THE DAILY REVIEW.

VOL. VII. WILMINGTON, N. C., WEDNESDAY, AUGUST 1, 1883. NO. 182

Anita Theresa Murphy, who was lately married to Sir Charles Michael Wolsey, is a daughter of David G. Murphy, the senior member of the dry goods firm of Murphy, Grant & Co., of San Francisco.

The locusts of the East eat the crops and the Arabs eat the locusts as a regular article of diet. By some of the natives they are eaten with oil after being stripped of their legs and wings; but Lady Anne Blount, in her travels, was in the habit of boiling them and dipping them into salt. Their flavor is described as savoring of a vegetable, not unlike the taste of green wheat.

We lose this month 50 minutes of daylight.

But one bale of cotton received at this port to-day.

Marry in haste and repent at—your father-in-law's

This month has five Wednesdays, five Thursdays and five Fridays.

There was no business calling for investigation at the court this morning.

Never propose to a girl in writing. It is "present company" that is "always accepted."

The volunteer telegrapher holds the key of the wires; but the striker outside hold the key to the situation.

Steamship *Regulator*, Capt. Doane, from New York, arrived at her wharf in this city at about 4 o'clock yesterday afternoon.

Both the freight and passenger traffic on the several railroads leading from this city is considerably on the increase within the last week or two.

We saw some very nice palatable looking grapes in the market this morning. They were raised on the Sound and were the nicest we have seen of this season's growth.

A great number of our citizens are now absent from the city. Nearly 40 left on this morning's train, bound North, some for pleasure, some for health and a few on business.

What with the Fruit Grower's Fair, the meeting of the Pharmaceutical Association and other movements tending to bring strangers to the city, August promises to be quite a busy month.

This is the first day of the last month of Summer and it has made a vigorous and successful struggle to keep up the conventional Summer heat. There are no indications of an immediate demand for Fall and Winter clothing.

Cotton.
The receipts of cotton at this port for the month of July just closed foot up 143 bales, as against 220 bales for same month last year, a decrease this July of 77 bales. The receipts of the crop year to date foot up 127,415 bales, as against 136,137 bales to same date last year, a decrease this year of 8,722 bales.

Crops at Clarkton.
Mr. John H. Clark, of Clarkton, Bladen county, was in the city to-day. He tells us, what we are sorry to learn, that the crops in his section are suffering very much for the want of rain. There was a slight sprinkle last week but this was about all that they have had there for more than a month past.

Ho For Washington!
The arrangements for an excursion to Washington City are now complete, and the managers assure the public that everything which will tend toward their comfort will be done. No objectionable persons will be allowed on the train and separate coaches will be provided for whites. To those who have never been to Washington, the excursion furnishes a capital opportunity. For particulars see advertisement in another column.

Rare Chance to Visit Washington, D. C.

Harbor Master's Report.

Capt. Joseph Price, Harbor Master, reports the following arrivals at this port during the month of July:
American—steamers 5, tonnage 4,227; schooners 14, tonnage 3,199; total 19 vessels, aggregating 7,426 tons.
Foreign—barques 1, tonnage 348; brigs 1, tonnage 375; total 2 vessels, aggregating 723 tons.
Grand total 21 vessels and 8,049 tons.

Sale of Real Estate.

Mr. Marsden Bellamy, commissioner, sold at public auction this morning a vacant lot on Fourth, between Nun and Church, 66x165 feet, for \$375 which was purchased by Capt. D. O'Connor. Mr. Bellamy, as Executor of the estate of N. C. Shields, also sold at same time, to Col. D. Klein, for \$600, the property belonging to the estate of the said Shields, on Dickinson street, and now occupied by Col. Klein, as advertised in the REVIEW.

They Say.

It is said that Messrs Holmes & Watters are to occupy the store to be vacated by Messrs Brown & Roddick; that E. J. Moore & Co. are to occupy Holmes & Watters' old stand; that Dr. J. T. Schonwald is to open a drug business in the store vacated by E. J. Moore & Co.; that a new millinery establishment is to be opened by a New Yorker in Brown & Pearson's present barber shop; that Mr. J. E. Shrier, of Norfolk, is to open in Hahn's stand and that Mr. Hahn is to move from the city. All of the above business changes to take effect October 1st.

Not Serious.

Mr. C. W. McClammy, who, in the absence of Capt. R. S. Radcliffe, has supervision of the new building now in progress of construction for Messrs. Brown & Roddick, met with a painful, although not serious accident this forenoon. While near the building referred to, a piece of scantling fell from the roof and struck on the upper portion of one side of his face and scraped off considerable flesh. No bones were broken as the angle of fall only reached the flesh. A little adhesive plaster was applied to bring the lacerated parts together, and Mr. McClammy was soon attending to his business as usual.

North Carolina Pharmacists.

The fourth annual meeting of the North Carolina Pharmaceutical Association will be held in this city, commencing on Wednesday, Aug. 8th, and continuing three days. At the same time the State Board of Pharmacy will hold a session for the purpose of examining applicants who may desire to practice pharmacy. While here the members of the Association from abroad will be entertained by an excursion to Smithville and the Forts and a dinner at the Hotel Brunswick, given by the druggists of this city. Reduced rates have been secured for the occasion on all the railroads leading into the city.

A Fortunate Escape.

As Mr. H. M. Bowden was coming from the Sound to the city this morning, and when but a short distance from the second toll-house, the horse he was driving tripped and came near falling. This brought such a strain upon the check-rein that the bit was broken, and the animal, in consequence, became independent of control or guidance. He was a spirited beast, and started off at a brisk pace, which increased in speed as he found that he was his own master; Mr. Bowden, in the meantime, endeavoring to calm and quiet him down by the tones of his voice. Finding this was of no avail, after having ridden about two miles, to near the Mineral Spring, Mr. Bowden got out of the rear end of the buggy and escaped unharmed. Not so, however, with the team, for it had gone but a short distance when the buggy was overturned in a ditch and pretty thoroughly smashed up, leaving only the shafts attached to the horse. With this, the animal came into town at full speed and ran into Mr. Jones' stable, on Princess street, where he was secured. He was considerably bruised and battered by the loose shaft, but it is thought that his injuries are not serious. Fortunately, none of Mr. Bowden's family were with him at the time, or the accident would probably have been much more serious in its results. It was fortunate, also, that Mr. Bowden left the vehicle at the time he did, for had he remained a moment or two longer he would have been thrown over with it, and would have hardly failed of receiving serious, if not fatal, injuries.

The Great Strike.

We understand that on yesterday the railroad operators throughout the country were ordered by the Brotherhood to refuse all commercial matter, and that they have obeyed. This is the only new feature in the strike hereabouts. The following was received here this afternoon:
New York, Aug 1st.—The report sent out by the Associated Press last night that I acknowledged the strike to be failure is without the slightest foundation. I am more confident than ever that we will succeed. The Western Union is in a worse condition than at any time since the strike was inaugurated.
JNO. CAMPBELL.

Personal.

Our good friend, Mr. John R. Paddison, of Point Caswell, was in the city to-day and called to see us. We are sorry to learn that he is still fixed in his determination to leave the old State. He has recently returned from a trip to Georgia, and has decided to locate at Valdosta. While in that State he visited much of the turpentine districts as well as the farming sections behind them, and speaks in very warm terms of the kindly, and cordial, and courteous manner in which he was received by all with whom he came in contact. The turpentine forests there, he says, are immense, and in many places untouched.
Mr. Paddison offers in this issue his stock of merchandise, house and lot and other valuable property at Point Caswell for sale. This property is not only valuable now but has a prospective value in view of the early completion of the Clinton & Point Caswell R. R.
