#### Fony Denier's Humpty Dumpty

We are pleased to announce the appearance of this celebrated organization result of law suits between the parties at the Opera House, in this city, next Wednesday week. Prabably no enterhas gained so complete a hold upon its affections as ever-green "Humpty Dumpty." For nearly ten years it has, on and off, held the boards, never failing to draw im nense hous s and delighting the rising, as well as the risen generation. The reason of this is its wonderful mutability. No matter how often it may be presented, it is always susceptible of change in its tricks, its transformations and its specialties; and so to see the '-Ham; ty Dampty' of the present is, to witness a transformadon from that of former years Amongst the many managers who, since the death of its owner, and we may say creator, Mr. George L Fox, have presented this attractive pantomime, no one has so legitimate a claim to its posse-sion as Mr. Tony Denier, who, with cursed him. During the squabble the his usual integrity in business matters. paid to Mr. Fox something like \$9 000 while other managers, with elastic consciences, holdly pirated the work witl . out asking permission, or even having the sommon courtesy to recognize Mr. Fox's right to his own property. For nearly eight years Mr. Denier has trav If New River oysters don't stop eled this country and Canada with his his numerous patrons to an entire change of programme on each successive visit This time we are promised a rare and attractive performance, and look forward to it with anticipations as T. D. has never yet broken taith with the public.
