EXTRAVAGANCE.

The way and manner in which the people of this country are taxed to pay for useless, needless and extravagant expenditures by the officials of the government at Washington is an ontrage and a burning shame, and the time should speedily come when they must be effectually checked. The shameful expenditures attending the funeral obsequies of President Garfield, by which that sad event was turned into an abominable spree, which the people are tax ed to pay, are still fresh in the minds ot all. The bills are yet unpaid, but they will be, and the taxpayers, the people, of this country will have to pay them. Another instance, equally as outrageous as to the manner of squandering the people's money, although not upon so sad and solemn occasion, was the Centennial Celebration at Yorktown. In this latter instance, as in the former, money was lavished upon wines, liquors, cigars and other luxuries without the least regard to the pockets of the people, from which the bills are eventually to be paid.

Recently another bill has been presented which is absurd, and which should make the cheeks of those who consented to its presentation tingle with the blushes of shame, providing they were not lost to all sense of decency and propriety. We allude to a bill rendered by the Board of Visitors to the Naval Academy, at Annapolis, Maryland. The sum of \$2,600 was approwas made thus large and generous in order to cover any possible contingency which might arise. The Board, how ever, were equal to the emergency, and rendered a bill covering the entire amount. The following bill of items enbraced in the expense account of the Board, shows how faithfully and effect ually they worked to consume the entire amount appropriated: Carriages \$106; barber, \$15; expense cards, &c., \$4.57; umbrellas, &c., \$37.17; glass, \$6.50; flowers, \$13.76; naval storekeeper, \$25.36; china. \$205,56; servants, \$208.16; newspapers, \$4.50; ice. \$23.76; telegraphing, \$6 67; tinware, \$6.33; freight, \$4.38; washing, \$19; groceries, \$269.97; meats, \$207,55; fish, \$45.47; vegetables and fruit, \$82.-10; ice cream and cake, \$61.75; wine, liquors and mineral waters, \$589,16; cigars, \$252.12; total, \$2,189.76. The remainder of \$2,600 appropriated was exhausted in the payment of mileage.

MOVING ON THE ENEMY'S WORKS.

Now that the President has thrown the weight of the Executive "influence" and authority in the scale against the star route thieves, says the New York Herald, and has taken an attitude that leaves no room for doubt which side the government favors in these somewhat famous proceedings, the chances for a successful assertion of the law are greatly improved. At least there is now no reason to apprehend that the star route robbers will assume the offensive and indict and try the government. Hitherto that course on their part was imminent. Not content with their endeavor to buily public opinion and browbeat the country at large, and settler will yet muster up cheek enough their success in the manipulation of minor officials and jurymen, they had teen. already assumed the offensive so far as to charge that government had endeav-There was reason to suppose that, with with an impeachment of the Attorney General, and thus make a precedent that would in future deter any such misguided official from endeavoring to enforce the law against scoundrels well ling a baby-carriage along the street intrenched in office.

Mr. Arthur has heard from the people. He sees that they are not satisfied around town as big as a circus advancewith the Republican party, and that his own practical abdication of his great office and his assumption of the duties trace of public confidence. He has position—a step that is a thoroughly Farmers, Take Notice. 5 59-64@5 58-64: March-April 5 61-64 SEASON IS OVER. THE THEATRICAL good one so far as it goes. This star route corruption had not merely robbed the public treasury of a certain amount of money; it had not merely undermined and crippled an unimportant part of the public service. These were, perhaps, the least of its offences. It had shown that the government could be robbed with impunity, and its attempts to punish robbery be treated with impudent contempt, if only the robbers were affiliated with the dominant political party. It had excited a just suspicion whether it was possible to punish Republican thieves, and whethe

there was even an earnest desire to punish them-whether the government did not go through the motions of attempting to punish these scoundrels merely to satisfy public opinion, while secretly winking at the culprits to assure them that they were in no danger. whom there was no public control; that | ted by acclamation. the sceptre had passed away from the people and could not be by them given to the man they might designate, but was already firmly grasped by bosses who were mere thieves. The men on trial controlled grand juries and petit juries; the prosecuting officers were their cronics and comrades, and Justice herself, become a Republican, seemed to admit that she ought to fail when one more indictment might change a party majority in the United States Senate.

It is believed that the property left by Thurlow Weed will be found to be worth fully \$2,000,000, mostly in first-class railroad mortgage bonds.

Senator John A. Logan favors the abolition of the office of public printer. The recent elections warn him that the position will be filled only a short time by a Republican, hence, it may be dispensed with.

Commissioner of Internal Revenue Raum advises a radical change in the revenue laws, and sees where great re_ ductions can be made without detriment to the interests of the country The recent elections have helped his eyesight wonderfully:

Mr. Robie, the Republican Governor of Maine, is quoted as saying that Maine is solidly Republican now, but "the people are watching, and future success depends upon how parties priated by Congress to defray the nec- act. The people are now in that state cessary expenses of this Board, and it of mind which leads them to do right, whatever party champions it.'

> The President has summarily re moved from office a few of those who have helped to bring disgrace upon the government and have prostituted their offices to the basest purposes. The recent elections have warned him that the people are in earnest and will put up with no more white-washing of official miseonduct and rascality.

While some excavations were being conducted, says the Antiquary, in the nave of St. Patrick's Cathedral, Dablin, an interesting discovery took place alongside the second pillar from the Earl of Cork's monument, on the southern side. Here a coffin was discovered in which was a square box containing the skulls of Dean Swift and Stella, together with a white glass bottle having a red seal, inside which was a manuscript as yet unopened. It is understood that the neck of the bottle will be teresting matter.

GALVESTON, Nov. 28-Noon-A man named Shirley was shot at Austin last night by another man named Maynard in the presence of the latter's sister.

A News' Dallas special says that injustice is done to Miss Maynard's brother in the report of the Austin papers. The testimony taken at the inquest shows that Shirley had, under a promise of marriage, seduced the young lady. Shortly before the shooting this fact was learned by her brother and it caused him to commit the act.

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is postively not injurious.

17 N. Eutaw St., Baltimore, Md. Feb. 12, 1880. Gents:—Upon the recommenda-tion of a friend I tried Baown's IRON BITTERS as a tonic and re-storative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my-daughter had taken one bottle of BROWN's IRON BITTERS, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were re-quired;" and when informed that the elder sister was taking Brown's IRON BITTERS, responded "that is a good tonic, take it."
