The remains of Mr. James G. Bradley were followed to their last resting place at Oakdale Cemetery, yesterday, by a large concourse of sorrowing friends and bereaved relatives.
Mr. George B. Myers, who has been confined to his residence by sickness, has so far improved as to be able to appear on the streets again. We are pleased to learn that his brother, Mr. R. C. Myers, who is sick in New York, is improving.

PERSONAL.

Our young friend, Mr. Joseph M. Cronly, who for several years past has filled a position on the *Star*, will sever his connection with our neighbor to-night. Mr. Cronly leaves for the purpose of accepting employment as book-keeper for Messrs. G. W. Williams & Co. We wish him every success in his new field of labor, but regret to see him throw aside the mantle of the fraternity.

RICE BIRDS AND COOTS.

There have been fewer rice birds in market and in the fields this year than has been known for several years past. A rice farmer tells us that the reason they are so scarce this year is owing to the fact that the crops ripened earlier this season than usual and that the birds, being soft beaked, could not open the rough hard shells and left for other parts where they could feed on green seed. He further says that the signs are favorable for a large crop of coots.

KIT AND THE FOX.

The Fox Club were out after Reynard yesterday and carried a new recruit with them, Mr. J. T. Carson, who was, so to speak, first in at the death. The race is said to have been a very exciting and interesting one. The dogs treed the fox and our friend, Kit-Carson, was called upon to shin the tree and poke him out. How well he performed the duty can be imagined by the fact that he was made an honorary member of the club. We do not care for our friends to think that Kit is as successful in all his undertakings. He has been trying for some twelve years to capture "a parcel wrapped up in about fourteen yards of calico," and has not succeeded as yet in getting that parcel to say "Go ask papa." He has had hard luck and has gotten the mitten from eighteen different maidens in eighteen consecutive days. He doesn't seem to be in despair and thinks that there is a chance for him yet. He is a sewing machine man and does not let a little negative answer disturb his equilibrium.

THE COMET SEEN HERE.

The comet, which was discovered a few days since, was seen here yesterday morning for the first time. It was in the southeastern horizon and was plainly visible with the naked eye, and exhibited a tail apparently about one hundred and fifty feet long, with a very bright head. The tail started from the head, which looked to be about the size of the end of a man's finger. A series of observations of the new comet have been taken at the Naval Observatory by Prof. Frisby and his assistants, and Prof. Lewis Bass, of the Dudley Observatory, Albany, who is preparing for departure for Santiago de Chili, where he is to observe the transit of Venus. The results were so perfect that Professor Bass announces as a practically demonstrated fact that the present comet is identical with that recently discovered by Cruls in Rio de Janeiro, Gould's comet, discovered in South America in 1880, and the great comet of 1843. He predicts that the same comet will return at shorter intervals, and within the next ten years it will crash into the sun and become lost as an individual body.

NORTH CAROLINA APPLES.

The finest apple grown in the world is to be found in Western North Carolina. Some of the varieties raised in that section are superior in beauty and flavor to anything that can be raised to the North of us, and yet it is a rare thing to see any of these apples in the Wilmington market. Why is this? Those that are brought are not of the best and are so poorly prepared for market as to make an unfavorable comparison, in appearance, with those which are brought here from the North. There can be no reason why the Wilmington market should not be wholly supplied with North Carolina apples. Now is the time for our mountain friends to be making themselves ready to properly gather their fruit so as to ship it in marketable packages in the Fall and Winter. Apple houses should be built and barrel staves gotten out. Stir up your neighbors, brother Furman, and give the people of Western North Carolina encouragement to ship the most important product of their orchards, down to their own seaport. In this way a large amount of money which now annually goes northward to pay for apples will find its way to the Western part of our glorious Old State.

REMOVAL.

The office of the DAILY REVIEW and WILMINGTON JOURNAL will be removed, on October 1st, to the second and third stories of the building on Market street, South side, between Front and Second, occupied on the first floor by Messrs. A. & I. Shrier's Clothing Store, 34 Market street, where we will be pleased, at all hours of the day and night, to welcome our friends.

Henrickson, cleared yesterday for Antwerp with 1,000 casks spirits turpentine and 2,250 barrels rosin, valued at \$25,500, shipped by Messrs Alex. Sprunt & Son.

Beautiful Beef.

We saw yesterday, at Mr Melton's meat store, corner Market and Second streets, about the prettiest veal that has been in this market this season. The calf was only five or six weeks old and it is said had never eaten a particle of solid food. It was so fat that it was difficult to understand how it could ever have walked. Only those in market early will see it, as it will not long remain on the stall.

Gets Even With Him.

Mr. W. B. Davis met with quite a serious accident on Thursday. He was standing talking to Mr. Geo. R. Dyer, when the latter jocosely punched a small pocket knife at him. Mr. Davis threw up his hand and the blade of the knife penetrated the fleshy part of it. About five years ago Mr. Davis inflicted a similar wound on the hand of his friend under just such circumstances and after five years Damon gets even with Pythias.

Third Ward Democratic Club.

The Third Ward Democratic Club met at the City Hall last evening and perfected their organization by appointing necessary committees. Friday night of each week was adopted as a regular meeting night. Messrs. W. B. McKoy, L. H. Bowden, G. J. Boney, Joseph McLaurin, T. Donlan, Samuel Bear, Jr., and Robert H. McKoy addressed the Club. The Third Warders are determined to organize thoroughly and leave no stone unturned to secure the election of the Democratic candidates. Now let other wards do likewise.

Improvements in the Opera House.

There are several very noticeable improvements in the interior of the Opera House. The dress circle boxes have been made smaller and so arranged as to bring several good seats into use which have heretofore been cut off from a view of the stage. In addition, the alteration in the shape of the boxes forms a couple of nice stalls. The benches in the orchestra have all been newly upholstered and are very nice and comfortable seats. The center of the third tier has been partitioned off, the seats nicely upholstered and the isles carpeted. This will be for the exclusive use of the better portion of the colored people who wish to attend the theatre but who object to being mixed up promiscuously with the "gallery gods."
