The bill for redistricting the State was to have come up in the Senate to day. There has been some delay in perfecting it and it has not, altogether, been an easy job to make nine districts out of eight, and at the same time arrange so as to preseve the party ascendancy, and also have all of the counties in each district contiguous to each other. The following is the order in which the bill presents the districts:

Gates, Hertford, Hyde, Martin, Pamlico, Pasquotank: Perquimans, Pitt, Tyrrell and Washington.

Second-Bertie, Craven, Green, Halifar. Lenoir, Northampton, Vance, Warren and Wilson.

Pender. Duplin. Third-Ouslow. Samp-on, Bladen, Wayne, Cumberland Harnett and Moore,

Fourth-Nash, Franklin, Wake, Durham. Orange, Chatham, Alamance and Johnston.

Fifth-Granville. Person, Caswell. Bockingham, Stokes, Guilford, Surry and Forsyth.

Sixth-New Hanover, Brunswick, Columbus, Richmond, Anson, Union, Stanly, Cabarrus, Robeson and Mecklenhurg.

Seventh--Montgomery, Randolph. Davidson, Rowan, Davie, Iredeil, Ca awba and Yastkin.

Eighth--Witkes, Alexander, Ashe, Cleaveland and Gaston.

Ninth-Cherokee, Clay, Graham, Macon, Swain, Jackson, Haywood, erlord, Buncombe, McDowell, Madi- greatly admired. son, Yancey and Mitchell.

#### An Event.

An interesting celestial event occurs to-morrow morning. At about twenty-five minutes after four o'clock the moon will occult the bright star Beta Scorpionis, and more than an hour later the star will be seen emerging from behind the moon on the side orposite to where it disappeared. To those who own telescopes the spectacle will be particularly interesting, because the star in question is one of the most beautiful double stars in the heavens. Even without a telescope it wil

be a sight worth seeing.

It will be seen by this that New Hanover has been placed in the Sixth district, instead of the Third, as now, and that there are ten counties in the district, instead of twelve, as is the case at present. These ten counties are contignous, one to another, and although Mecklenburg, at the extreme West, is nearly two hundred miles distant from New Hanover, on the extreme East, yet are these two counties, by virtue of railway facilities, nearer each other than at the present time are New Hanover and Cartaret, or New Hanover and Oaslow or, indeed, New Hanover and Brunswick. We dislike to yield old as sociates and old names and yet we can not but admit that the bill, so is far at least as this section concerned, is a very fair one .rangement as regards the aggregate political strength of the district. It is safely Democratic. The aggregate vote of the ten counties for this Congressional district at the election last. November, was 15,173 Democrats and 13,510 Republicans. This leaves a clean Democratic majority of 1,663, which could, we think, with the proper effort, be swelled to 2,500, or more.

An outburst of Southern feeling was evoked by"the closing sentence of an address delivered by Gen. Jubal A. Early before the Association of the Maryland Line in Baltimore on the evening of Washington's Birthday, and by the spirit in which it was received. "I trust." said Gen. Early, "that every faithful soldier of the Army of Northern Virginia is ready to exclaim with me: If I ever disown, repudiate or scorn of all good men and true women be my portion!" Amen and amen! 8.15 WC.

The total yield of the cotton crop thus far. according to the Chronicle, is 5,703 622 bales; to same date last year the yield was 4,785.791 bales, and in the year 1880-1881, it was 5,298.834. This crop is thus shown to run about 300,000 bales ahead of the large yield of 1880 81.

Dangers of the Sea.

Capt. Doane, of the steamship Requlator, which arrived from New York w-day, reports that early on Monday morning he saw a three-masted school ner, with her mizen mast gone about thirty feet from the deck, standing South. He was about a mile from the schooner and plainly saw, through his glass, people upon the de k, but the latter gave no signal of distress. She was about 75 miles North of Hatteras at the time and about 25 miles from the land, and was under her foresail. foregaff, topsail and three jibs. Captain Doane concluded from the appearance of the vessel and from the fact that no signal of distress was hoisted, that no damage other than the loss of the masts was experienced.

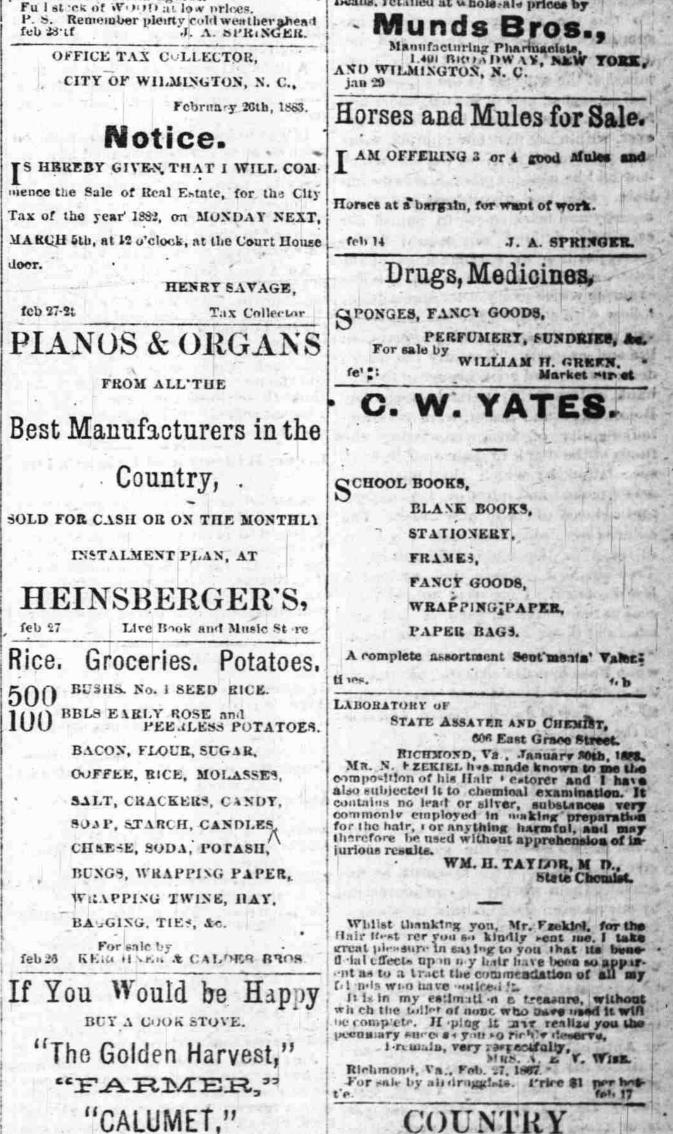

Captain Doane left New York on Saturday afternoon, and at about 10 Rice. o'clock there was quite a brisk gale from the southeast which continued until 4 A. M. on Sunday. About 10 o'clock 100 Sanday forenoon the wind shifted suddenly to the northwest and blew a heavy gile for about 15 minutes, after which i, shifted again to the southeast, but blew only a moderate breeze. It is the opinion of Cap:. Doane, (and a very r asonable one) that the schoon r got c ught by the gale on Sunday, and when the wind shifted so suddenly and blowed s , fiercely she met with the accident we

have described. There was a very heavy sea at the time, which in part accounts for the accident.
