We regret to learn that there is no improvement in the condition of Mr. Jas. G. Bradley. The quarterly meeting of Clarendon Council No. 67, A. L. of H., will be held this evening.

There is a good deal of light sickness prevalent here now and the physicians are all kept very busy. Col. Wharton J. Green will address the Third Ward Democratic Club, at the City Hall, this evening.

The magistrate's courts ground out trivial assault and battery cases yesterday which were dismissed upon the payment of costs. Anything in the hardware line can be found at reasonable prices at JACOBI'S.

THE DAILY REVIEW.

VOL. VI. WILMINGTON, N. C., FRIDAY, SEPTEMBER 22 1882. NO. 226

River Thieves.

Cotton thieves ply their occupation in this city nearly every night. They have reduced the thieving down to a fine point. It is thought that they go noiselessly up and down the line of wharves in a boat and steal cotton from each bale which is left on the wharves over night. Would it not be well to have a river police boat and track the thieves?

The Name.

The name "Jimmies," as applied to a salt water fish which is brought to this market, is a local name only. Their proper name is "spot." The name of "Jimmie" was given them by reason of old Jimmie Johnson, a very successful fisherman, seldom bringing any other kind to market. For a long time they were called "Jimmie Johnsons," then "Jimmie fish" and now "Jimmies." The fish known to us as Virginia mullets are "whittings" everywhere else. We do not know how they received that name.

Personal.

Mr. Sol. Bear returned to the city Wednesday night after nearly a month's tour in the northern markets. He purchased largely and the goods are arriving every day. Mr. C. W. Yates, bookseller and photographer on Market street, returned Wednesday night from a two weeks' visit to New York. He picked up many new and useful and pretty things on his trip which will be displayed in a few days.

Miss E. Karrer, who has been North for some weeks past selecting her Fall and Winter stock, has returned to the city. She has spent much time and spared no pains in making her selections, and will have some very pretty things for her customers to look at in a few days.

Another Circus.

The circus fever is raging. It has principally taken hold of the small boys. Myers, Everett & Cowan's grand aggregation and monster moral show will give an exhibition in the back lot of the residence of Capt. C. D. Myers, on Chestnut street. Master Charles Myers is manager, Ed. Everett clown, and Robert Cowan ring master. They tell us that from the entrance of its vast zoological garden to the exit of its Rome-eclipsing arena, everything challenges attention and admiration, while the elegance and decorum with which every department of the great confederation is conducted secures the patronage and approval of the most refined, and attracts numbers who are not in the habit of attending public entertainments of any description. The price of admission has been placed at 5 cents with no extra charge for reserved seats.

I. O. O. F. News.

At the meeting of the Grand Lodge of the United States, at Baltimore, twenty-seven grand lodges and twenty-six grand encampments are represented. The progress of the order during the year 1881 has been, in every particular, highly gratifying. The membership, notwithstanding heavy losses by death and suspension, has been largely increased. Lodges have been multiplied, benefactions have been augmented, and the means of discharging the duty to the sick and afflicted have advanced and kept pace with the growing demands upon the order, and it is stronger and better to-day than in any former period of its history. Returns for 1881 show the condition of the order to be as follows: Grand lodges 50; subordinate lodges, 7,308; increase 136; grand encampments, 41; increase 1; subordinate encampments, 1,839; decrease 18; lodge initiations, 45,560; increase 4,016; lodge members, 475,648; increase 19,006; encampment members, 80,643; increase 1,145; total relief \$1,831,171.38; increase \$135,193.16; total revenue, \$4,854,877.17; increase \$236,030.

A Lucky Accident to a R. R. Station Master.

Mr. J. A. Burks, the Station Agent at Robeline, was the lucky holder of one-fifth of ticket No. 56,021, which drew the capital prize of \$75,000 in the Louisiana State Lottery Drawing of August 8. He forwarded the ticket to N. O., and the sum of \$15,000 was paid in cash. He is a comparatively young man; has a wife and two children, and is a native of Sonora, Ky., where he owns some real estate. He takes his good fortune quite nonchalantly, and in a sensible manner will retain his present position for some time to come. This is but one of the invariable instances showing that the Louisiana State Lottery Company deal honestly with the lucky holders of tickets drawing prizes in the wheel of fortune. —Natchitoches, La., People's Vicindicator, August 19.

Yom Kippur—Day of Atonement.

This is one of the most sacred days in the Jewish Calendar. It is on the 10th day after the Jewish New Year. Our Israelitish friends will on this day abstain from all labor, and will not eat or drink from sunset this evening until sunset to-morrow. Divine and solemn services will be held at 6 o'clock this evening, and to-morrow morning at 10 o'clock and continue during the entire day. The public are invited. Seats free. Rev. Mr. Mendelsohn will deliver three sermons.

Robeson County.

A special to the DAILY REVIEW, from Lumberton, gives the result of the deliberations and balloting of the Robeson County Democratic Convention, held in that town yesterday. The following ticket was nominated: For Representatives—W. P. Moore and H. H. Hodgins. For Clerk of the Superior Court—C. B. Townsend. For Sheriff—F. J. Floyd. For Register of Deeds—W. Wishart. For Treasurer—W. W. McDiarmid. The ticket is a strong one and will be elected. Entire harmony prevailed throughout the proceedings. Col. Bennett and Mr. Dowd addressed the multitude. Great enthusiasm was manifested.

Frank Leslie's Popular Monthly for October.

The great excellence and the remarkable cheapness of this periodical have secured for it, deservedly, an immense circulation. The present number is exceedingly interesting, entertaining, and full of general information. "England's Only Living General" (Sir Garnet Wolseley), by Alfred H. Guernsey, is an admirable and timely article. It has seventeen illustrations. Among other notable, profusely illustrated articles are: "A Visit to the Phosphate Fields and Hills"; "A Visit to Palermo"; "The Last King of Tahiti"; "The Mariner's Compass," by Wm. Durham, etc. A new serial by M. T. Calder, "A Whited Sepulchre" promises to be deeply interesting; "The Letter 'S'; Or, The Jocelyn Sin," is concluded; and there are short stories, sketches, etc., by S. A. Weiss, A. E. Barr, Margaret F. Aymar, etc.; poems (mostly illustrated) by popular writers, and a miscellany embracing a large variety of subjects, affording very delightful and instructive reading. The embellishments are even more than usually numerous, and are meritorious works of art; the colored title-page, "The Sultana and her Attendant," is very beautiful. The price of a single number is 25 cents; yearly subscription, \$3 postpaid. Address FRANK LESLIE, Publisher, 53, 55 and 57 Park Place, New York.

STATE NEWS.

Raleigh Visitor: A large barn filled with forage, the property of J. Q. Williams, of Cary, was consumed by fire this morning between 2 and 3 o'clock—the work of an incendiary.

Wilson Staffings: We are pained to hear of the death of Mr. Theophilus Pitman, at his home in this county, near Saratoga, Sunday morning, the 17th inst. He was a good citizen and an excellent man.

Lenoir Topics: The effects of the storm last week are quite serious in all the surrounding counties; the fields of corn and cane were flattened by the tornado, the fruit was blown from the trees and in some sections fences and forest trees were prostrated by the gale which was the heaviest experienced here for years.

Catawba Mercury: We were shown a number of leaves of tobacco, raised and cured by Mr. Wm. Turbyfill, near this place. The specimen shows very fine, and fully demonstrates that tobacco raising is a success in this section. Mr. T. cultivated two acres in tobacco this year and expects to realize \$200 for his crop. It is his first trial at the business.

Greensboro Patriot: Assurance of a late frost will give us a second crop of blackberries. Astounding as this statement may seem it can be verified. At Odell & Co's, yesterday, we saw a bunch of berries of the second growth almost matured. Some of the berries were quite ripe, while all were in an advanced state of maturity. If frost is delayed two weeks there will be plenty of new blackberries.

Laurinburg Enterprise: Nearly all house servants are leaving their employers to engage in cotton picking. A good cook commands from three to five dollars a month and board, which is equivalent to \$12 or \$15 per month, and yet she will go in the cotton fields and pick from one to two hundred pounds of cotton per day, earning 50 cents or a dollar, out of which she boards herself.

Charlotte Observer: Yesterday was a big day in Concord for the Democracy. Col. Waddell, Mr. Frank Osborne and Maj. Dowd addressed a large gathering in the court house, and their speeches enthused and strengthened the Democracy of that good old county. Yesterday evening, Mr. Walter P. DeArmond, a young man of Mallard Creek township, was brought to the city and taken on to Raleigh under charge of Dr. J. M. Wilson, to be placed under Dr. Grissom's treatment in the asylum. News and Observer: On Saturday

a negro man at Apex lost his hand in an accident at the cotton gin of Harward & Hunter. It was torn off, and he bled to death, dying on Sunday. Mr and Mrs D B Avera returned from a long bridal tour yesterday. They left Raleigh on the 10th of June, made a trip through the British Isles and the Continent of Europe and, returning to this country, spent a month at Northern pleasure resorts. At the Insane Asylum a lofty brick tower is being built. Air will be drawn down it by a fan driven by an engine and will then be forced through pipes all over the buildings. It is thought best to take the air at a distance above ground, as it is purer, hence the height of the tower.
