The News and Observer has a special from Newbern, dated June 5th, (Mon day) relative to the Raleigh mandamus case. We clip:

The mandamus cases of Stewart El lison and others against the alderman of the city of Raleigh were heard today before Judge Philips. Messrs. Fowle and Argo represented the plaintiffs, and Messrs. Snow and Busbee the defendants. After argument the Judge decided that the pleadings raised issues of the fact, and continued the cases for the issues to be tried before a jury at the next regular term of the Wake Superior Court. The Judge granted an order in each case for the plaintiffs to justify to their prosecution bonds by the 26th of June, or to give new bonds. Each side submitted motions to make addition parties, which motion the Judge has not yet decided.

Capt. V. V. Richardson, of Columbus county, was in the city this morning. He informs us that the storm, which raged with such severity here on Saturday last, was no more than a refreshing rain in his section, without any accompaniment of damaging winds. He also states that the crops in his section are in fine condition and growing rapidly.

Some thirty-odd white persons from this city participated in the excursion recently given to Charleston, and it is thought that more than double that number would have gone had the affair been advertised. The whites had a car to themselves, and they say that they enjoyed the trip very much. They al returned safe and sound this morning.
