The Charleston News and Courier thinks, with the REVIEW, that the accomplishment of an impossible possibility, the nomination of B. F. Butler, for President, would be an act of political suicide. It says:

We do not know whether it is within the range of possibility for Governor Ben Butler, with his brass and his barrel, so to fascinate the Democracy of the North as to induce them to give remedies give general satisfaction. him the nomination for the Presidency. But we think we speak the unanimous sentiment of Democrats in South Caro lina when we say that such a nomination would break up "the Solid South" more suddenly and completely than any other political event under the sun-

The Republicans are bringing all of their tactics to bear to defeat Judge Hoadly in Ohio. When this is said it will be well enough understood that all of the peculiar means in the disposal of the great party of moral ideas, not the least among which is defamation of character, will be brought into play. The New York Herald says:

predicted that it would not be long before the Republicans discovered him to be a vile wretch. When one party nom. inates a man of undoubted honesty and distinguished ability on a really strong platform the other party has no resource except to denounce the candidate at once and without stint.

We are not surprised, therefore, to see it announced in triumphant tones. by-different Republican journals that Mr. Hoadly is the tool of the Standard Oil Company, the agent of grogshop keepers, "the saloon candidate," an infidel, an equivocator, a hypocrite, a self-seeking turncoat, insincere, a sneak, "ab surdly illogical" and little better than a

In order that this long ca talogue shall not needlessly startle Mr. Hoadly's friends, who have hitherto believed him to be an honorable and uncommonly able man, we will add here a statement made to a Tribune correspondent by Mr. Rutan, who is described as one of the foremost and best informed republican politicians in Western Pennsylvania. Yesterday afternoon a horse attached to a carriage, from which a young man had just alighted, was standing in front of Piney Grove Hotel, at the Sound, when the animal became frightened a the report of a gun which some one had fired, and started off at the top of his speed before any one could stop him. Your Home Merchants.

The REVIEW has repeatedly urged upon its readers the fact that in patronizing their home merchants they are patronizing themselves, and it was only last week that we expressed disapproval of the giving out to Northern printers, by the State authorities, work that could be done just as well in North Halsey Bowden, Esq., one of the Carolina as in New York. The adoldest and most respected citizens of vantages are all in favor of the home Warsaw township, Duplin county, is in trade. When an article is ordered from the city on a brief visit. It is your home; you cannot improve it much by taking your money away to invest. There is no way of improving a place so much as by encouraging good merchants, good schools and good people to settle among you, and this cannot be done unless you spend your money at home, for there is where you get it. Spend your money at home, because when it is necessary to get credit it is of your own town merchants you have to get it, and they must wait for the money. Spend your money at home. It will make better business for your merchants. They can and will keep better assortments, and sell at lower rates than if the only business they could do was to credit out, while the money goes to other places. Spend your money at home. Set the example now. Buy your dry goods, groceries and meat in town, and you will see a wonderful change in a short time in the business outlook of the place; therefore deal with your merchants at home. Your merchants are your neighbors and your friends; they stand by you in sickness—are your associates. Without your trade they cannot keep up business. No stores, then no one wanting to buy property to settle on and build up the place.
