THURSDAY. APRIL 19, 1883.

Entered at the Postoflice at Wilmington, N. C., as second-class matter.

It may be expected that the people of Boston and vicinity may begin to find some redeeming qualities in Hon. Jefferson Davis, in view of some of his recent utterances. That distinguished Southern gentleman, in conversation recently, stated that John Quincy Adams was the most genial gentleman he ever met, and such an expression from a person so eminently qualified to judge must thaw Boston's frigid heart if purchased by New York in Bermuda it is susceptible of warmth.

American bonded whisky is being exported to Bermuda and immediately returned. The barrels are simply rolled ashore and back aboard ship. This enables the American consul to certify that the whisky had landed, and on its return to New York it can remain two years longer in the United States bonded warehouse without paying taxes.

F. E Driggs, a Detroit lawyer, is the author of a bill now before the Michigan Legislature, which provides that a man may prove his will during his litetime, after giving notice, to his heirs in-law, and that it shall thereafter be unassailable. The bill is calculated to reduce the number of will contests to a minimum, and is entitled to the commendation which every measure looking to the suppression of useless litigation should receive.

MISCELLANEOUS.

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is postively not injurious.

Saved his Child.

17 N. Eutaw St., Baltimore, Md. Feb. 12, 1880. Gents :-- Upon the recommenda-tion of a friend I tried BROWN'S FRON BITTERS as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daugh-ter had taken one bottle of BROWN'S IRON BITTERS, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were re-quired;" and when informed that the elder sister was taking BROWN'S IRON BITTERS, responded "that is a good tonic, take it."

There is a historical dispute of long standing as to how the United States acquired its title to the territory included in the present limits of the State of Oregon. General Francis A. Walker in the Statistical Atlas published in connection with the census of 1870, marked it as a part of the Louisiana purchase made by Jefferson in 1803; but the acouracy of that statement has since been questioned. The principal authority for regarding Oregon as part of the Louisiana purchase is the lact that it was so marked in a map prepared by Barbe-Marbois, the negotiator of the treaty on the part of France. On the other hand, tion for all we care. in his history of the treaty, he expressly States that the United States Government did not purchase the territory referred to, but acquired it by a simple over her head to keep off the sun, and act of appropriation.
