The Daily Review has the largest circulation of any newspaper published in the city of Wilmington.

Mr. Bell, the telephone genius, is worth \$5,000,000.

One Paducah (Ky.) hunter has killed 160 rabbits in the last six months.

Mrs. Langtry gave five dollars to a hungry woman in a Rochester railroad station.

The Salvation Army is said to have a break sale of watches inscribed "every hour for Jesus."

The annual sum received by the Prince of Wales from the Duchy of Cornwall ranges between £63,000 and £65,000.

The cabbage shipments this winter from Wythe county, Va., will yield the county \$30,000.

The British war ship Iron Duke, which cost a million and a quarter of dollars to build, costs nearly a quarter of a million annually to keep at sea.

At a concert given in Barnum's Hotel, Baltimore, for the benefit of Prof. Crouch, the author of "Kathleen Mavourneen," about \$75 was realized.

Three hundred Germans have been introduced into Nansemond and contiguous counties, Virginia, as laborers, since December, through one agency.

It is said that fifty years ago shad were so plentiful in the Savannah River that fishermen exchanged them for corn at the rate of one ear of corn for one shad.

The largest sheep ranch in the world is believed to be that in Dinnet and Webb counties, Texas, which pastures 300,000 sheep and is composed of 300,000 acres.

The Navajo Indians in Arizona have 900,000 sheep and 200,000 goats, the result of an investment of \$30,000 made in their behalf by the government three or four years ago.

Nordenskjold is about ready to sail away to the North again. He expects to leave Gothenburg, Switzerland, in May. The main object is to search for colonists planted in Greenland in the tenth century.

A despatch from Paris says that Prime Minister Ferry has informed President Grevy that the government had decided to take energetic action in Tonquin with the view of establishing a protectorate.

Papers have been filed at Albany, N. Y., organizing the Globe Telephone Company, with a capital of \$1,000,000, to do a telephone business throughout the United States. The purpose is to use instruments that will talk over long distances.

At the hearing in the Tewkesbury slumhouse investigation Wednesday, Governor Butler gave notice that he would offer evidence to prove that bodies had been taken from the cemetery and delivered to persons who intended to skin them and tan their skins.

The principal pier at Nice was entirely destroyed by fire Wednesday. Only the iron framework of the bridge which connected the pier with the land remains. The loss is estimated at \$1,000,000. The pier had just been completed. The fire was caused by a workman spilling tar on the pier, which became ignited, and it was found impossible to stay the flames.

Somebody found of statistics has stated that the barayard denizens of France number 45,000,000, to which a value of \$24,000,000 is attached. The annual chicken yield is 100,000,000, of which 10,000,000 are reserved for purposes of reproduction, 10,000,000 are lost by disease or accident, and 80,000,000 are marketed. The sale of fowl and eggs realizes about \$70,000,000 in the year.

Some of the evidence elicited in the testimony given in the investigation's now being made into the management of the Tewkesbury (Mass.) Almshouse, is simply horrible. Here is a specimen: "She had a difficulty in getting clothes for Mrs. Marsh to lay out the dead, and had heard inmates complain that good clothing had been taken from them. In one case of a dead child it had been kept too long; when the father came for the body a block of wood was placed in the coffin and service said over that the body of an insane girl, when laid out was eaten by rats. Three hundred and twenty-five pounds of butter were made per month; one pound a day was given the inmates and the balance went to Capt. Marsh. Skim milk was furnished to the inmates until complaint was made."

Silver Plated Spoons and Forks, low prices, at JACOBI'S

Day's length 12 hours and 55 minutes.

We gain this month 63 minutes of daylight.

New moon this morning at 22 minutes past 8 o'clock.

Sunset to-morrow afternoon at 29 minutes past 6 o'clock.

The receipts of cotton at this port to-day foot up 28 bales.

There was only one interment in Oakdale Cemetery this week, an adult.

There were two interments, both adults, in Bellevue Cemetery this week.

A fine assortment of Guns and Pistols at JACOBI'S Hardware Depot.

The Register of Deeds issued three marriage licenses to white and three to colored couples this week.

Steamboatmen report about 12 feet of water on the shoals in the Cape Fear, with the water slowly falling off.

Jane Chavers, colored, was sent below by the Mayor this morning, for 10 days, for being drunk and down.

There were ten interments in Pine Forest Cemetery this week, five of whom were adults and five children.

We had the pleasure of meeting the Rev. W. M. Kennedy, of Magnolia, on the street to-day. He was en route for Masonboro, where he is to preach to-morrow.

Some lady left a bunch of keys in Mr. Hahn's store, on Market street. They have been handed to us and the owner can have them, without charge, on application at this office.

The Rev. James B. Taylor, D. D., pastor of the First Baptist Church, and Rev. Frank H. Wood, of the Front Street M. E. Church, will exchange pulpits for to-morrow morning's service.

It is said that there is an ancient maiden lady in this city who has never attended a theatrical performance nor any other popular amusement at the Opera House, but who intends to be there on Monday night for the sole purpose of seeing Herrmann.

The celebrated 'Fish Brand' Gills Twine is sold only at JACOBI'S Hardware Depot.

The Grand Lodge of the Independent Order of Odd Fellows of North Carolina will meet in Raleigh on the 8th of May next. Among its members are some of the most prominent gentlemen of North Carolina. The approaching session will no doubt be a large and interesting one.

There was quite a breeze started this afternoon near the corner of Market and Second streets, which took a general northeasterly direction, and when near the Court House it amounted to quite a hurricane which raged with unabated fury until it reached the basement of the City Hall, where it subsided.—O' Badiah!

In the Chicago billiard tournament Wednesday, Sexton defeated Wallace by a score of 600 to 407. Sexton's highest run was 82 and Wallace's 73. Vignaux defeated Morris, closing the game in the 19th inning with a run of 240, which is said to exceed the best run on record. His average was 31.11-19, which is also claimed to be the best on record. Morris had 197 points when Vignaux closed the game by running out his 600.

Herrmann.

The New York Herald says of Herrman, who appears here on Monday night:

"Merriment and surprise alternating pronounced the Herrmann performance last night one of the most enjoyable that could be desired for family entertainment. Niblo's Garden never before presented such a scene of animation as it did when the inimitable Herrmann startled his vast audience by some inexplicable feat. He deservedly received round after round of applause. The character of the audience was a compliment to the great magician that he was apparently appreciated, and it will materially aid him on his traveling tour when the knowledge goes abroad."

Col. E. R. Brink is now deep in the mysteries of letter boxes and free delivery of the mails. He has about sixty new boxes which will be placed in the most convenient localities. Everything is to be ready, if possible, by the first of May.

We hope there may be a full attendance at the Opera House next Tuesday night to hear the Rev. Dr. Wilson, who is to lecture on that occasion, his subject being "Enjoyment." We know it will be an hour of unstinted literary "Enjoyment" to those who may attend.

Cotton.

The receipts of cotton at this port for the week ending with to-day foot up 609 bales as against 518 bales for the corresponding week last year, an increase this week of 91 bales. The receipts of the crop year to date foot up 123,403 bales as against 132,187 bales to date of last year, a decrease this year of 8,784 bales.

Involuntary.

A young colored man, while fishing at Market Dock this noon, in casting his hook accidentally slipped and in his struggle to avoid falling into the river got hold of another man, and they went into the water "kersouse" together. Fortunately they were rescued after they had floundered about for a short time, with no further damage than being thoroughly soaked.

A red-haired clerk in Savannah, Slipped on a piece of banana, Great pain he endured, But St. Jacobs Oil cured, He now goes dancing with Hannah.

The Fire.

A few minutes before 4 o'clock this morning an alarm of fire in the First Ward was sounded. It was caused by the burning of a new, unfinished frame dwelling on Fourth, between Brunswick and Bladen streets, the property of Mr. John Sylva, and an old shanty which was along side the building, the property of Mr. John D. Bellamy, Jr., and was undoubtedly the work of an incendiary. The fire originated in the shanty and both building were entirely consumed. There was an insurance on the dwelling to the amount of \$450 in the Fire Association of Philadelphia, represented in this city by Messrs John W. Gordon & Bro., and on the old building to the amount of \$100 in the Star Insurance Co., of New York, represented by Messrs DeRosset & Northrop.

The Planets in April.

April is a dull month on planetary records. Scarcely an incident of note enlivens its monotonous routine. An invisible eclipse of the moon; an invisible occultation of Belta Capricorni; an invisible conjunction of Mercury and Neptune; an invisible conjunction of Venus and Lambda Aquarii, complete the unsatisfactory aspects of the planets. But all days are not field-days. Stars must have their seasons of rest as well as planets and human beings. Before many months have passed meetings and partings on the celestial road will be as conspicuous by their presence as they are now by their absence; life will be astr among our neighbors, the planets, and we shall welcome their reappearance, surrounded by all their former prestige. Even without exciting events, nothing can be more grand than the dome of Heaven powdered with stars; nothing more varied than the celestial picture nightly unrolled over our heads. It is well for our appreciation of the shining picture that it is sometimes hidden by clouds, and that it is not always seen in its most brilliant phase. Emerson says, and all who love to study the heavens will endorse his view: "If the stars should appear one night in a thousand years, how could men believe and adore and preserve for many generations the remembrance of the city of God that had been shown?"

Drs. Bickett & Griffin, Monroe, N. C., says: "We invariably recommend Brown's Iron Bitters as one of the best compounds on the market."

Castle Hayne.

Dr. Thos. D. Hogg, of Raleigh, is still here. He went up yesterday and today, accompanied by Col. T. C. McIlhenny, to Castle Hayne, where he will plant this year between 300 and 400 acres of the plantation and may later on in the season put the balance into oats and wheat.

The extent of the phosphate discovery is as yet unknown. It was first found by Col. McIlhenny, who called Dr. Hogg's attention to the fact. Some of the deposit was then taken out and sent to Raleigh where it was analyzed and pronounced valuable. There is enough of the rock to fertilize the plantation and measures to grind it will soon be put into effect.

Attention is invited to the advertisement of Mr. Joseph Denck, piano tuner, who will remain here a few weeks longer to receive orders as to work in his line.

In speaking yesterday of Col. John D. Taylor in connection with the office of city Clerk and Treasurer, the word "probably" was omitted, the insertion of which changes an assertion into the expression of an opinion.

Miss E. Karrar has just returned from the Northern markets where she purchased a large stock of the newest and prettiest and most stylish goods she could find. On Monday and thereafter she will be prepared to exhibit them to the ladies.

Messrs. Jackson & Bell have four presses hard at work every day in the week and they are all run by water power. They turn out beautiful work and in advertisement published elsewhere in this issue they call the attention of our readers to the facilities they possess.

To Builders and others—Go to JACOBI'S for Sash, Blinds and Doors, Glass &c. You can get all sizes and at the lowest prices.

Capt. Dick Patterson, who was in the city to-day, tells us that the fruit on Black River is apparently less injured than was at first feared. He thinks that 25 per cent. will cover the loss sustained. The accounts from the Sounds and the interior are, we are sorry to say, not so favorable, as there are fears in many places of an almost entire destruction of the crop.

Criminal Court.

The proceedings to-day, up to the close of our report, have been confined to the following case:

Mary Hay, keeping a disorderly house. Jury out.

For Pocket Knives or Table Cutlery, go to JACOBI'S Hardware Depot.
