THE DAILY REVIEW.

VOL. VII.

WILMINGTON, N. C. WEDNESDAY, MAY 16, 1883.

NO. 117

Among the large towns of North Carolina we consider Raleigh the handsomest, and we have seen them all. Of those of the smaller places we have seen we incline to the opinion that it lies between Wilson and Tarboro with the advantage rather in favor of Wilson. We have seen all of the towns from Salisbury to Elizabeth City with the exception of two or three small ones.

Every man to his taste, of course, but we cannot admire the taste of any one who will call Raleigh a prettier town than Wilmington, and we say this dispassionately. As for Wilson, we can name half a dozen places ahead of it, among which are Chapel Hill, Wadesboro and Pittsboro. Wilmington's claim to beauty is conceded by all of the strangers who stop here, especially during the months of May and June. Wilson is a pretty place and so is Kinston but we do not know that there is anything especially attractive about them. Raleigh has a beautiful location but when you say that much you say about all that there is to be said.

Rain in the Country. We learn that the section of country between Clinton and Warsaw was visited by copious showers on Monday evening last, during which considerable hail fell, but not enough to damage the growing crops. The thunder and lightning were described as terrific, but we have heard of no damage being done. Rain was seriously needed in that section, and the shower came most opportunely.

Personal. Col. H. B. Short was in the city this morning, having just arrived from New York, where he has been for the past three weeks. Wadsworth, Miss Laura Yates, Mr. W. R. Burwell, Dr. J. New Hotel for Wilmington. On last evening a number of citizens assembled at the Mayor's office, in the City Hall, and a meeting was organized, on motion of Mayor Hall, calling Donald MacRae to the chair and requesting B. A. Hallett to act as Secretary.

The Chairman explained the object of the meeting to be to take the initiatory steps which he hoped would result in the erection of a first-class hotel building in this city. He said that it could not be denied that Wilmington was much in need of such a building, and he hoped that all the citizens would take a lively interest in this important matter and push it until the object was attained.

A number of those present expressed their opinions, all coinciding with the Chairman in Wilmington's need of such a hotel building, and their determination to do all in their power for the accomplishment of the object of this meeting.

On motion of A. H. Greene, it was voted that the Chairman appoint a committee, of five, of which the Chairman of the meeting may be Chairman and Mayor Hall be a member 'ex officio' to confer with the citizens urging the accomplishment of the object and that another meeting be called at the pleasure of the Chairman of the committee.

The Chairman, appointed Messrs. D. G. Worth, F. Rheinstejn, J. H. Chadbourne, A. D. Brown and G. W. Williams as the committee. On motion the meeting adjourned to meet at the call of the Chairman. DONALD MACRAE, Chm'n. B. A. HALLETT, Sect'y.

Death of Mrs. Knight. It is with great regret that we announce the death of a most estimable lady, the wife of Capt. James Knight, Master of Transportation on the W. & W. and W. C. & A. Railroads, which occurred about 11 o'clock today, of heart disease. Mrs. Knight had not been ill, and the blow was an exceedingly sudden one. At breakfast time this morning she complained of feeling unwell and ate but little, and on speaking of a shortness of breath was advised by Captain Knight to take some remedy for it. No alarm was felt by that gentleman, who naturally thought it the result of some trifling disorder and he departed for the depot. A little later Mrs. Knight seems to have become herself alarmed at her symptoms, as she had long felt convinced that she was afflicted with the dreaded heart disease, and sent for a lady friend, a neighbor, who promptly answered the call, and prescribed for her such remedies as she thought most efficacious. This lady did not think Mrs. Knight seriously ill, yet advised that medical aid be summoned. This advice was followed and Dr. Thomas, the family physician, soon arrived at the house. He was received by Mrs. Knight who had scarcely greeted him, remarking that she felt very unwell, when she fell back in her chair and expired.

Much Better. The change of schedule on the Carolina Central R. R. will probably bring down to us a great many more visitors this Summer than in any former season. As it is now arranged, our country cousins can reach the city in time to catch the *Passport* for a trip down the river and can return in full time for the evening train, they being absent from home but one day.

A Stranger. The steam tug *Cyclops*, Capt. Denyse, arrived here this morning, from New York. She came into our waters for the purpose of towing the disabled schooner *Earl H. Potter*, to Philadelphia, whither the latter was bound from Mayaguez, W. I., when she put in at Smithville a few days since dismasted. The *Cyclops* came up to the city for coal and proceeded on her return to Smithville as soon as she had received a supply.
