400 worth are imported, and the government gets no revenue, that is \$20,000,000 worth of blankets a year, averaging \$5 a pair. The average price would have been \$3 but for the tax ple's money into the pockets of the owners of the dozen factories. Is it not time to think of the fifty millionn of people?

MISCELLANEOUS

Malaria is an almost indescribable malady which not even the most talented physicians are able to fathom. Its cause is most frequently ascribed to local surroundings, and there is very little question, but this opinion is substantiated by facts. Malaria does not necessarily mean chills and fever while these troubles usually accompany it. It often affects the sufferer with general lassitude, accompanied by loss of appetite, sleeplessness, a tired feeling and a high fever, the person afflicted growing weaker and weaker, loses flesh day after day, until he becomes a mere skeleton, a shadow of his former self.

Malaria once having laid its hold upon the human frame, the door of the system is thrown open to nervous diseases. The body weak and enfeebled absorbs no nourishment, but subsisting upon itself, the digestive organs no longer perform their functions; the liver becomes torpid, and other organs failing to do their routine work, speedily become disordered, and dissolution and death are apt to ensue.

In addition to being a certain cure for malaria and chills and fever, BROWN's IRON BITTERS is highly recommended for all diseases requiring a certain and efficient tonic; especially indigestion, dyspepsia, intermittent fevers, want of appetite, loss of strength, lack of energy, etc. Enriches the blood, strengthens the muscles, and gives new life to the nerves. Acts like a charm on the digestive organs. It is for sale by all respectable dealers in medicines, price, \$1 per bottle

Be sure and get the genuine BROWN'S IRON BITTERS. Take no other.
