**Settled at Last.**  
We learn that the meeting of the Young Men's Hebrew Association, held last night at Germania Hall, was quite largely attended and that the exercises created much interest. The question for discussion, "Is Nature more pleasing to the eye than Art?" was discussed in the affirmative by Messrs. Isaac Bear and Isaac Levy, and in the negative by Messrs. L. J. Otterbourg and W. Weill. The discussion occupied about an hour of time, and resulted in a victory to those who advocated the negative side of the query.

**Thieving Rats.**  
Mr. Savage, at the poor house, has recently lost quite a number of young cabbages and was at a loss to know what became of them until he was informed, a day or two since, that they were stolen by rats. He could hardly believe the statement, but as the plants continued to be taken, he concluded to watch and this morning discovered the mischievous rodents at work, and shot two of them while in the act of carrying off the plants.

**A Good Life Ended.**  
Mr. Charles Page, one of the oldest citizens of Duplin county, died at his home in Rockfish township on the night of the 3rd inst. Mr. Page was born in the year 1800, and was about 83 years of age. During his long life he had been a useful citizen, an industrious farmer, a kind neighbor, and for many years a consistent and conscientious Christian. He was universally esteemed and respected, and although of a modest and retiring disposition, his influence for good was important and manifest in his neighborhood. A good man has gone to his rest.

**Truck Gardens.**  
We are glad to know that some of our farmers outside of the city are devoting much attention to the cultivation of early vegetables for this and other markets. Quite a number have entered the work energetically and with success. We learn that the truck farm of Mr. C. H. Heide, about three miles from the city, on the Duplin road, is one of the finest in this section, such as it is a pleasure to look upon. He takes very great pride in the business of agriculture and has brought his farm to the highest state of cultivation, so that it will soon be a source of real profit as well as pleasure.

**Prof. Hobbs' Lecture.**  
There was an audience estimated at between 60 and 70 persons assembled at Tileston Hall last night to listen to the lecture on Thorough Bass and Harmony by Prof. Hobbs. We have been informed by one who was present and who is entirely competent to speak understandingly, and to judge impartially upon the subject, that the lecture, although very short, was interesting, entertaining and highly instructive to those who have any knowledge of, or fondness for, the profound science of music. Prof. Hobbs sketched rapidly over a great deal of musical ground, but in such a manner as to explain many matters heretofore unknown by the non-musical public so that they could be fully understood. His lecture will undoubtedly result in good, as it will be apt to awaken more interest in the study of music and musical science than has ever prevailed in the city. To those who attended the time was well and profitably spent.

**American History.**  
We have received the May number, which is No. 5, of volume IX of the "Magazine of American History," illustrated. It contains valuable historical matter pertaining to our country from its earliest settlement to the present time. The several articles in the present number are of national interest and are prepared by persons possessing every qualification for the important and difficult task. Among the papers in this issue is an exact copy of the "Petition to the King by the Continental Congress of 1774," with a fac-simile of the autograph signatures of the immortal fifty-one who signed the last appeal on the part of the American Colonies to prevent the irrepressible conflict. The signers of that petition from North Carolina were Will Hooper, Joseph and E. Caswell. There are many other important papers and articles in the number which we have not time or space to notice in this issue. The work is edited by Mrs. Martha J. Lamb, and published by the "Historical Publication Co.," 30 Lafayette Place, N. Y., in monthly parts at 50 cents a number or \$5 a year in advance.

For Pocket Knives or Table Cutlery, go to JACOBI'S Hardware Depot.

## Open Gate.

It has been presumed by many that carriages would not be allowed to enter the grounds of the National Cemetery, but we understand that Mr. R. C. Taylor, the superintendent, will permit carriages to enter at all times between sunrise and sunset on all days in the year, so that those who may desire can enjoy a drive through the different avenues at pleasure.

## University Catalogue.

We have received from President Battle a copy of the Catalogue of the University of North Carolina for 1882-'83. The number of matriculates is 208, the largest number since 1861. Of these 11 are Post Graduates. The Law School has 21. The pamphlet is well printed by Edwards, Broughton & Co., and does them credit.
