THE DAILY REVIEW.

VOL. VII. WILMINGTON, N. C. THURSDAY, MARCH 29, 1883. NO. 76

The drought in California threatens injury to the wheat crop.
The ice has disappeared in the Hudson River in front of the city of Albany, but a gorge has formed a few miles below Van Wiesen.
The centenary of the first American Bishop of the Episcopal Church, Dr. Samuel Seabury, was celebrated at St. Paul's Church, Waterbury, Conn., last Tuesday.

George W. Conkling, Jr., was discharged by Justice Smith, upon the ground that he shot William H. Haverstick in self defense. A very proper act in the justice.
The five copper mines in Michigan, which have declared dividends during the past year, have paid up capital of \$3,500,000, and the dividends paid amount to \$2,900,000. The Calumet and Hecla, which has a capital of \$1,200,000, paid its stockholders in the past year \$2,000,000.

The alleged discrepancy in the accounts of the Soldiers' Home, at Washington, D. C., is fully explained, as might have been expected, by the Treasury Department. To convict a man of rascality at the Capital is one of the most difficult things within our knowledge, although it is well known that there is more of that article there than any other part of the country.
When Cincinnati packed more hogs than any city in the Union, Kansas City was merely a small spot on the map, if indeed it had been christened. Now the hog figures for that place are 410,000 for 2,882—against 418,000 in Cincinnati. Westward the hog empire seems to wend its way. St. Louis shows 100,000 less than Kansas City, while Chicago numbers 2,330,000.

New York Truth has been sold to ex-Mayor Oakey Hall and his syndicate. Mr. Hall is to be editor-in-chief with the following editorial staff: Managing editor, John W. Pratt; city editor, Morris H. Warner; dramatic editor, John W. Keller; labor editor, Thomas W. Jackson; sensation editor, George Voorhis, and society editor, Robert V. Donolly. A new building will soon be erected for the paper, and in the meantime Mr. Hall increases the pay of the reporters by advancing "space" rates from \$3 to \$5 per column.

Mild weather predicted for Saturday.
Alderman Chadbourn is the only man on the Board of Aldermen who was "thar" before.
There were some very fine rock in the market this afternoon. They were caught at jetties near Fort Fisher.
Col. John M. Robinson, President of the Seaboard System of roads, is in the city to-day, having arrived here this morning via Hamlet, in his private car, accompanied by Maj. Wiunder, General Manager.

Attention is invited to the card of Col. Fremont, as it appears in this issue. He will follow his profession here, and we do not doubt that the simple announcement will, in a very short time, attract to his office a handsome business.
The postoffice in this city was closed yesterday during the afternoon from 2 until 5 o'clock by order of the Department at Washington. We know of no law which would justify such an order and we fail to see by what right the citizens of the United States were subjected to the liability of great personal inconvenience and loss by the issuance thereof.

Icy.
Any one wishing to know something of the cold weather which has been experienced at the North, this Winter, may form some idea by looking at the ice which is being discharged to-day from the schooner *Elta M. Barter*, at the foot of Dock street. The blocks will average quite two feet thick, and we saw some that were more than that.

Exports Foreign.
Nor. barquette *Leon*, Capt. Eilertsen, cleared to-day for Liverpool with 500 casks spirits turpentine and 2,100 barrels rosin, valued at \$13,934.89, shipped by Messrs. Paterson, Downing & Co. Schr. *Rifle Sweet*, Capt. Daley, cleared for Porto Rico with 136,350 feet lumber, shipped by Messrs. E. Kidder & Son.
Butchers' Meeting.
At the meeting of the butchers, in the Mayor's Office yesterday afternoon, Mr. E. A. Orrell was chairman and Mr. J. J. Hopkins secretary. Messrs. J. R. Melton, John C. Borneman and W. J. Kellogg were appointed a committee to confer with a like committee of the Board of Aldermen.

A resolution was adopted heartily endorsing the action of the Board of Aldermen in appointing a committee to confer with the butchers of the city.
It was voted that a vote of thanks be tendered the Mayor for the use of his office.
The meeting then adjourned, subject to the call of the Chairman.

Rocking the Trains.
As the down mail train on the Carolina Central R. R. was passing Matthews last night, about 8:30 o'clock, a rock was thrown which crashed through the glass of the Raleigh sleeper and fell to the floor, not having been thrown with force sufficient to drive it through the opposite window. There were four persons in the car at the time, two ladies and two gentlemen, but fortunately no one was injured. This was the second time within three nights that this outrage had occurred, each time at the same place, and it is a pity but that the scoundrels could be caught. This might be effected if a handsome reward were publicly offered for the apprehension and detection of the rascals.

To Be (c) or Not to Be (c.)
Mr. H. H. Bloom, on the corner of Fifth and Chestnut streets, is very successful in keeping and raising bees. He had a hive of Italian bees swarm to-day, which is considered remarkably early in the season, and it is said that when these cunning creatures swarm the cold weather has departed. The swarm lighted upon the arbor over the gate of the entrance to the residence of Mr. Joel Woolvin, and Mr. Bloom, in capturing them, took a bucket and held it inverted on a pole over where they had located, occasionally shaking the arbor to set the bees in motion. The little fellows flew around him "as busy as bees," but did not sting him, probably because they were Italian bees and could not sting in German. It is said, however, that this kind of bee is not near so spiteful and liable to sting as the native sort, which reminds us that, if we ever keep bees it will be the Italian sort—with some one else to attend to them.

City Court.
Lily Elliott, a colored damsel from "Paddy's Hollow," was brought before the Mayor this morning, charged with disorderly conduct. The charge was proved, and the "Lily" was required to pay a fine of \$5 for the fun.
Elnwood Shirts.
Messrs. A. & I. Shrier, 34 Market street, have been appointed sole agents for the well known Elnwood Shirt which is undoubtedly the best in the market. Each shirt comes in a handsome box. Give them a trial.
Fire Anniversary.
The 14th anniversary of Wilmington Steam Fire Engine Co., No. 1, was celebrated yesterday in a very happy manner, by parade and engine practice, in the afternoon and a celebration at night. There were about thirty members on parade, and the contest between those who manned the two different streams thrown from the same engine was a very spirited, albeit a wet one.
At the close of the parade the company attended at the engine house where a few corks were drawn and a number of pleasant little toasts were made and responded to. Capt. C. D. Myers, the new Chief of the Fire Department, was present and the talking revolved between him, Mr. E. G. Parmelee, Foreman, and Messrs. W. C. VonGlaban and Martin Newman, Assistant Foremen.
A York anticloner named Fryer, fell in trying to reach a bid higher. He sprained his knee, but from pain he is free, St. Jacobs Oil cured up the crier.

NEW ADVERTISEMENTS.
Our Friends Remember THAT WE SOLD ROYSSTER'S CANDY
from the start at Thirty-Five Cents per pound, but were forced to raise the price to Forty Cents, and then to Fifty Cents, as Royster's trade in other portions of the State complained at the low price we were charging.
We did not intend to reduce this price, as ROYSSTER'S CANDY HAS ALWAYS STOOD ON ITS OWN MERITS, AND WILL BEAR COMPARISON WITH ANY CANDY IN THE COUNTRY.
OTHER CANDY MANUFACTURERS, not content with the custom they are receiving, have reduced their best Candy to Forty Cents per pound, which act, in turn, has induced us to REDUCE THE PRICE OF ROYSSTER'S CANDY (Best and Purest Mixture), for the present, to
35 Cents per Pound!
Or, **Three Pounds for \$1!**
Of course there is no money in this for us, but we will see if the old adage, "The fittest will survive," has any truth in it or not.

The farmers in the interior tell us that the fruit crop, especially peaches, is ruined and this loss, it seems, extends into South Carolina. The trees are in full bloom, bright and pretty to the eye but false and dead as to the fruit buds.

The North will increase in manufactures, but it is safe to assume that the East and the West will try to have the biggest finger in the pie. Will we let them do so? that's the question.
Both Ingersoll and Merrick made fools of themselves. Dorsey was willing to swear all the time. He probably would just as lief take an oath on a Bible as on a spelling book.
Ready money is the modern magician. By the outlay of \$250,000,000 France proposes to build a ship canal from the Bay of Biscay to the Mediterranean. This is a complete flank of Gibraltar.
