Messrs Cronly & Morris will sell at auction to-morrow morning a consignment of beautiful bananas.

The name of Dr. F. W. Potter, who in many ways an active member of the Wilmington Light Infantry and who during the war was a full Surgeon in the Confederate service, should be added to the list of those officers who were formerly members of the Wilmington Light Infantry.

The celebrated "Fish Brand" Gills Twine is sold only at JACOBI'S Hardware Depot.

In the River and Harbor bill reported to the Senate yesterday the sum of \$50,000 for the Cape Fear, from the ocean to Wilmington, appears. The bill was recommitted and we may eventually get something nearer what we need than is promised there, although it is doubtful.

**City Court.**  
Susan Franks, Laura Haggatt and Laura Hall, three colored damsels from the classic precincts of Paddy's Hollow were before the Mayor this morning charged with disorderly conduct. For their misdeeds they were ordered to pay a fine of \$9 each or be confined in the city prison three days. They all went below.

**Mr. Peschau to Lecture.**  
Rev. F. W. E. Peschau has accepted an invitation to lecture before the Wilmington Library Association. The 22nd inst. has been fixed upon as the date and Mr. Peschau has named as his subject "The Cemetery of the Sea." The lecture will be delivered in the Library Hall and the proceeds will be for the benefit of the Association.

**Impromptu.**  
There was a very pleasant little affair held at the armory of the W. L. I. last night, the occasion being an impromptu complimentary reception tendered to Gen. Jones, by the Company. Short speeches were made by Gen. Taylor, Capt. Cantwell, Col. E. D. Hall and Capt. C. D. Myers, of the Veteran Corps, and all passed off as pleasant as half a dozen marriage bells.

**Ice Cream and Oysters.**  
The Social Society of the Front Street M. E. Sunday School will hold an oyster and ice cream festival at the hall in Odd Fellow's building, opposite the City Hall, next Thursday evening, commencing at 7 1/2 o'clock. See the announcement in our advertising columns and when the time arrives take your lady and go and see what an elegant entertainment our Methodist friends will give.

**Disposed Of.**  
The question for discussion at the regular meeting of the Literary Club, held last night, was, "Should foreign immigration be encouraged?" The subject was quite ably debated by the several disputants and resulted in an affirmative decision entirely in harmony with our governmental policy. The meeting was quite interesting and we were glad to notice that a large audience was in attendance, among whom were many ladies.

## Thank You.

Yesterday's News and Observer says: We heartily congratulate the city of Wilmington on the completion, under her Democratic administration, of the funding of the entire past due bonded debt of the city. For the first time since the war it is free from past due bonded debt and it's 6 per cent. bonds are in demand at par by investors. The entire bonded debt of the city is now about \$55,000 from is to be deducted \$45,000 held by the sinking fund, which, during the past few years, has developed from an empty name to a solid reality. And yet we are not happy, because we all want to be Mayor next month.

**Personals.**  
We were pleased to receive a call today from Hon. T. D. McDowell, of Bladen county, who was here today for a few hours on one of his rare visits. He left on the steamer *D. Marchison* today, on his return to Elizabethtown.

Mr. John H. Mints, Chairman of the Board of County Commissioners of Brunswick county, also gave us the pleasure of a visit to-day. We were glad to learn from him that the grand old county of Brunswick is in a flourishing condition, that her debt is now merely nominal, that her financial condition is good and that during the last year there was a general prosperity among her citizens, such as they have not experienced before in several years.

The latest news from Africa is that the Zulu King has the grip; this news is doubted by many, but notwithstanding, the friends of the king have sent him a case of Dr. Bull's Cough Syrup and consequently his cure is certain.

**Survivors Associations.**  
There was a full attendance at the Court House last night at the meeting of the Confederate Survivors Relief Association and a permanent organization was effected by the election of the following officers:

President—Thomas F. Wood.  
Vice President—John D. Taylor.  
Secretary—Walter G. MacRae.  
Treasurer—Owen Fennell.

The Secretary was requested to open a book at Heinsberger's book store for the reception of the signatures of all those ex-Confederates who wish to become members, and all such are invited to call there and sign.

It was decided not to apply for a charter immediately, but to wait until the condition of the Association requires incorporation.

The Relief Committee reported several cases which have already been acted upon.

**Small Fields and Big Crops.**  
Mr. E. M. Johnson, of Camera, Pender county, is a successful agriculturist and a shrewd, careful and painstaking business man. In all his undertakings he adopts a system and method which it would be well for others to imitate. In farming he has demonstrated conclusively that money can be made even on what is termed frequently as "worthless pine lands." In a communication addressed to this paper he gives the result of his experiments last year on just such land. On three accurately measured acres of well drained, pine meadow he last winter applied a liberal dressing of stable manure composed with mud and salt. Late in February he sowed the land in oats, which when matured were harvested and the ground planted in sweet potatoes. After the latter had been dug he turned his hogs into the lot to fatten upon what was left. His hogs, when slaughtered, weighed 5,500 pounds, half of which, Mr. Johnson claims, was the gain from the potatoes, and he figures the result as follows:

30,000 pounds oat forage at \$1.00 \$300.00  
211 bushels potatoes at 40 cts. 84.40  
2,700 pounds pork at 8 cents 216.00  
Total receipts, \$600.40  
Deducting the value of the manure, cost of labor &c., which he estimates at \$150, and there remains in round numbers \$450, or \$150 per acre for three acres as clear profit. This we should judge was a fair estimate for the expense and also for value of the crop raised. We may say that in order to avoid any inaccuracy in the matter, the crops were weighed carefully and the figures made from the actual weight.

This is good farming, and teaches the all-important but unheeded lesson that it is very much more profitable to cultivate a small acreage thoroughly than it is to skim over a large field upon which a small amount of manure has been placed.

To Builders and others—Go to JACOBI'S for Sash, Blinds and Doors, Glass &c. You can get all sizes and at the lowest prices.

## Criminal Court.

Since the close of our last report the following cases have been tried and disposed of:  
J. A. McKee, Larceny. Guilty with a recommendation to mercy. Six years in the penitentiary.

Henry Hall, Larceny, on trial when our report closed yesterday, was found not guilty.

Mary Beatty, Larceny. Guilty. Judgment suspended on payment of costs and defendant recognized in the sum of \$50 for his appearance at the next term of court.

Andrew Morris, Larceny. Submitted and was fined \$15 and costs.  
Henry Davis *et al*, disturbing religious congregation. Judgment suspended on payment of costs.

William Collins, Larceny, submitted. Judgment not yet pronounced.  
Robert Moore, Larceny. Not guilty.

**Knights of Pythias.**  
The afternoon session yesterday was devoted principally to hearing the reports of the various committees. During the session it was decided to hold the next meeting of the Grand Lodge in Raleigh, on the 2nd Tuesday in February, 1884. An invitation was also accepted to dedicate the hall of Germania Lodge on Thursday at 7 1/2 P. M. The lodge then took recess until 7 1/2 P. M.

At the evening session the secret work of the order was exemplified by Snp. Rep. John L. Dudley. Several past chancellors were admitted, and matters pertaining to the good of the order were discussed.

The morning session to-day was occupied in the nomination of officers of the Grand Lodge, to serve for the year ensuing, the election of whom took place at 4 o'clock this P. M., but was not concluded in season for us to give a list of the officers elected in this issue.

To night at 8 o'clock there is to be a grand banquet at the Purcell House, complimentary to the Grand Lodge and invited guests, given by Germania Lodge No. 4, of this city. This will undoubtedly be an exceedingly interesting occasion at which the fraternity will enjoy the "feast of reason and flow of soul" with all their pleasurable accompaniments.

**Railroad Improvements.**  
The Wilmington and Weldon Railroad company continue to make improvements upon their premises at the Front street depot, which, when completed, will make their accommodation as near perfection as human ingenuity and foresight will be apt to accomplish. They have now in course of construction a new machine shop which is to be one of the best in the country. It is to be 34 feet 9 inches in length x 73 feet in width, with a 21 feet pitch. Added to this will be the boiler house, which is to be 61 feet 8 inches x 38 feet 6 inches. This mammoth establishment will be furnished throughout with the very best kinds of machinery necessary for the manufacture or repair of engines, cars or the rolling stock of the road. A large force of hands is now employed in erecting the building and it will be pushed forward to completion as rapidly as circumstances will permit.

Nor have the railroad authorities been unmindful of the comfort of the passengers. The ladies' sitting room at the depot has recently been furnished with a new carpet, and a plentiful supply of elegantly upholstered chairs, a convenience which will be greatly appreciated by ladies who from any cause may be compelled to wait for an outgoing or incoming train.

The large lot of cigars to be sold at auction by Messrs. Cronly & Morris arrived here last night, and the sale will take place promptly to-morrow, as announced in advertisement published in this issue.

Diabetes, Bright's Disease, Kidney, Urinary or Liver complaints cannot be contracted by you or your family if Hop Bitters are used, and if you already have any of these diseases Hop Bitters is the only medicine that will positively cure you. Don't forget this, and don't get some puffed up stuff that will only harm you.

The New York Mercantile Exchange has lifted 156 members for non-payment of dues.

Gen. Fitzhugh Lee has leased his Potomac shooting grounds to New York parties.

Bishop Littlejohn will lay the cornerstone of an Episcopal Church in Dresden next month.

The woman suffragists have enlisted Dennis Kearney under their banner, and success is now assured.

Mr. United States Treasurer Spinner writes that the continued silver coinage is "the veriest absurdity of absurdities."

Paul Murphy, the once famous chess-player, is now living, a harmless invalid, in New Orleans, supported by the labor of his mother and sister.

The Boston *Globe* thinks that the tariff question has resolved itself into the interrogatory: "Where is this country going to land us in 1884?"

The discussion on the railroad commission bill, introduced by Mr. Boykin, will be found in full on the fourth page of this issue, in the report of yesterday's legislative proceedings.

New York's shoddy aristocracy are running wild after scions of royalty. The *Orioco*, which lately sailed for Bermuda, carried out 75 cabin passengers, nearly all society people.

The deposit of salt just discovered in the Wyoming valley underlies a tract fifteen miles long and two or three wide. It has a depth of from 1,200 to 1,800 feet. The vein at Warsaw is seventy feet thick.

It is reported here that Lieut. Gov. Robinson, from the West, and Senator Dorth, from the East, are to be members of the railroad commission, should the measure become a law. One other will be needed. None but members of the Legislature need apply.

Talking about lengthy law suits, here are three mentioned in the *London Law Journal*: "Belt vs. Laws" lasted forty-three days, "Tichborne vs. Lushington" one hundred and three days, "Regina vs. Castro" one hundred and eighty-eight days, and this tendency seems on the increase.

Senator Hoar is reported to have said that "Beck rests his mind while talking," and the Senator from Kentucky is credited with the statement that "Hoar reminds me of that sterile tract of ground in Virginia which John Randolph said was poor by nature and exhausted by cultivation."

Professor Young, of Princeton College, calculates that a railroad train from the earth to the sun, running forty miles an hour without stops, would consume over two hundred and five years in making the journey. The fare at one cent per mile would be \$330,000. These figures bar out editors.

In regard to Mary Anderson's alleged low temperature, Modjeska says:—"There is no such thing as a cold and unimpassioned girl. Anderson may seem so, because she has not met the right person. She will meet him, however, and that will remedy her apparent coldness. An actress must fall in love before you see her at her best."

According to the *Railroad Age* 1,500 miles of railroad were constructed in the eleven Southern States east of the Mississippi last year.
