JOSH. T. JAMES, Editor & Prop. WILMINGTON, N. C.

SATURDAY, APRIL 28, 1883

Entered at the Postoffice at Wilmington, N. C., as second-class matter.

The loss by worn silver coin withdrawn from circulation in Great Britain during the past year amounted to not less than £35,000.

Ex-President Davis thinks that, considering the circumstances, Mississippi is doing very well in the way of progress.

In a period of six months Georgia will soon have had four Governors, Colquitt, who was advanced to the United States Senate; Stephens, who succeeded him and died while holding office; Boynton, who was Stephens' temporary successor, and McDaniel, who has been nominated by the Democratic party and will be elected to fill out the remainder of Stephens' term.

Two pairs of feminine eyes play a part in the Star route trial. "The two ladies, whose striking beauty makes them the subject of much remark," writes the Washington correspondent of the Baltimore Sun, "show constant interest in every feature of the trial, and their patient and untiring watchfulness can but be noted by judge, jury, counsel and spectators.

The Republican party must be in a pretty bad way when even Private Dalzell gives it up, and that prophet who has always enjoyed great honor in his own estimation, if not in his own country, makes moan as follows: "Where is the great groundswell to come from that is to make us mount up to the skies once more? I have always prophesied great victories for our party—it always surpassed my expectations. But now I confess that my only hope of future Republican ascendancy is in the tender mercies and blind blunders of the Democratic party."

A London special to the New York Tribune says: "The reassuring statements about the Queen's health, like the first contradiction of the reports of a serious accident, do not correspond with the private medical accounts. The Queen herself, though suffering much, strove to make light of the affair, refusing to see a surgeon till Sir William Jenner positively declined further responsibility. Sir James Paget, who was then summoned, forbade the journey to Balmoral, but allowed the journey to Osborne, on condition of the Queen's observing the greatest precaution. He declared that the injured ankle would require certainly weeks, probable months, for a complete restoration. People about the Queen say that she bears the enforced inactivity well, but they dread the effects of the prolonged deprivation of the exercise which she has always been accustomed to take freely."

Numerous anecdotes, illustrative of Lady Florence Dixie's eccentricities, have lately been told. Upon one occasion, while walking along the river bank with a gentleman, a friend of her husband, she suddenly stopped, pulled a revolver out of her pocket and fired a shot into the air. Rather startled at this unusual action upon the part of a lady, the gentleman demanded what she meant by it. "Oh," said Lady Florence with a laugh, "there are two lovers 'spooning' under the tree yonder and I thought I'd give them a bit of a scare." She proceeded to brag about her skill with the revolver, and finally challenged her companion to throw his hat into the air and she would shoot at it. This was done, and the Amazon cleverly put a bullet-hole through it. "Now," said the gentleman, "it is my turn; let me have a shot at your hat." No sooner said than done, up went Lady Florence's "deerstalker," and it was nearly shot through by her companion, who then coolly turned round and pitched the weapon into the Thames, quietly remarking that the river was the best place for ladies' revolvers. Right opposite "The Fishery," where Sir Beaumont Dixie resides, is the country residence of Lord Sandys, and the lawn of the latter stretches clear down to the water's edge. Some time ago Lord Sandys gave a dinner party, and Lady Florence Dixie was one of the invited guests. Before the dinner, Lord Sandys, with one of his friends (through whom the story comes to me,) was enjoying a breath of fresh air on his lawn in the gloaming, when a sound of splashing drew their attention towards the river. In another moment a dripping figure

emerged from the water. The naiad turned out to be Lady Florence, who had swum across from "The Fishery" in a bathing gown, and sent her maid round by the bridge with her clothes.

A specific, and the only one too for all forms and types of skin disease, is known the world over as Dr. Benson's Skin Cure. It is not a patent medicine, but a reliable, certain remedy. Druggists.

PERSONAL.

Alexander Mitchell has in his house in Milwaukee probably the finest library in the West.

Melvin Carey, aged 13, employed in Gilbert's Mills, Oswego, does not like talking, and has only spoken to his own family and his schoolmaster in his life. In fact, it was only by a severe walloping that he was induced to open his mouth to the latter.

A Mr. Muth, of Paris, in Kentucky, has a violin made in 1656, which been in the Muth family for over two centuries and has furnished music for royalty in the Old World. Violins of that period are said to be worth from \$3,000 to \$5,000, but that amount would not purchase the one in question.

The President, it appears, worshipped very industriously in Florida on Sunday—at the Episcopal church in the morning, at the Catholic in the afternoon, and at the colored Methodist in the evening. In this way he not only showed the breadth of his theological grasp, but furnished proof that he was not out fishing.

Private advices from Providence, R. I., indicate that Senator Anthony cannot recover, and that his death may be looked for at any moment. The long expected change for the better has not arrived.

Flies and Bugs.

Flies, roaches, ants, bed-bugs, rats, mice, gophers, chipmunks, cleared out by "Rough on Rats," 15c.

SHORTS.

Only twelve Texan legislators are natives of the State.

The additions to the Berlin Bourse will make it the largest in the world.

Wagons are being constructed in Milan to convey Italian grapes direct to the wine factories of France.

Lady Wilde tells us that "it is not impossible that a new dialect, which may be called Americanese, will be rapidly formed."

The Austrian Government has forbidden the circulation of a paper which was the medium of disseminating anti-Jewish songs &c.

Montreal and other large Canadian cities complain of the diversion of capital to Winnipeg, and will view a "burst up" there with limited sympathy.

We read in the Millinery Trade Review, on the authority of an ancient drummer, that "the moment a drummer feels himself insulted he is unfit for the business."

A very significant proof of the reduction in coal waste resulting from the efforts of the Anti-smoke Association is seen in the fact that in 1882 there was a decrease of 183,173 tons in the coal brought into London.

The Kansas City Journal says that owing to the great number of unoccupied dwelling houses, rents will not be advanced in New York. It would be interesting to many to learn whereabouts these houses are.

A capitalist offered to erect at St. Paul a \$750,000 hotel provided the citizens would subscribe \$200,000, to be paid on the completion of the building. The offer was accepted. Kansas City is now looking for a similar offer.

Dr. Pierce's "Pellets"—little liver pills (sugar-coated)—purify the blood, speedily correct all disorders of the liver, stomach and bowels. By druggists. wed sat.

MOONSHINE.

A German went to a friend and said: "To-morrow I owe \$20,000. I am ruined. I cannot pay it, and I cannot sleep a wink." The creditor said: "Vy didn't you 'vait to deli me to-morrow? Now neither can I sleep a wink."

A Boston man who had his nose mashed over his face during a personal unpleasantness in a Chicago bar-room, was told by the doctor that it was a simple case of molecular disintegration. "Thank you," he said, "I feel better already, that sounds so much like home."

A French inventor has an apparatus for curving the tail of a pug dog, so that its mistress can grasp it securely and convey it to the opposite side of a muddy street. When a great necessity becomes fully known, the invention to meet it is always on hand. "Ella is better looking," remarked Mrs. Brown, with a smirk, "but Lucy will get married first." "Yes," chimed in her husband, "gimme Lucifor matches every time." The jury rendered a verdict of justifiable homicide, and Mrs. Brown is looking for a punless husband.

The peculiar feature of a Rochester, New York, girl's insanity is her mania for sawing wood in the back yard at midnight. There are men mean enough to wish that such insanity was prevalent among married women.

Dr. Benson's Celery and Chamomile pills contain no opium, quinoline, or other harmful drug and are highly recommended for headache, neuritis and nervousness. 50 cents, at druggists.

The Secret

of the universal success of Brown's Iron Bitters is simply this: It is the best Iron preparation ever made; is compounded on thoroughly scientific, chemical and medicinal principles, and does just what is claimed for it—no more and no less.

By thorough and rapid assimilation with the blood, it reaches every part of the system, healing, purifying and strengthening. Commencing at the foundation it builds up and restores lost health—in no other way can lasting benefit be obtained.

Dearborn Ave., Chicago, Nov. 7. I have been a great sufferer from a very weak stomach, heartburn, and dyspepsia in its worst form. Nearly everything I ate gave me distress, and I could eat but little. I have tried everything recommended, have taken the prescriptions of a dozen physicians, but got no relief until I took Brown's Iron Bitters. I feel none of the old troubles, and am a new man. I am getting much stronger, and feel first-rate. I am a railroad engineer, and now make my trips regularly. I can not say too much in praise of your wonderful medicine. D. C. MACK.

BROWN'S IRON BITTERS does not contain whiskey or alcohol, and will not blacken the teeth, or cause headache and constipation. It will cure dyspepsia, indigestion, heartburn, sleeplessness, dizziness, nervous debility, weakness, &c.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

HOME COMFORT.

AFTER A RAINY RIDE A COUNTRY PHYSICIAN TELLS WHAT HE THINKS OF SOME PEOPLE.

"I wish to gracious some people would learn when they need a doctor and when they don't" exclaimed Doctor E—, as he entered his home in a cosy little village in the interior of the State of New York, after a tedious night ride of many miles. "I have been down among the mountains to see a man, who the messenger said, was very sick and not likely to live 'till morning, unless he had immediate help; and found him suffering from a rather sharp attack of colic, which his family might have relieved in ten minutes, if they had a grain of sense and two or three simple remedies in the house. But no; they must remain ignorant as pigs, and when the least ache or pain takes them, send for a doctor, whether they ever pay him or not."

"Why, Doctor, what kind of simple remedies, as you call them, do you expect people to keep in the house?" asked his wife, as she poured him a cup of hot tea.

"In this case," answered the doctor, "if they had only put a BENSON'S CAPCINE PORUS PLASTER on the man's stomach, he would have been all right in an hour, and saved me a dreary ride."

In all ordinary complaints it cures at once. All diseases are eliminated from the system by what may be roughly called expulsion or extraction, or by a union of the two processes. Benson's Plaster promotes both. It incites the torpid organs to act, and sends its healing, soothing influence through the myriad pores of the skin. All other plasters oblige the patient to wait. They give him hope for to-morrow. Benson's plasters give him help to-day. Which is better, do you think? Buy the CAPCINE and keep it in the house. Price 25 cents.
