Knowing testimony, the medical profession, both in the United States and in Europe, quickly threw aside the old, slow-acting plasters they had been using, and adopted Benson's in the regular practice. That physicians and surgeons of the broadest reputations di I this, distineily proves the intrinsic merit of the article.

It is no more than just to a id that the aver age physici n of to-tay is not dominated by the prejudices which retarded the progress and midified the successes of his predecessors of not more than twenty-five years ago. He accepts hints from all quarters and endors. es and adopts demonstrated healing agents wherever he finds them.

The right of Beusen's Capcine Porous Plaster to stand at the head of all external, appl cations whatsoevor, for the mitigation or cure, of darase, is no longer questione I.

Let the purchaser, however, be on his guaragainst imitations. The genuine has the word CAPCINE CUT in the middle.
